DR. JOHN BULL'S

COMPOUND

CEDRON BITTERS,

The Latest and Most Important Discovery of the 19th Century

NO man's name is more intimately connected with the history of Materia Medica in the United States, or more favorably known as a physician and discoverer, than that of Dr. JOHN BULL, of Louisville, Ky., his inimitable preparation of Sarsaparilla, has long stood at the head of the various compounds of that valuable drug. His Compound Pectoral of Wild Cherry has become a household word throughout the west and south, and his Worm Lozenges in less than a year after their introduction attained a reputation as wide spread as the continent of North America. But the crowning glory of his life remains to be attained in his latest discovery, or rather compilation, for he does not claim to be the discoverer of CEDRON, which is the boast of the citizens now ordered to the pasture. That honor belongs to the native inhabitants of Central America, to whom its virtues have been known for more than two hundred years. Armed with it the Indians ride boldly up to the most deadly malaria, and handles without fear the most venomous serpents. It is a secret with them that while there is breath left in the body the Cedron is potent to cure, no matter what the disease may be.

While Dr. Bull is not prepared to endorse the extravagant pretensions, he is nevertheless satisfied, from a thorough examination of the evidence relating to its virtues, that as a remedy and preventive for all diseases arising from exposure either to changes of weather or climate, or to the miasmatic influences, it stands without a rival, and justly deserves the reputation it has so long in Central America, and the West Indies, in

DYSPEPSIA.

And its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the range of the Materia Medica, that can at all approximate bear a comparison with it in this disease.

A full investigation of this wonderful plant may be found in the 11th edition of the U. S. Dispensatory, pages 1307 and 1308.

A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of Cedron with other appropriate agents, the whole preserved in the best quality of copper distilled Bourbon whisky, which he is confident has no equal in the world.

He might furnish a volume of certificates, but the public have long since learned to estimate such things at their true value. The safest plan is for every one to test for himself the virtue of a new medicine. Give the

CEDRON BITTERS

One trial and you will never use any others.

It is not necessary to publish a long list of diseases for which the Cedron Bitters are a specific.

In all disorders of the Stomach, Bowels, Liver or Kidneys;

In all affections of the Brain depending upon Derangement of the Stomach or Bowels;

In Chills, Rheumatism and Neuralgia;

Used in Fever and ague, it is destined to supercede all other remedies. It not only cures these diseases but it prevents them.

A wine glass full of the Bitters taken an hour before each meal will prevent the ill effects of the most unwholesome, and screen the person taking it against disease under the most trying exposure.

MEDICAL.

These Bitters are prepared in pure Bourbon Whisky, from a combination of over twenty different kinds of roots, barks and herbs, which set in perfect concert, do with the other prepared from the original formula given by the great chief, Red Jacket, to Dr. Obadyn, who used them successfully in his practice for many years, and by their use gained as great a popularity in the treatment and cure of dyspepsia, liver complaint, constipation, sick and nervous headache, fever and ague, and all diseases arising from torpid liver and indigestion. Persons suffering from either of these loathsome diseases will find a sure cure by the use of these Bitters, which are perfectly pure and free from all those drugs and poisons usually put up in such preparations and palmed off on an unsuspecting public. A single trial will convince the most skeptical that in the RED JACKET there is virtue which no other Bitters possesses.

CANCERS.

DR. W. C. COUDEN,

formerly of Cincinnati, has located permanently in

Terre Haute,

Rooms over Cook's Drug Store.

Dr. Couden

Will devote special attention to the treatment of Cancers and Cancerous affections.

In calling attention to my Cancer Antidote, a new treatment for Cancer, permit me to say that it is the most wonderful discovery ever made in medicine. It is the great desideratum so long sought for by the Medical Profession and the afflicted in cancer, its operation is truly astonishing, without a parallel, and is the only known antidote to cancer, and all cancerous affection; the moving spring of the antidote is apparently by entering into the chemical composition of the cancer, causing it to become inactive growth, thereby removing all life and vitality, and destroying the cancer, every particle root and fibre being brought away without the loss of the whole, without caustic eating or burning, without the loss of blood, or in the least offending the sound flesh. It can be applied to the naked eye or an open wound, as easily and freely as water. By this means large cancers can be removed from vital parts, the eye, large blood vessels, &c., where no other treatment could possibly be used, and in doing so we feel assured of making permanent cures when all other treatment fails. The medical fraternity and all interested are invited to call, and I will exhibit a large number of cancers that I have cured and preserved, and if desired will refer to hundreds of cases cured throughout the country.

Consumption, Asthma, Bronchitis, Pharyngitis and all affections, treated by Inhalation, or otherwise. Parties at a distance can by addressing me, with or without a partial blindness or deafness, either or cancer or chronic. I am in possession of almost a never failing remedy for Fits and Apoplectic Diseases.

SCROFULA, RHEUMATISM AND LIVER COMPLAINT.

Treated with success. Eruptive diseases, such as blotches, piles and tumors, scald head, syphilis, syphilitic affections, mercurial diseases, dyspepsia and indigestion, erisipelas spitle, or swell neck, and all affections of the kidneys and spine will receive due attention.

Also a new and successful remedy for removing Tape-Worm, and all other varieties of worm found. The public and regular professionare invited to call and examine my specimens of cancer.
