 Griffith—F. W. Love.  
 Crown Point—Mrs. Eunice Torcha.  
 Fraternal Societies of Lake County—O. Mallett, Hammond.  
 Rotary in Lake County—George M. Finney, Gary.  
 Miss Mayne Collins, Clark Station.

Early Property Holders of Northern Lake County—Olivier Forsythe.  
 Revolutionary Documents and Relics—Daughters of American Revolution.  
 Art—W. E. Vilmer.  
 A. N. Hart—Walter Allan.

## UNCLE SAM MUST HAVE CIVILIANS

(SPECIAL TO THE TIMES.)  
 WASHINGTON, April 3.—Uncle Sam must have at once approximately forty-three hundred trained employees to assist in the manufacture of munitions. This is a patriotic civilian service and is vital to the successful prosecution of the work of the Ordnance Department.

This call for men is urgent. Munitions must be manufactured in tremendous quantities for our soldiers in France. No one factor will bring victory this war. Ships must be constructed; transportation provided; food conserved; fuel saved and munitions delivered promptly as demanded by the Commanding Officer of our overseas forces.

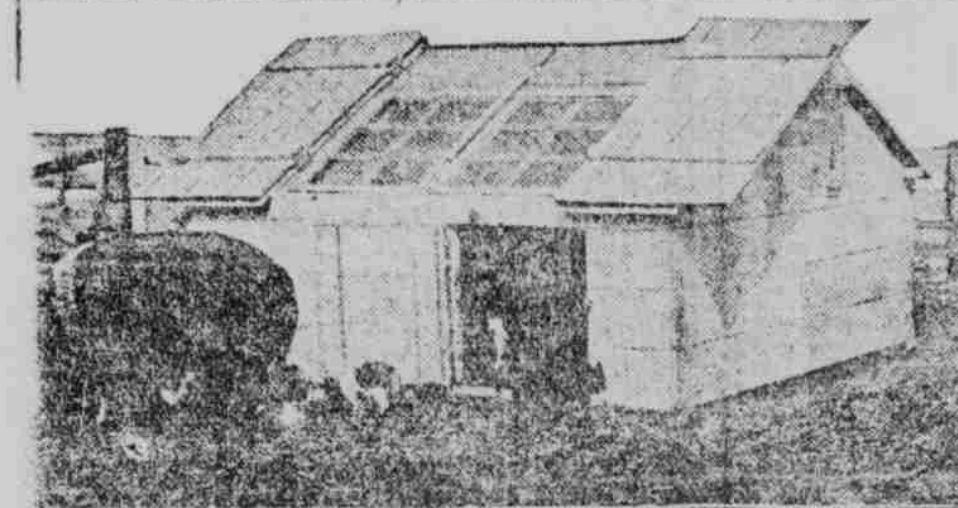

The time has arrived when every available American citizen who can fill any of the following positions, and who is not now actively engaged in Government work must consider this a personal appeal. The Ordnance requirements include:

- 200 Mechanical Draftsmen.
- 400 Mechanical Engineers.
- 500 Inspectors Ordnance Department.
- 1000 Inspectors of Munitions.
- 1000 Assistant Inspectors of Munitions.
- 200 Chemists.
- 100 Clerks Qualified in Statistics, Accounting, or Office Administration.
- 100 Clerks in Business Administration.
- 250 Clerks-Bookkeepers.
- 40 Construction Foremen.
- 100 Assistants to Business Managers.
- 100 Experts in Business Administration.
- 100 Statisticians.
- 100 Mechanical draftsmen, chemists and clerk-bookkeepers will be employed at Washington, inspectors of munitions will serve at the various ordnance manufacturing plants throughout the United States.

## Treat Your Hogs Kindly

They Love a Nice Clean Home. Feed Them on By-Products of Cereal Manufacture—Save Time and Labor

[National Crop Improvement Service.]

IDEAL HOGHOUSE IN USE AT THE IOWA AGRICULTURAL COLLEGE. The National Lumber Manufacturers' Association Will Furnish Plans and Specifications, Together With Bills of Material Upon Request.

