ASKS CITY TO PAY FOR WATER USED

Water Department Has Hearing Before Public Service Commission.

If the Indiana public service commission rules favorably on the petition of the water department of the city of South Bend, no more raids by that department on the city's track separation fund will be necessary acording to City Atty. Thomas W. Slick.

The hearing on the petition of the water department was held in the council chambers at the city hall Thursday morning. The city is asking the commission to fix the rates to be charged by the city for water delivered for service to industrial plants for use in the event of fire.

The hearing on the petition of the water department was held in the council chambers at the city hall Thursday morning. The city is asking the commission to fix the rates to be charged by the city for water delivered for service to industrial plants for use in the event of fire.

James N. Luther, superintendent of the water department, explained to the commission that the city has ready to serve connections with practically all the industrial plants in the city, and that even in the event of the use of water by these plants in case of fire, the city has no way of determining how much water is used or no rate upon which to base a charge even if the amount of water used was known.

Charges Proposed.

In regard to this condition, the commission had under consideration the following monthly charges to be made to plants where the city has its ready to serve pipes: 75 cents for each one inch connection, $1 for each 1½ connection, $2 for each 2 inch connection, $4 for each 3 inch connection, $8 for each 4 inch connection, and $10 for each connection of 6 inches and over. The commission also has under consideration charges of $25 a year for each fire hydrant located on private property and $15 a year for each connection with the city sewers and having a continuous flow.

The water department is also asking the commission to rule that the city of South Bend shall pay for the water it uses for various purposes, and this charge is to be made at the regular meter rate.

Supt. Luther and City Controller John A. Swygart testified before the commission that this arrangement will wipe out the present annual deficit in the water department of from $48,000 to $50,000. Mr. Swygart testified that it has been necessary in the past to meet the expenses of the water department to draw on the city track separation fund.

The commission took the matter under advisement, and it is expected that a decision will be handed down within a week or 10 days.

The commission continued receiving evidence Thursday on the petition of the Indiana & Michigan Electric Co. for permission to make a surcharge on the electric current sold to its larger consumers. The commission expects to conclude the hearing by Thursday night.

YOUNG MARINE DESCRIBES CAMP

Russell Klink of South Bend Writes of Training at Paris Island, S. C.

An interesting letter from Russell C. Klink, of this city, has been received by his parents. The young marine is only 16 years and four months old. His letter is descriptive of the work which he undergoes as a rookie in the intensive training at Paris Island, S. C., the marine training quarters.

Pvt. Klink is the son of J. G. Klink, 702 E. South st., state president of the Travelers' Protective association. Another son, Howard, 32 years old, is in the United States air service, somewhere in France.

Here's Klink's Letter.

Pvt. Klink's letter reads as follows:

"Have been here a day and you learn a great deal in one day. This island—Paris island—is about 25 miles long and four miles from the coast.

"I was transferred to the regular marines last night on account of my size and a little knowledge of music. The regular marines are called 'leather necks,' 'hell dogs,' or 'bull dogs.' They are practically the same as the Blue Devils of France.

"Yesterday I worked around camp and you know it is so strange (not kicking about the work.) We only have to work eight hours out of the 24 and the rest of the time you go around washing dishes and waiting table at the mess hall or you are chased around the grounds picking up matches, tooth picks and small articles like that.

"Everything is strictly sanitary here and last night I took a cold shower bath about 9:30 o'clock and washed.

Has "Lots of Pals."

"I have a lot of pals now and we have and are having a lively time. The feed is good and it is a good thing that I have a long reach. I certainly thank God for that for I get all and possibly more than I want.

"We had a boxing match yesterday and I was put up as a boxer against a fellow 22 years old. I was quite lively yesterday and I just beat the blood from him and won in the ninth round. I gave him a straight left from the shoulder and knocked him out. We, this fellow and I, had another one today and he knocked me out in the third round. Say, he cracked me a dirty one and I really didn't realize my blue condition until now.

"I have had my hair clipped. I will be examined tomorrow and will go over to the tent camp. I have been in quarantine since last night and will go into the tent camp for two weeks and then to the regular or main camp where they have the trenches. Here we learn how to use the hand grenades, bayonets and marine rifles as well as the machine guns. They have real trenches and the roar of the guns is heard all day. There is a good place to swim here, also. After being there six weeks we will take a crack at the kaiser by going over there and guarding ammunition stations, naval stations, boats or anything necessary. Probably we will go to Panama, Porto Rico, Siberia, Italy, Africa or any place.

