Preliminary Spring Millinery Opening

A host of new colors, a sprinkling of new straws, more clever ways of manipulating straw and ribbon and flowers and feathers and frames than ever before—such is the impression a stroll through the Millinery Section gives one, plus a genuine yearning to "try them on." It is just that we cordially invite every woman to do tomorrow—to visit the display of Spring Hats now while selections are so very attractive.

Notes on the Spring Millinery Opening

The very latest arrival is a brown lace and Maline pattern, a cluster of orchid-like flowers in the new dandelion shades, \$25.

A batavia sport hat in dandelion color trimmed with periwinkle ribbons and wooden beads, is dazzlingly affair, \$15.

A new sports model for girl is the "Hope Hampton," a soft braid hat trimmed with yarn in all different shades, \$2.95 and \$3.45.

Another smart sport model of crepe de chine in a new green shade couldn't have a better opposite color trimming than green, \$20.

An imported hair braid hat can be easily called a picture hat because of its "garland of roses" around the crown with a milan streamer, \$29.50.

A Few of the Changes Fashion Decrees on Spring Frocks Here at \$39.75

Whether your frock be of Crepe Knit, Canton Crepe, Taf-feta or Satin Faced Canton, it will have taken many a color hue from Palm Beach, many a style trick from Paris, but important, too, an adaptability and charm that is strictly American that will stay in town. Rich embroidery, perhaps colorful beads or a girde will transform a navy frock of black or any other color you may desire.

Loose sleeves of the flowing type that fastened closely at the wrist are a decided change over last year and, of course, the combining of bright colors with black or navy is new. Collars, too, are a bit different, although hold their lines to round, square and cowl shapes. \$39.75.

These Tailored Suits are Especially Favored by Paris and New York at \$59.75

Whenever Paris says fashion must be this—that is what it is, for Paris is very seldom wrong. The simple tailored lines are deftly brought out by long lines, while only tailored bands on seams finished with silk arrow heads and rich silk emb. in black or colors to match materials is all that is required for trimmings. Crepe silk in plain colors serve as lining. Come and see these tailored modes sponsored by Paris. \$59.75.

Well Dressed Women can Count these Separate Striped Sport Skirts at \$10.75

Choosing a skirt this season is a very different thing to what it has often been—there is much more variety in style, in fabric, in trimming than ever before. Prunella cloth is favored again, but Eponge makes its debut, and both are to be found in a host of color combinations for every taste including plain navy. Full pleated or straight line models, of which some are trimmed with a girde or finished with fringe. At \$10.75.

HUSBAND COMPLAINS ABOUT HIS WIFE

It isn't always the men that beat
the women, Charles B. Bothwell
Gary says so in his divorce com-
plaint which has been filed in the
superior court at Hammond. Char-
les picked a wife who could do a
hearing herself.
He says that last December she
kissed him up pretty badly. He
had marks to show for it for quite
while afterward. On another
occasion she attacked him and
kicked him with her nails. She
used vile and indecent lan-
guage in his presence causing him
much mental anguish. They were
married April 9, 1915, and separated
last Saturday. Mrs. Bothwell is
now at Ross, Roe & Peterson of
Chicago are attorneys for the
plaintiff.

private interests have contributed
\$1,000,000 francs to aid the discovery
of a "national fuel" for automobiles
and internal combustion engines.
The government has a like amount
available for laboratory and road
tests. One of the problems to be
solved is the effect of any mixture
of engines and their lubrication.
Many tests with denatured alcohol
