

GREECE ASKS TURK CAPITAL BE TURNED TO WORLD'S CITY

If Constantinople Can't Be Made Over to Greece, Then Venizelos Favors City as Capital of Nation League.

ACTION WOULD SOLVE IMPORTANT PROBLEM

Premier's Claim to Ottoman City Based on Historic and Economic Grounds; Was Formerly Greek Capital.

By HENRY WOOD.
Paris, Jan. 16.—If Greece can not have Constantinople for its own seat of government, it wants that ancient city to be set aside as the permanent capital of the league of nations. This developed today during discussion of Premier Venizelos' presentation of Greece's political and territorial aspirations. Greek delegates pointed out that establishment of Constantinople as capital of the league of nations would automatically result in its internationalization together with the Dardanelles. It was further suggested that the immediate hinterland on both sides of the strait should be placed under the control of the league. Thus the freedom of the Dardanelles and elimination of the Turk from Europe—two important problems of the peace settlement—would be settled simultaneously.

WAS FORMER CAPITAL.

Venizelos, who is the most remarkable statesman the Near East ever produced, seeks not only complete unification of the Greek people but permanent settlement of all Balkan and near eastern problems in the memorandum he has submitted to the peace congress. His claim to Greece's own right to Constantinople is based on both historic and economic grounds. The city was the Greek capital for centuries. Its present population includes 300,000 Greeks and there are 37 Greek schools with 20,000 Greek scholars.

The Greek premier in his memorandum takes up four regions which he desires to incorporate into modern Greece—North Epirus, Thrace, Constantinople and the Asia Minor Littoral.

ARMENIA SEPARATE STATE.

Venizelos would divide North Epirus between Greece and Albania. He would have the Greek-Bulgarian boundary follow the Arda and Maritza rivers, thus cutting off Bulgaria from the Aegean sea giving Greece a great portion of ancient Thrace. Armenia, he suggests, should be made a separate state but the Villayets of Abrusa, Aidin, San Jaks and Ismid with the adjacent islands, should be annexed by Greece.

The city of Brusa however, he would turn over to the new Turkish government, together with its Marmoran port.

DEMAND MODERATED.

This settlement would still leave more than 100,000 Greeks in Turkish Armenia, but Venizelos today suggested a reciprocal emigration, these Greeks moving into Aidin and Brusa while the Turks within the Greek provinces move into Turkish territory.

Venizelos reminds the peace delegates that the entente promised Greece important territorial concessions in Asia Minor for her military intervention, which the allies later turned down when Venizelos was in a position to offer it. The premier's memorandum is said to be a great moderation of the original concessions.

IOWA GOVERNOR URGES ALIEN LINGOES BARRED

Des Moines, Ia., Jan. 15.—Taking the oath of office as governor for the second term, William L. Harding this afternoon came out strongly for the use of only the English language in all grade schools.

"The only language of Iowa in all grade schools must be English," said Harding in his inaugural address. "It must also be the only means of instruction in all studies in other institutions of learning. Those that are opposed to this program do not belong here."

SWAN SONG

(Continued from page one.)

922 breweries; and over 200,000 saloons and wholesale liquor establishments, forcing their employees to seek other jobs.

Cut off from these persons annual income totalling more than \$70,000,000 in pre-war times.

HUGE TAXATION LOST.

Cut off from the United States treasury a source of taxation counted upon for an even billion dollars in the first drafts of the new revenue bill and millions in additional incomes to state treasuries.

Remove the liquor question from national, state and city politics for all time and help decrease city, state and federal expense by decreasing law violations.

Corporal S. O. Pease, who is in France writes that he expects to be home soon.

SEEKS FOURTH TERM AS CHICAGO MAYOR

Capt. Carter Harrison, now with the Red Cross in France, has been mayor of Chicago three times. He is now a candidate for a fourth term on the Republican ticket.

CARRANZA WARNS NEED OF PEACEFUL ELECTION

Mexico City, Jan. 16.—President Carranza in a formal statement to the Mexican people today warned the constitutional party that it must maintain harmony during the next electoral campaign as enemies of the present government were trying to get representation of powerful moneyed interests.

He said if they succeeded they would elect a man who would annul all reforms made by the present government. Carranza announced that he would not be a candidate for re-election at the expiration of his present term, two years hence. He will retire to private life and will take no further part in Mexican politics.

GOVERNMENT

(Continued From Page One.)

to soldiers in this and other states thousands of homes and add greatly to the productive area and population of the state.

