

RED CROSS WORK IN FLU EPIDEMIC COMMENDABLE

Report of Home Service Section Organization Shows Splendid Results - Permits for Five Electric Signs Asked.

Rev. Willis Martin, in a report of the work done by the home service section of the Red Cross in this city, which was read to the city council Tuesday afternoon, strongly commended that this city have a trained sitting nurse whose duty would be to help care for the sick and assure proper observation of all homes in the city.

Mayor Hays strongly advocated the idea, adding further that he favored the rest rooms and parks. The matter will be taken up further at a future meeting of the city council.

In his report, Rev. Martin outlined the work of the service section of the Red Cross in the influenza epidemic, stating that visiting nurses had been sent to every reported case of influenza, followed by practical nurses when needed; that also clothing, bedding and other necessities were contributed and sent all over the city, and that all manner of services which covered taking up sales, cutting kindling, thawing out frozen pipes, etc., was undertaken and carried out.

From Jan. 3 to Jan. 25, 243 families were visited by the visiting nurses; 508 patients cared for, 1200 visits made and more than 1000 people served; four trained nurses being constantly at work. Help was furnished to 245 families. The committee employed 71 practical workers, and had the services of 10 volunteers and 15 automobiles. Food was sent to 195 families, and a total of 345 persons were fed; 150 pneumonia jackets were furnished.

The O. K. restaurant, 707 Main street; Golden Grill restaurant, 1013 Main street; Della Pringle, 1005 Main street; Jenkins Furniture company, 1102 Main street, and the Standard Optical company, 1007 Main street, made applications for permission to erect electric signs; all requests being granted. At the meeting the ordinance in regard to electric signs was amended by motion of Councilman Herrington.

Residents in the neighborhood of Lee and Eleventh streets, made petition to open Lee street to Eleventh, some 60 feet, stating that stone walls and dump grounds there were unsightly and unsanitary. The matter was referred to the street commissioner for investigation.

Mayor Hays introduced a resolution thanking the Boise chapter of the Red Cross and its home service section for the work done during the recent "flu" epidemic.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and do not irritate the liver or stain the teeth. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

CUTICURA HEALS ITCHING

And burning from knees to ankles. Went on arms, scalp, back and thighs. Then blisters filled with water. Had no sleep. Hair came out and was thin, dry, and my scalp itched so badly to it. Lasted five months before used Cuticura. In ten days felt relief and two cakes Soap and one box Ointment healed.

Cuticura For Toilet Uses. Cuticura Soap, Ointment and Talcum are all you need for your skin and all toilet uses. Bathe with Soap, soothe with Ointment, dust with Talcum. Cuticura Soap is ideal for the complexion because so mild, so delicate and so creamy.

ADMINISTRATION BILL TO COMMITTEE

Mooted Measure Placed in the Hands of Judiciary—Will Later Go into Committee of Whole—Two Bills Passed.

Before the house of representatives scrutinizes the administration bill, the judiciary committee will give it the "once over." To bill has reached the house and was referred to that committee by Speaker Kiser. When it is reported out it will be made a general order for committee of the whole and will receive its first "baptism of criticism" from those members who believe it should be amended before passage.

The house held a brief session Tuesday afternoon during which two bills were passed. The first is house bill No. 26, by Johnson, accepting the terms of the Smith-Hughes vocational educational act, on behalf of the state, thereby making available to Idaho appropriations under it. The second is house bill No. 24, by the committee on public health, amending the mother's pension act, to lend aid to destitute women about to be confined. Both measures received unanimous support.

A number of new bills were introduced, more important among which were bills of education in all school districts to manage the schools therein. It is by Representative Hull of Oneida. Another bill carries out the suggestion of Secretary of the Navy, Daniels, to wage war against venereal disease. A bill introduced by Representative Monson would appropriate \$500 to purchase a site and buildings in the town of Franklin to be used as an historical museum under the auspices of the Idaho Pioneer association.

24 and 25 are the telephone numbers of The Capital News.

INDORSES FOCH CLAIM TO OBTAIN GUARANTEE TO FOREVER CURB HUN

By WEBB MILLER. Coblenz, Jan. 29.—General Gouraud, the one-armed French commander under whom several American divisions served in the Champagne, today supported Marshal Foch's recent statement that France must obtain guarantees that Germany never will be able to start another war.

TO CONSOLIDATE ALBION NORMAL AND IDAHO TECH

In Interest of Economy and Efficiency Educational Authorities Believe Both Should Combine at Pocatello.

Proposal to remove the Albion State Normal school from Albion to Pocatello and there combine it with the Idaho Technical institute, with a view of building up a strong normal and trade school for the state, met with favor before the joint committee on education of the house and senate at a meeting held Tuesday afternoon, following the adjournment of the house.

The only opposition came from Senator McMurray and Representative Gudmundson, from Cassia county. They held the state's investment at Albion would be annulled if the change is made, and that the present is no time to make a change.