Beating, kicking and whipping hogs is not only cruel and unnecessary, but bruises show on the carcass and any otherwise perfect cuts must be ruled out of fancy grade on account of them. Blood scars on the freshly skinned ham often come out distinctly in the process of smoking and thus take a second-class ham out of what should have been a first-class one.

The housing of the mother pig and her litter family has a great deal to do with the rapid and healthy growth of the litter. This hog house here shown is advocated by the Iowa Agricultural college and consists of a structure with a loose floor. Inside it is rotocted with a rail to keep the mother from crushing the piglets. Hogs like sunshine and the sliding skylights are so arranged that they can be closed in inclement weather.

**Concrete and Formaldehyde.**  
 The National Lumber Manufacturers' association will furnish plans and specifications and bills of materials and hardware upon application to anyone who wishes to build this cog house.

It is recommended also that the floor be treated with creosote in order to keep the dampness from rotting it and that the interior of the house be frequently sprayed with a solution of formaldehyde.

Corn is the most extensively used hog feed and, properly supplemented, will make an ideal carcass. Care

remuneration. The appeal addresses itself to those persons who have not been included in the draft and who may be anxious and willing to serve the country in a civilian capacity provided they are impressed with the urgency of the need and believe that their services are necessary. Information regarding these Ordnance positions may be obtained by communication with the Civilian Personnel Section, 1532 P street, N. W., Washington, D. C.

## Hammond Women's Red Cross Work

Every one welcome at all times. No experience required. Come and help the civilian army. Chairman of Woman's Work—Mrs. W. T. Hardy.  
 Chairman of Knitting Committee—Mrs. F. C. Deming.

**SURGICAL DRESSINGS**  
 Ladies in charge each day:  
 Monday: Morning—Mrs. W. H. Crawford. Afternoon—Miss Marian Deming. Evening—Mrs. J. J. Claussen, Mrs.

## Shakeoff that Grip

When Spring comes, with its changeable weather and your exposure, it is best to clear away all the symptoms left after an attack of grip. That evil disease leaves you weakened, and when its victim attempts to "do his bit" he exposes himself to the risk of a second attack, for which he is less prepared, and which may have graver consequences.

## There's Danger in Delay

April and May are pneumonia months. In this time a weakened system is a constant source of danger, for the pneumonia and grip infections are in the air, and after a long winter the body is so clogged with waste it cannot resist them. Fortify the health, remove the catarrh, and improve the digestion.

## For Quick Relief PERUNA

This reliable tonic is recommended to remove the waste from the body, counteract the catarrhal poisons and allay the inflammation that is catarrh, restore the regular appetite and tone up the entire system to resist disease. A well man is safe.

As a tonic after grip it has won many commendations, while its effectiveness in catarrhal conditions is unquestioned. Take no chances—Take Peruna.

Peruna Tablets are always ready to take. You may carry a box with you and ward off colds and chills. The liquid medicine in your home is a great safeguard. Protect your family.

The Peruna Company, Columbus, Ohio

## "BY THE PEOPLE"

Let us cherish in our hearts those undying words of Abraham Lincoln, the first American to reach the lonely heights of immortal fame. Take his message, carry it and proclaim it broadcast throughout the Nation; help our people to realize the patriotic duty resting upon them, each and all, as free-born citizens of this great democracy. Let them highly resolve that "government of the people, by the people, and for the people" shall not perish from the earth."

We face the most stupendous task in the history of the nation. Never before has such danger confronted us. Everything we have ever fought for—from Bunker Hill to Santiago—is at stake, and it is conceivable that the final VICTORY WILL BE WON BECAUSE OF OUR CONTRIBUTIONS OF FOOD.

Hunt the buyer who wants to buy and the seller who wants to sell through these columns, then your deal is two-thirds closed.

No salesmanship is required under these circumstances—and salesmanship costs money—many times the cost of a want ad.

Get that?