"The marine way of fighting is the only way to fight. Of course we are taught to kill and kill as many in one shot as they used to get in 25 shots. I will write tomorrow.

"I am not homesick now, although I was when I was in Chicago."

WANT CITY TO OPEN MUNICIPAL COAL YARD

Resolutions favoring the establishment of a municipal coal yard in South Bend were adopted by the East Side Improvement association at a meeting held Wednesday night. The association offers to donate the necessary ground to the city for the establishment of the municipal coal yard.

The association went on record as being opposed to any increase in the water, gas and electricity rates in the city. A committee was appointed to take the protest against any proposed increase in rates in charge.

The proposition of a new school house for the northeastern part of the city was discussed, and will be taken up before the school board. A free site to be donated to the city has been secured. The matter of remedying delapidated buildings will be taken up with the building department.

It was decided to have a smoker at the next meeting. A committee composed of Dr. P. K. Mullaney, Thomas Hatfield and Harvey Eckler were appointed to take charge of the same. Mayor F. B. Carson was voted an honorary member of the association.

CASH SALES OF WAR SAVINGS STAMPS IN STEADY INCREASE

Hoosiers are living up to their War Savings pledges in fine shape, in the opinion of the Indiana War Savings committee, which bases its judgment on the increase in cash sales weekly.

Cash sales for the week ending Aug. 3 were $26,895,855.25; for the week ending Aug. 10, $30,998,906.77.

In many counties the cash sales took unusually large jumps. In most instances these were counties where the population is largely industrial. Next week and the week following, the Indiana committee expects the counties of agricultural population to go ahead by leaps and bounds, when the "farmer-vote" will begin to tell.

The committee is again urging all those who have made War Savings pledges to fulfill them before the appointed time, if it is possible to do so. Increasing pressure is being brought to bear upon counties which have not yet reached their quotas in sales and pledges. In several of these quiet but intensive drives are scheduled for August.

CUSHMAN ENLISTS ON EVE OF SUIT TO ANNUL MARRIAGE

Further complications occured Thursday morning in the Cushman marital tangle when Ralph Cushman, the husband of Irene Cushman, daughter of Mr. and Mrs. Jacob Schultz, 1622 Fassnacht ave., enlisted in the army and left Thursday for training.

Mr. and Mrs. Shultz are attempting to have the marriage of their daughter annulled. Through some misunderstanding on the part of the parents they believed that their daughter might get her marriage annulled Thursday morning in superior court but the court decided that the petition for annullment must be filed before the proceedings are considered.

Cushman recently lost his petition for an application for a writ of habeas corpus to remove his wife from the home of her parents.

UNCOVER AUSTRIAN PLOT TO INDUCE DESERTIONS

International News Service:

NEW YORK, Aug. 15.—Additional arrests were expected today as the investigation into an Austrian plot to induce wholesale desertions from the United States army widened. Five soldiers who were urged to desert from Camp Dix started the government agents on what may develop into an investigation extending into every cantonment in the country. Arthur Sacher, an Austrian, was seized last night and is held by federal authorities to be one of the ringleaders in the conspiracy.

WILSON AT BEACH

President Takes Few Days' Outing With Col. House.

International News Service:

MAGNOLIA, Mass., Aug. 15.—The president and Mrs. Wilson arrived here at 9:40 this morning by special train. They were met by Col. and Mrs. E. M. House with whom they will spend the week-end at the House summer home on the north shore.

WASHINGTON, Aug. 15.—President and Mrs. Wilson are the guests today of Col. E. M. House at the latter's summer cottage near Magnolia, Mass. They left here quietly last night on a special train to spend the week-end with the colonel. No advance notice of their plans was made public, and by direct orders of the president, newspaper reporters were not taken on the special as had been the custom in the past.

At the white house, it was stated that the trip was in the nature of a vacation outing. The president has not been absent from Washington this year and Dr. Grayson advised a few days at the beach.

It is expected that during the visit the president will discuss international affairs, especially certain phases of the Russian situation, with Col. House.

CAMPAIGN FOR DEMOCRATS IS OPENED HERE

(CONTINUED FROM PAGE ONE.)