WANT ONE STRONG SCHOOL. A majority of the members of the two committees and the state board of education take the stand that the state annually is forced to meet a loss at the Albion normal, and that if it is combined with the Idaho Technical institute, it will be possible to build up a strong consolidated school. It is further held that Albion is without adequate transportation facilities; that the state is forced to go to heavy expense to get supplies there, paying over \$4 per ton above coal, which has to be hauled a long distance from the railroad to the school, and that while the buildings of the school would have to be abandoned and therefore the state would be at temporary loss, this would be more than made up for by stopping the heavy biennial expense it is put to in maintaining the normal at Albion.

While it is likely that there will be a hard fight against the removal of the normal from Albion, the issue, it is said, will be brought to a head in both houses very soon. Attempts have been made in past sessions to bring about this consolidation, but they have not met with success. It is claimed that they are much more likely to during the present session.

BOYS' RESERVE WILL BE SOON ORGANIZED

U. S. Government Service to Enroll 500,000 American Boys, 16 to 21, to Work on Farms.

The United States employment service will seek to fight world famine by enrolling in the United States boys' working reserve, a branch of the employment service, 500,000 American boys between the ages of 16 and 21 to work on the farms of the country during the next harvest season.

Secretary of Labor Wilson will set a time to be known as National Enrollment Week for the boys' working reserve, and extensive preparations will be made by E. H. Hasbrouck, in charge of the office in this city, to secure the assistance of boys of high school age in increasing the food production of the United States during 1919. The United States boys' working reserve by enrolling and training over two hundred thousand boys in 1918 was able to supply farm labor which it has been estimated increased the food production of the United States by enough to feed one million people for one year.

Who's Who in Legislature REPRESENTATIVE FROM BONNEVILLE COUNTY

L. J. NEILSEN.

Representative L. J. Nielsen of Bonneville county is taking an active interest in the deliberations of the lower house of the present session. When not engaged in vocation of law-making he is a farmer, sheepman and merchant. He is a native of Utah, having been born at Mantus, March 18, 1883. Under the direct management of Representative Nielsen are two farms. He also has a large band of sheep. He is manager of a mercantile company, has held the position of treasurer of the Progressive Irrigation district four terms, is secretary of the Idaho Milling company, has served two years as county commissioner and eight years as chairman of the board of trustees as well as was clerk of the school board three terms. His address when at home is R. F. D. No. 3, Idaho Falls.

"YANK" JOHNSON HAD QUITE ENOUGH OF WAR; WILL TRY CIVILIAN LIFE

C. M. Johnson, of Detroit, Mich., better known as "Yank" Johnson, who has been spending a few weeks in this city visiting friends and relatives, left this morning for Fairfield where he will try his hand at working for other parties than Uncle Samuel for a while.

He says he is going to give civilian life a whirl for a time, and if he don't like it, why, he's just going to head into the recruiting station and sign up with Uncle for another "hitch," having served six years in the army up to the time of his discharge.

"Yank" got into the big war with the Canadians when they first went over, taking on with the 72nd Queen's battery, field artillery. He went through the living hells of all the early battles of the war, and is minus two fingers on his left hand today as a result of picking up a fountain pen, left by retreating Germans, which immediately exploded and blew off his digits.

When America got into it he asked to be transferred and his request was granted. After he got with the Americans he got a machine gun bullet through his left leg. He put in three years with the "regulars," too. He says that Sherman was right in his assertion about war, but that there is a fascination about it at that.

Hundreds Await the Arrival of Every Truck Bearing Food.

GIVE—or They Will Perish

There are 400,000 starving orphans in Armenia, Syria, Greece and Persia—absolutely dependent upon American charity for food, clothing and shelter. Five dollars a month—less than seventeen cents a day—the price of a good cigar—will keep the breath of life in one of these little citizens of the Commonwealth of God.

Thirty million dollars are needed during the next six months for this relief work of the Near East. These millions of sufferers from Turkish cruelties are absolutely dependent upon America. They have no hope even for a crust of bread, except through our help. All except the 400,000 little children can be made self-supporting within the year.

Campaign for \$8000 for Ada County is now on.

JULIA DAVIS PARK TO BE FUTURE HOME OF A YOUNG EAGLE

The feathered colony at Julia Davis park will be further graced and honored this afternoon by the addition of a handsome young eaglet which has been presented to the city zoo by W. E. Ennis, Short Line trainmaster at Nampa.

LEGISLATURE IS AFTER AUTOMOBILE THIEVES IN STATE

The present legislature proposes to place on the statute books a law that will gather in many of the automobile thieves who have been operating in Idaho and punish them by fine and imprisonment.

NOTICE

Idaho stands second in the United States for its clean Manhood, according to the Official Statement from the office of The Adjutant General in Washington, and why is such the case? Because we have treated successfully a great number of men inducted and these have passed the physical test and have been found suffering with no venereal disease. We have done our bit in the war as we have placed fighters on the sea and on the land to make "The World Safe for Democracy."

THE IDAHO MEDICAL COMPANY
