

Nate Visits Watermelon Patch; 'Twas Daylight and on Sunday

By NATE EDWARDS
ECONOMY, Ind., Sept. 25.—Sunday afternoon the John Ditch 10-acre watermelon patch, near Dalton, was visited by Lon and Nate Edwards, the Misses Grace Garrison and Thelma Gaskill. There were autos, carriages, buggies and footmen traveling the picturesque roads to and from the melon field which is on the banks of West River. From 8 a. m. until 3 p. m., five hundred melons had been sold. The goldenrod and purple asters that fringed the field nodded a pleasant greeting to each traveler. Andrew Ellis and eight other Anderson people were Sunday morning callers at Edwards Bros. home. Mr. Ellis has been connected with the Pan Handle Railroad for nearly forty-two years. He was raised here and chummed with the older people of today here when a boy. On The Screen

MURRETTE
Mme. Petrova has been in America six years. June 20, 1917, marked the anniversary of the distinguished Russian artist's arrival in this country. Up to that time she had won a most enviable reputation on the Continent and in England as a vaudeville artist of remarkable skill and versatility. Mme. Petrova has also gained prominence as an interviewer and dramatic writer on the London Tribune, where her remarkable performance on the stage attracted the attention of Jesse L. Lasky, who was visiting Europe for the express purpose of finding talent for his joint enterprise with Henry B. Harris, the "Folies Bergeres." Mme. Petrova is now appearing in "The Law of the Land," an adaptation from George Broadhurst's celebrated play of that name. This was directed by Maurice Tourneur who also directed "The Undying Flame." "The Law of the Land" is appearing at the Murrette theatre tonight.

Lufbery Beats Down Another Foe Plane

SOMEWHERE ON THE FRENCH FRONT, Saturday, Sept. 22.—(By the Associated Press.)—Lieut. Raoul Lufbery, of Wallingford, Conn., one of the most prominent members of the Lafayette Flying Corps, continued his brilliant aerial exploits today when he destroyed one German machine and forced another to land near the front lines. Sergeant Kenneth Marr, of San Francisco, was attacked by four German machines and forced to land when the wires controlling the elevating planes of his airplane were cut by bullets. The members of the Lafayette squadron witnessed a fight over their own field this morning when a French flyer of another squadron forced down a German machine which crashed to earth about a mile away.

Women! It's Cheap! Use Lemon Juice and Make Lotion

To keep your skin and complexion naturally soft, white and clear at all times you simply must use a lotion or cream every day. But choose the one that is best and costs the least. The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable beauty lotion at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothening and beautifier. Just try this lotion! Make up a quart pint of this sweetly fragrant cream and massage it into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen, and bring out the hidden roses and beauty of any skin. Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons.—Adv.

To Honor Our Flag

That there may be a common standard of action and unanimity of procedure in the display of respect to the American Flag in these stirring days of our national life, The Palladium presents the following:

- ### Recognition of the Flag in Parades
- When the flag passes all conversation and movement except cheering and waving of handkerchiefs, banners or flags must cease.
 - The attitude must be one of respectful attention.
 - If at a distance, uncovering the head on the part of a man or silently tipping the head on the part of a woman, is sufficient acknowledgment.
 - If near, the more complete military or naval salute should be given. In this the right hand is raised smartly, with the forearm inclined at 45 degrees until the tip of the forefinger touches the lower part of the forehead above the right eye. The hand and arm are then dropped smartly to the side.
- ### Display of the Flag in Decoration
- When a pole or standard displays the flag it must be fixed at an angle of not less than 45 degrees.
 - When displayed within a window the flag must be placed with the blue field of stars to the right of one looking out.
 - When hung suspended above a street the blue field of stars must be farthest away from the one making the display.
 - In decorating with more than one American flag the blue Unions must be draped together.
 - In the use of streamer decorations the blue must be at the top, the white next and the red below.
- ### American Flag "Don'ts"
- The flag should not be painted, pasted or lettered on the body. The only exception to this statement is in the case of soldiers and sailors.
 - The flag should not be worn in ribbons, hose, collars, handkerchiefs, or as a part of other articles of clothing.
 - The flag should not be painted or pasted on walks, seats or steps.
 - The flag should not be used in decorating the wheels of vehicles that must pass through mud.
 - The flag should not be used as a cover for tables or stands upon which any other object is to be placed or displayed.
 - The flag should not be worn or displayed beneath any other emblem.
 - Use the flag—as a flag.

raphy is one of the features offered in the new Douglas Fairbanks-Artcraft picture playing at the Murray theatre tonight. With the aid of flare lights and a special photographic device, Cameraman Victor Fleming filmed a scene of the popular actor relaxing on the ground looking up at the stars one evening, which effect has caused considerable comment around film producing centres. The Fairbanks photographer is hardly more than a boy and his exceptional work has often caused wide comment. Youth is quite characteristic of the Fairbanks organization. Anita Loos, the clever scenario writer, is in her twenty-first year. Cameraman Fleming and his staff including Harvey Thorpe, Glen MacWilliams and Chas. Warrington are all under voting age and various other important members of the business organization are scarcely out of their "teens." The popular actor on every occasion encourages the development of youth, enforcing the necessary discipline in a manner entirely his own.