Hugh D. Wickens, candidate for judge of the appellate court; Frederick S. Caldwell, candidate to succeed himself as judge of the appellate court, and Edwin F. McCabe, candidate for judge of the appellate court.

Omer Jackson, chairman of the state publicity bureau, is also here, as are a number of other state leaders.

To Go To Hammond.

The members of the committee arrived here from Fort Wayne, where they held similar meetings Tuesday. The committee goes from South Bend to Hammond where similar meetings will be held Friday.

The meetings in South Bend and throughout the state are along the plans of Chairman Van Nuys, and are regular meetings of the state committee. Instead of the district chairman being called upon to go to Indianapolis to meet with the committee, the committee goes to them.

The mass meeting at the Elks' temple will be the big event of the day. Atty. Samuel Parker will introduce Congressman Barnhart, Miss Landers and other speakers who may appear on the evening's program.

An excellent musical program has also been prepared for Thursday evening's meeting.

MEET IN FORT WAYNE.

The state committee and many of the state candidate met in Fort Wayne Wednesday to organize the 12th district for the coming campaign. Two meetings were held—one in the afternoon at the Elks' country club, and a night session in a down town auditorium. The meetings were addressed by Fred VanNuys, state chairman; Henry Spaan of Indianapolis, and Harry H. Hilgemann, democratic candidate for congress from this district.

The speakers charged the republican party with partisanship, renewed the declaration that the democratic party's first object is the winning of the war and particularly attacked United States Sen. Watson for a speech delivered at Fort Wayne last Saturday.

Mr. Van Nuys during the course of his address, said:

"I would like to make a suggestion to Will H. Hays, republican national chairman, that he take his $1,500,000 campaign fund which he is attempting to raise and turn it into a fund for the purchase of Liberty bonds. I believe this would show a better spirit of patriotism than to spend such a huge sum in an effort to repudiate the policies of Woodrow Wilson. The democratic party is first for winning the war—country first and partisanship after."

World Looks to Wilson.

A part of Mr. Spaan's address follows:

"The world looks to Woodrow Wilson in this critical hour. He is the one man in all the world who can lead the nations of the earth, many of which have been torn asunder by war and bloodshed, to freedom and liberty. As a democrat, and as a loyal citizen of this republic, I urge the people to surround Pres't Wilson with the men who are in sympathy with him and not with men who are against him. We are either for the war or we are against it. There is no half way ground."

Commenting upon a speech made here last Saturday night by Sen. Watson, in which he said that he was for Woodrow Wilson as commander-in-chief of the army and navy, but not as an individual, Mr. Van Nuys said that no line could be drawn between Wilson, the commander-in-chief and Wilson, the individual. "If the senator is not for Wilson as an individual, he is not for Wilson as the commander-in-chief of the army and navy," Van Nuys said.

The following paragraph is from Poultney Bigelow's "History of the German Struggle for Liberty" and deals with the Prussian defeat at Pena in 1806: "The most military state of Europe suddenly discovered that in the day of trial soldiers alone, even when led by officers of 'noble blood,' are a poor substitute for liberty-loving citizens capable of rapid organization."

DECORATE FLYER

Lieut. David Putnam Honored For Bravery by French.

International News Service:

PARIS, Aug. 15.—Lieut. David Putnam, of the Lafayette escadrille, who is officially credited with bringing down 10 German machines, was decorated with the French military medal today.

The citation says "Lieut. Putnam's spirit and skill in constant danger, shows him to be a pilot of the first class."

Lieut. Putnam recently attacked nine boches, bringing down one of them. The next day he attacked a group of eight Germans, bagging two.

Lieut. Putnam is from Brookline, Mass., and is a descendant of Gen. Israel Putnam ("Old Put") one of the heroes of the American revolution.

Hereafter boys of 15 who weigh 115 pounds or more will have a chance to get into the working reserve. The members are to have a distinctive uniform and organize into companies for military drill during the winter.

NEW YORK, Aug. 15.—B. H. Ettelson says: "Reports of discussions before the ways and means committee shows a want of harmony as to the tax plan and unlikelihood of extreme views prevailing. Market is becoming so accustomed to the tight money situation that the calling of loans yesterday caused but a moderate reaction in the market. This is a phase of the existing situation that will constantly come before us and in fact, no real relief can be expected until the end of the war when the government's demand for funds will cease. On merit all stocks ought to be higher."
