

### BANK ROBBERS TO BE GIVEN HEARING IN PORTER COUNTY

Long Fight of Four Men Who Killed Tolleston Bank Cashier to End Soon.

VALPARAISO, Ind., Sept. 28.—The long fight of four men to escape the electric chair for the killing of Herman Uecker, cashier of the Tolleston State bank, will be continued in the Porter county superior court here Tuesday.

The men will be tried on new indictments drawn after the supreme court sustained motions of their attorneys for a new trial following their conviction and sentence to death in the Lake county circuit court at Crown Point.

Names of Defendants. The men to be tried are Albert Batchelor, Thomas Batchelor, Charles (Red) Parker and Daniel Trkulja. They will have separate trials and Thomas Batchelor will probably be the first tried. The trials will be conducted in the court of Judge H. L. Crumpacker.

The murder for which the men will be tried was committed at the Tolleston, Ind., bank on June 14, 1919. Five bandits are alleged to have entered the bank and threatened the employees with revolvers. The robbers began shooting and Mr. Uecker was killed and C. E. Phillips, assistant cashier, was wounded. The bandits then escaped without taking any money.

The four men to be tried were

arrested several days later and, according to authorities, confessed to the murder of Mr. Uecker. When they appeared in court they entered pleas of guilty and were sentenced to the electric chair by Judge Martin Smith of the Lake county court. Later an appeal was taken to the supreme court and the request for a new trial was granted. The case was then brought to Porter county for hearing.

### PLAN TO OBSERVE THANKSGIVING DAY IN SOUTH AMERICA

RIO DE JANEIRO, Sept. 28.—The proposal to institute an annual Thanksgiving day in Brazil, as provided for in a measure now before the national senate, has resulted in many lively discussions in that body and continues to be the subject of lengthy editorials in the local press. The measure names Dec. 25 as Thanksgiving day, but an amendment has been presented making the date the first Sunday in January. The bill was originally suggested by a Catholic archbishop. On first reading, it was nominally approved by the senate.

Arguing that the constitution expressly prohibited recognition of or special favors to any one creed, the objectors alleged that the measure had come from the Catholic church, that its passing into law would in some degree give recognition to that church, and that the date proposed as a national festival was essentially of a religious significance.

Warren T. McCray promises the state a "business administration." Does that mean a \$175,000 garbage plant grab like Goodrich panned off on Indianapolis?

### PRODUCE MILK IN MECHANICAL DIARY

Government Solves Pasturage Problem in West Virginia Town.

WASHINGTON, Sept. 28.—Lack of pasturage for dairy cattle in the vicinity of Nitro, West Va., resulted in the establishment at that war-built city of a "mechanical dairy" where milk and cream equivalent to the output of a farm with 1,500 milk cows was produced, according to a government report just published. Bottles and cans of the fluid were labeled "reconstructed" milk or cream and "nitrolac."

Accommodations for 25,000 inhabitants were provided at Nitro, schools, churches, hospitals, department stores, restaurants, and all the other elements of a modern well-equipped community being part of the project. As a construction problem it was comparatively simple, but officials began to strike snags as soon as they approached the task of insuring a supply of staple foodstuffs, particularly of fresh milk.

Mountainous District. Nitro is situated in a mountainous district where little, if any natural pasturage is available. Local milk supplies were barely sufficient to satisfy the normal demands of Charlestown, the nearest metropolis. Expansion of the natural supply "fell out of the question" the public health service was asked for aid and the first "mechanical dairy" resulted.

The process used is described as

the "emulsification of butter fat obtained from unsalted butter in a solution of skimmed milk powder, or diluted evaporated milk." A building, 150 feet long by 51 feet wide, was constructed and provided

with huge mixing vats, off-gas and a bottling apparatus. Chemically pure water was used in the mixing and careful tests made by the product which proved to be a little superior, if anything, the report said, to natural milk.

### FRIENDS ALL NOTICE WONDERFUL CHANGE

Mrs. Bowers Says Everybody is Asking Her What She Took to Bring About Such an Improvement.

"Everybody is asking what I have taken to make me look so much better, and I don't hesitate to tell them I owe the wonderful improvement in my health entirely to Tanlac," said Mrs. Susie Bowers, of 1049 Wabash Avenue, Fort Wayne, Ind. "I was in such a terrible condition before I began taking Tanlac. I thought I would have to give up altogether. I had indigestion so bad that I couldn't eat even the lightest kind of food without suffering severe pains afterwards. My kidneys also bothered me a great deal and my back hurt me so bad at times I could hardly stand it."