The Brunau project, the first spoken of, forms a vast tract of over 600,000 acres located south of the Snake river between Twin Falls and Brunau. It was at one time withdrawn from all forms of entry so that private capital could proceed with its irrigation through the building of irrigation works. These plans, however, never matured and the segregation finally receded back to the government. Extension of the canal system to the Twin Falls south side project would, it is claimed, make possible the irrigation of most of the land in the Brunau project.

HAS GREAT POSSIBILITIES.

The Sunnyside project is located on the opposite or north side of the Snake river along the Oregon Short Line railroad between Nampa and Mountain Home and southeast of Boise. It constitutes some of the best land to be found in the southern part of this state if supplied with water. It is understood that the plans of the engineers who have been working on this project and land tributary is to take water from the Snake river above American Falls and distribute it to the arid lands through a system of giant canals, miles of which will be in concrete.

The Dubois project is located in the eastern part of the state and constitutes a fine body of land. If placed under irrigation it would furnish homes for thousands of people.

The Black Canyon project is located in the southwestern part of the state. The fact that a distribution of funds is to be taken up at once for that project will be good news to those who have been waiting for years to see the government finish this project.

ERA OF DEVELOPMENT COMING. If the plans of the government go through Idaho, it is said, will likely see greater internal development with government money than any other state in the union. It is held by many in a position to know that an unusual era of development is before the state.

This is the second time that direct word has come from Washington to the effect that Idaho's congressional delegation, headed by Senators Borah and Nugent, is actively taking charge of directing the attention of the department of the interior to the vast areas of lands within the state available for irrigation and urging action. The most favorable reports have followed their conference with the secretary of the interior, the above dispatch being one of them indicating that big things in a development way are pending for this state.

Cured at a Cost of 25 Cents.

"Eight years ago when we first moved to Mattoon, I was a great sufferer from indigestion and constipation," writes Mrs. Robert Allison, Mattoon, Ill. "I had frequent headaches and dizzy spells, and there was a feeling like a heavy weight pressing on my stomach and chest all the time. I felt miserable. Every morsel of food distressed me. I could not rest at night and felt tired and worn out all the time. One bottle of Chamberlain's Tablets cured me and I have since felt like a different person."—Adv. T.Th.S.

BOISE AD CLUB TO "PUT BOISE ON MAP"

Propose to Get Action Along Lines That Will Attract Attention of People in U. S. to Biggest Little City.

By EDWARD G. ROSENHEIM.

Every member of the Boise Ad club present at its meeting this week was on his "toes" in the discussion that followed a talk by W. E. Graham concerning the scope of the club's future activities.

Boise will get a slogan that will "say something" and will make the town known from coast to coast, if the Ad club can accomplish it, and it believes this can be done. It is proposed to shortly stage a contest, with prizes offered of "Boise made goods" to those submitting the best expressions and no one in Idaho will be barred from participating in the prize except the club's members. The details of the contest will be worked out shortly and announced through the press.

When a strong, "pulling and selling" slogan is obtained, it will then be the club's endeavor to have it carried on every letter, advertisement and other piece of printed matter that leaves the city, and if this is accomplished, it will undoubtedly be of untold advantage in selling Boise and the Boise valley to those looking for new locations. It is also the club's intention to request Boise's newspapers to carry the slogan in all issues.

TO MAKE SURVEY.

Decision was reached to make a survey of the capital city in the near future that it may be determined as accurately as possible wherein the club might do something in a real constructive way to advance the city's interests and particularly to so advertise her advantages as to attract desirable citizens from the outside.

With the announced ambition to make of Boise a bigger and better city, every effort will be made to remove as much strife as possible and to make conflicts which are bound to occur from time to time, strictly "family affairs," not be aired on the outside. That we must present a "solid front" to the outside if we expect to get anywhere, was the consensus of opinion.

The club went on record as pledging what assistance it could to Publicity Director Bowman in the campaign now on by the American committee for relief to raise funds for starving Armenian and Persia.

PRESIDENT-ELECT OF BRAZIL PASSES AWAY

Rodriguez Alves, Elected Last March, Never Had Assumed Office; Vice President Moreira Now Succeeds to Office.

Rio de Janeiro, Jan. 16.—Rodriguez Alves, president-elect of Brazil, who was never able to assume the duties of his office on account of illness, died at 1:40 a. m. today.

Vice President Delphin Moreira, former governor of the Minas Gerais, succeeds to the presidency.

Alves was unanimously elected to the presidency last March but was unable to assume his office on Nov. 15.

Alves previously served one term as president of Brazil—from 1902 to 1906. During that administration he gave evidence of being one of the greatest statesmen Brazil ever produced. He brought about the enactment of numerous public health measures and besides improving the principal Brazilian ports, remodeled and practically rebuilt the city of Rio de Janeiro.

