

KERR RESIGNS POST AS U. S. EMPLOYMENT DIRECTOR IN STATE

E. H. Hasbrouck Appointed to Act in His Place and Boise Made Headquarters for Idaho.

Marion J. Kerr of St. Anthony has resigned as state director for the United States employment service. His resignation has been accepted by the department at Washington and E. H. Hasbrouck has been notified of his appointment as acting director. Boise is made state headquarters.

Inability on the part of Mr. Kerr to give his time to the work, especially in the event headquarters was moved from St. Anthony to Boise, is said to be the cause for the former director stepping out. A readjustment was found necessary of the employment offices as the last congress failed to pass the necessary appropriation for the support of the federal government service. Notification was sent to the district offices in Twin Falls, Idaho Falls, Pocatello, Moscow and Wallace, that if the employment offices there are to be maintained they would have to receive local support, as federal assistance would have to be cut off. An allowance was made for the Boise office.

Acting Director Hasbrouck states that the office will be maintained here and with the limited means at his command every effort will be made to find employment for those desiring it especially for returning soldiers and sailors.

AN AUTO DREAM

By Early

LULLED by the sweep of the winds and the whir of engines, remembering clouds of dust and fleeting glimpses of dashing girls and motor cars, it's no wonder that HE should have a mixed-up dream. There SHE is soaring from the dust—ALL girls represented by the ONE girl—and around the brim of her big picture-hat, race autos. But, then, when one's HEART is troubled he'll dream 'most anything so long as SHE is in HIS dream.

Governor Davis is now working on the commission empowered by the last legislature to locate the two tuberculosis hospitals to be erected in this state. One of the commissioners will be Mrs. W. L. The commission has \$5000 with which to meet the expenses of its preliminary work.

To meet the expense of erecting the two tuberculosis hospitals a levy of one-fourth of a mill is provided on all taxable property of the state for 1919, and one-eighth of a mill for 1920. These two levies will raise \$185,000.

Sites for the hospitals have already been offered. It is probable that before the commission takes any action along this line an expert with the national association will be called to Idaho to carefully consider all sections best adapted to hospitals of this kind.