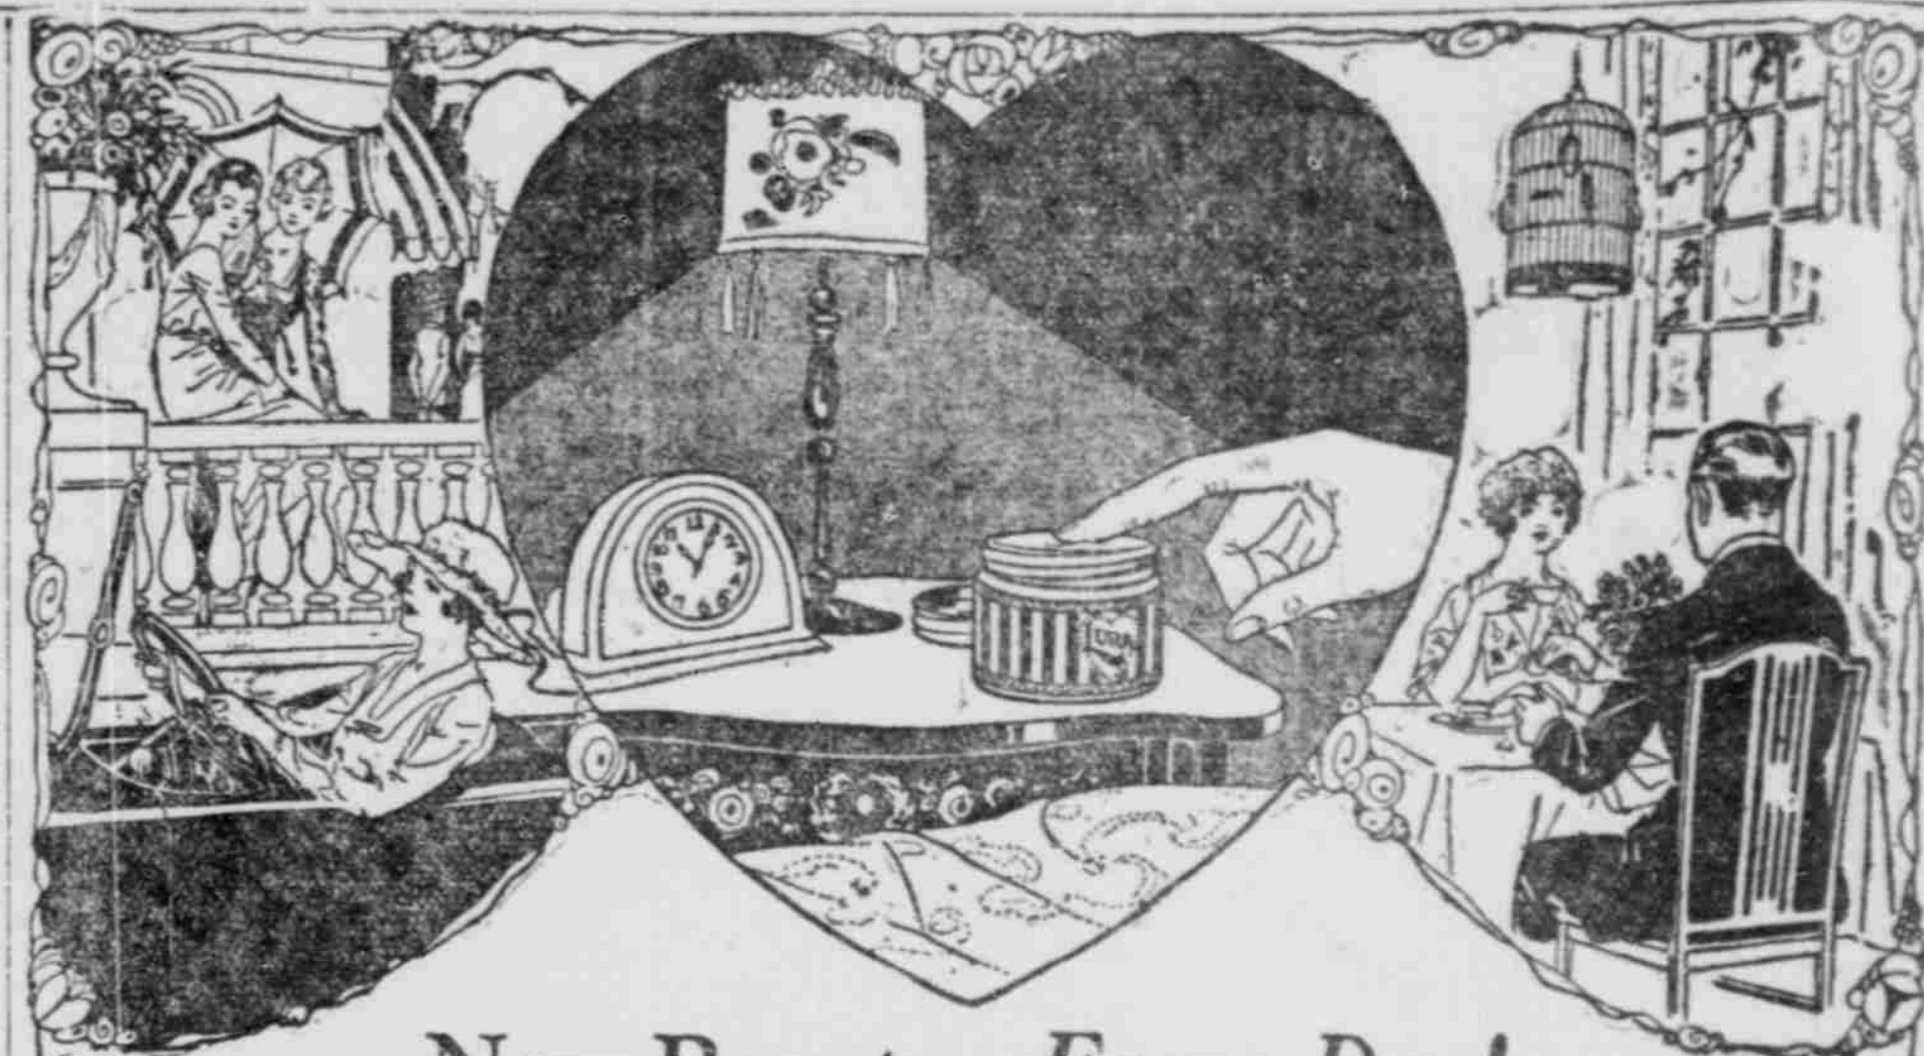

"My nerves became so unstrung the least little noise made me tremble all over, and I continually had the meanest kind of headaches. I could get but very little sleep at night and was so tired and worn out all the time it was impossible for me

to do very much housework.

"A friend of my daughter was so greatly benefited by Tanlac that she insisted on my trying it, and I am so thankful I did for now my six years of suffering is ended. I have such an appetite now I can hardly get enough to eat, and I can even eat raw onions without suffering a particle from indigestion."

"I no longer have any trouble with my back, my nerves are steady and strong and headaches are a thing of the past. I am now so much stronger that I can do all my housework with ease, and can honestly say that I never felt better in my life than I do right now. My best friend-in-law, who was in an awful bad shape on account of stomach trouble, declares Tanlac saved his life. I think it's the greatest medicine on earth, and if anybody cares to call me up on the phone I'll be glad to corroborate every word of this statement."

Tanlac is sold in South Bend at the Central Drug Store, Public Drug Store, Landon's Pharmacy and Wetlick's Cut Rate Drug Store; and in Mishawaka at the Red Cross Pharmacy.

### New Beauty—Every Day!

LURA Massage Cream—Preserves Youth—priceless possession!

LURA Perfume—Exquisite blends of flower fragrance!

LURA Henna Shampoo—The gleam of sunlight for your tresses!

LURA Toilet Water—Just a breath of sweet-scented flowers—elusive—alluring!

QUEL magic est-il? What magic is this? All day in sun and wind—burning—drying! Mais, behold! It is morning—and Madam is marvelous! Fresh as dew diamonds—pink as the petal of the primrose! What delight to see her so!

