ADVERTISING RATES: Ask the advertising department. Foreign Advertising Representatives: CONE, LORENZEN & WOODMAN, 225 Fifth Av., New York City.

OCTOBER 17, 1918.

INDEED! THE "DISTINCT CLASS" DIDN'T "DISTINGUISH" THEMSELVES VERY MUCH.

St. Joseph county has gone "over the top" with its approximately \$7,750,000 maximum quota, the minimum quota being only \$5,000,000—a fact unknown to the press, at least this portion of it, during the volunteer days.

That 39,000 people is half the population of the city, men, women and children; in fact, more than half the population—and less than \$150 in bonds per subscriber, on the average.

However, let it pass. Every bond bought is that much saved and the people who have them have that much more to be proud of, only here is hoping that they will hang onto them, and not permit them to be grabbed up by the money speculators at market discounts.

The next loan, we hope, will be a victory loan, and with the data before them, we wonder if the next committee will have the nerve to start its "shock squad" off with a drive against those who have fallen down on the present loan?

REPUBLICAN ELECTION METHODS AS THEY WORK OUT OVER IN MICHIGAN.

It is a handsome spectacle that is placed before the country by the federal investigation of the Michigan senatorial primary, and especially that phase of it involving Commodore Truman H. Newberry's nomination for the U. S. senate.

In New York the other day, Allen Templeton, Frank Blair, and Tom Phillips, all silk-stocking political corruptionists in the Wolverine state, were jailed for contempt, for refusing to answer questions put to them by the federal grand jury.

Such is the manner in which this much wanted republican senatorial nominee—the choice of National Chairman Will Hays, Boies Penrose, the Chicago Tribune, and Henry Cabot Lodge,—gained his much glorified nomination, and the manner in which he hopes to escape the penitentiary with it.

Does anyone wonder that Henry Ford was defeated, and Commodore Newberry nominated by the republicans, under such leadership, and with an admitted \$176,000 to grease the wheels.

It remains to be seen whether Michigan will send such an apparent political scallawag as Truman H. Newberry, to the United States senate.

It will go to such lengths to embarrass the war administration by throwing a "money-wrench" of such texture into the machinery, even though advised to do so by such dignitaries as George W. Wickersham, attorney general under Pres't Taft.

And yet, republicans presume to say that if you want senators and congressmen to support the president in his war administration, you should elect republicans.

Republicans against 384 Democrats against 51 G. O. P. excess against 793

Pres't Wilson meets the German peace offensive in the same way Foch overcomes a military obstacle. He avoids a frontal attack, hits the enemy on the flank and forces a retreat.

Connecticut reports that it is debt-free, and has a surplus. Well, that trouble's easily remedied. Buy L. B.'s.

Other Editors Than Ours

CONFUSING "MEANS" AND "ENDS." (Indianapolis Times.)

A street car advertisement put out by one of our political parties emphasizes the necessity of "standing behind the war."

The vital thing after all is the end for which we fight. War is but the instrumentality, the means whereby we strive for ends, and if it had been possible to attain these ends through any other instrumentality than war there would have been no war.

It is not the shadow of the earth that causes the changes in the shape of the illuminated part of the moon as it moves through the sky, but it is the shadow of the moon itself.

The moon goes round the earth, once in about a month, travelling in an orbit which brings it at one point almost exactly between the earth and the sun, and at the opposite point almost exactly in opposition to the sun, with the earth between them.

Every patriotic citizen is expected to co-operate with the patriotic merchants of Indiana, in executing the program agreed upon by representatives of the retail trade and the war industries board, by which it is hoped to conserve man power and transportation facilities.

THE RESPONSE (Chicago Tribune.)

The president's response to the German proposals rises inevitably from the logic of those noteworthy communications and addresses which have marked our controversy with the imperial German government.

THE MELTING POT "Come Take Pot Luck With Us"

THE SUBSTITUTE BROTHERS. By James J. Montague.

We know, of course, that skins of whales The leather men will use. When cow and calf and bull skin fails, To make our boots and shoes;

When meat is no more to be found, Not one least little bite, We'll purchase shark-meat by the pound And get along all right.

We might subsist on nuts, of course; They're nourishing, we're told— Supply a lot of mental force, And make men strong and bold.

EXPERIENCE IS A GREAT TEACHER. The new King of Bulgaria says he is going to be guided by his people. He has discovered from his father's example that it is safer to be guided than to be hidden by them.

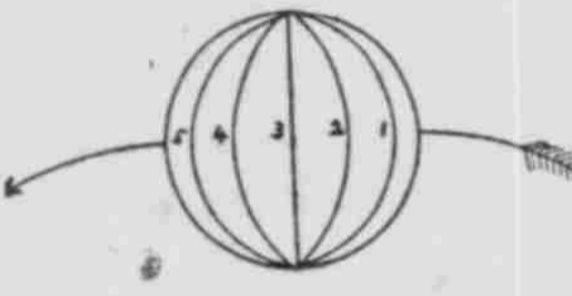

SURE TO BE SHORTAGE. What Germany needs now is a good school for the intensive training of retreat specialists.

KEEPING THINGS EVEN. Mr. Wilson is not optimistic about the war, and he doesn't intend that Germany shall be.

STILL ANOTHER SURRENDER. Smyrna quits, having found more thistles than figs growing on her soil in the last few years.

The Explanation of Diana's Bow's BY GARRETT P. SERVISS.

"Will you kindly explain the following, which I have many times tried to puzzle out? They say the shadow of the earth is the cause of our seeing only a part of the moon at times.

Your reasoning is right, V. W., and it does you credit. There are, I fear, few girls of your age who would see anything to question in the statement, which some incorrectly informed person has made to you, that the changing shapes, or phases, of the moon are caused by the shadow of the earth.

The fact that you are puzzled by that assertion when you try to reconcile it with the actual appearance of the moon at different times is as good as a diploma for you, because it shows that you use your mind as well as your ears and your eyes, and are not to be easily imposed upon even by what may seem to be authoritative statements.

It is not the shadow of the earth that causes the changes in the shape of the illuminated part of the moon as it moves through the sky, but it is the shadow of the moon itself.

The moon goes round the earth, once in about a month, travelling in an orbit which brings it at one point almost exactly between the earth and the sun, and at the opposite point almost exactly in opposition to the sun, with the earth between them.

The moon is a solid globe, as the earth is, and light cannot go through it, although it is abundantly reflected from its surface. Consequently, when the moon is between the earth and the sun, or nearly so, the side of it that is toward the sun, and therefore illuminated, is toward the earth, while the side that is toward the earth is dark because no light can pass through the body of the moon.

TO CHRISTMAS BUYERS.

- Every patriotic citizen is expected to co-operate with the patriotic merchants of Indiana, in executing the program agreed upon by representatives of the retail trade and the war industries board, by which it is hoped to conserve man power and transportation facilities, ordinarily required to handle the rush of Christmas business.