Alves also strove at all times to bring a closer relationship between Brazil and the United States. He was regarded as the strongest friend of the United States and the foremost advocate of Pan-Americanism in South America.

TO FIGHT FIRES VIA PLANE.

Spokane, Wash., Jan. 16.—A number of aviators and airplanes are to be made available by the war department for lookout and patrol service in the forests of Idaho and Montana during the coming fire season, according to Homer E. Fenn, of Ogden, Utah, at a meeting of federal foresters here.

49TH INFANTRY AT N. Y. PORT.

New York, Jan. 16.—The British steamship Belgic reached here today with practically all of the 49th infantry aboard. She brought a total of 3141 troops in addition to 99 first-class passengers.

Stomach Trouble.

There are a great many who have been afflicted for a long time with some disorder of the stomach and finally been permanently cured. Mrs. W. E. Scott, Peoria, Ill., writes, "My husband suffered for years with stomach trouble before he commenced using Chamberlain's Tablets. These tablets have done him good and have saved him a great deal of suffering." If you have not given Chamberlain's Tablets a trial you should do so, as you are almost certain to be benefited by them. All dealers.—Adv. T.Th.S.

J. E. Hedberg went to Kuna Monday to finish the house on his ranch so that the family can move there soon. He and son Ray will batch for a while.

WIFE EATER TO RETURN TO HIS CANNIBAL TRIBES

San Francisco, Jan. 16.—Solomon Kaimi, former cannibal, who reverted to his cannibalistic instincts in an unguarded moment and began to eat his wife, was preparing today to return to Solomon Islands in the South seas. Kaimi obtained release from police court late yesterday when he offered to return to his tribe.

The savage was found last week bending over the prostrate form of Mrs. Kaimi eating her arm. She was taken to a hospital and will recover.

SOVIETS RENEW

(Continued from Page One)

the demonstration against the Spartacists Sunday. Counter demonstrations were started by radicals. In the resultant clashes 40 persons were killed and many injured. The Spartacists fortified public buildings and seized the administration.

13-YEAR-OLD WAR VETERAN

ARRIVES AT SAN FRANCISCO
San Francisco, Jan. 16.—Veteran of the world war at the age of 13, Nicholas Korinuk is being held here today by immigration officials until they can communicate with Charles R. Crane, millionaire Chicago philanthropist.

Korinuk told a Russian interpreter he had been adopted by Crane. He said his father, a Socialist revolutionist in Russia, had taken him to the front line trenches to fight Germans. A large scar over his eye mutely corroborates this. Nicholas claims to have gone through revolutions and counter revolutions.

The bewildered lad was positive on one point. "No picture paper," he cried, when urged to pose for a photographer.

WISCONSIN FAVORS SUFFRAGE.

Madison, Wis., Jan. 16.—Ten minutes after convening today the Wisconsin assembly voted almost unanimously in favor of woman suffrage.

ULTRAS IN CONTROL; URGE DRASTIC ACTS

Program That Threatens to Disrupt Union Labor Expected to Be Put Through in Short Order.

Chicago, Jan. 16.—Plans which threatened to disrupt union labor and put the Mooney question in the back ground, made last night by radicals attending the sessions of the labor congress on the Mooney case, were expected to be put through in short order today.

Yesterday saw radicals in control and successful in submitting the following resolutions:

That a soldiers', sailors' and workmen's soviet be organized. That American troops be withdrawn from Russia.

That political amnesty be granted political and industrial prisoners, including "Big Bill" Haywood and others.

That Versailles peace terms be submitted to referendum.

That unlimited passport privileges be granted.

That a national strike be called if the nation goes dry.

That banking, industry and commerce be brought under government control.

Was Restless at Night.

Sufferers from kidney trouble experience backache, rheumatic pains, aches in joints and muscles and other torturous afflictions. E. W. Kitt, R. F. D. 2, Box 2, Shorters, Ala., writes: "I used Foley Kidney Pills as I was so restless over night with pains in my back and side. They did me good and I truthfully say Foley Kidney Pills is the medicine for kidney trouble."—Adv. T.Th.S.

Watch the Tongue of your Young! Your little Pets need Cascarets

Children think Cascarets just dandy, They are safe and mild cathartic candy. Sell for a dime—"work" every time.

MOTHERS! Clean the clogged-up places. Do away with the bile, sour fermentations and constipation poison which is keeping your little one cross, feverish and sick. Children love Cascarets because to them it is like eating candy. Cascarets act better than castor oil, calomel or pills on the tender stomach, liver and bowels. Cascarets never gripe, never injure, and do not disappoint the worried mother. Give harmless Cascarets to children one year old and upwards. Each ten cent box contains full directions.