Quel magic est-il? Magic? Non! It is but this—the soft purity of

### CLEANSING CREAM

On finger tips—to check—to brow. An instant of massage—the passing of gentle linen—and Madam's skin is soothed . . . satisfied! Next morning—how ravishing—she is young . . . radiant . . . alluring!

'Tis the perfumed blend of sweet things soothing in LURA Cleansing Cream that gives the skin true morning freshness! One ingredient absorbs waste oils—another cleanses without irritation!—Ideal Laboratories Company, 533 S. Wabash Ave., Chicago.

Eight LURA toilet requisites are made with the same perfection as LURA Cleansing Cream! Years of experience have brought the knowledge that makes every LURA Preparation an achievement!

## The man who thinks he can't shave with a safety razor

The man who excuses his use of an old-fashioned razor on the ground that he has a tender skin and a wiry beard, often tells this to a safety razor user who has a much more difficult face to shave.

ONE of the most surprising reversals of opinion ever known in the history of shaving has suddenly come about.

In the past four months—since the introduction of the new Gillette razor, the BIG FELLOW—more men have given up the old-fashioned way of shaving for the Gillette habit than in any similar period of time heretofore.

Many of them, men who had always looked upon the safety feature of the Gillette as its only

advantage and one that they did not require of a razor.

There was something about the Big Fellow, the Gillette with the longer handle and heavier head, that appealed to them the instant they saw its size and felt its weight and balance.

And the men who used to think they couldn't shave with a safety razor are making the Gillette Big Fellow their particular razor—and the fastest selling razor that has ever been placed on the market

No Stropping—  
No Honing
