

GERMAN RELATES STORY OF FIGHT FOR NEWSPAPERS

Anzeiger Reaching Martin Grunke Contains Letters Telling of Sniping by Belgians as Enemy Passed.

German newspapers arriving in Richmond this week detail the fighting that took place at Liege and the early battles in Alsace Lorraine. Many papers carry personal letters from private to their relatives and friends. The paucity of news seems strange to an American, but the brevity with which the German general staff details army actions explains the apparent lack of reports from the front. Mr. Martin Grunke has presented The Palladium with a number of issues of the Sonneberger Anzeiger, from which the following translations have been culled.

Commenting on the attitude of the inhabitants of Liege, a private writes to his mother:

"They shot at us from the houses; boys and women threw stones at our troops and even aged men fired at us from behind hedges. The commanding officer of our troop collected as many inhabitants as he could and explained to them why it was necessary for us to cross Belgium. He insisted that further resistance from civilians would be summarily dealt with. Hardly had he said the last word before a bullet ended his life. Eight persons who were in the group from which the shot was fired were surrounded and executed. The telegraph agent refused us the use of the instrument. He also was shot."

Relative to the activity of Belgian civilians another private writes, "They shot at the Red Cross nurses. Five Belgian laborers shot at an ambulance corps. Three of the group were caught and shot. A village whose inhabitants shot at us was fired. I was wounded in an engagement near Liege. While in the hospital a shrapnel landed near me, killing a number of wounded and nurses."

ECONOMY, Ind., Sept. 16.—The first annual meeting of the Economy board of trade is announced for Sept. 27 at Klondyke park. This board was organized ten years ago to regulate the prices of foodstuff. We should say it is a very small copy of the Chicago board of trade. It does practically no harm and provides amusement for the members. There are many former members who have moved away to other states, who are eligible to attend if they still have the club cartoon which is equivalent to the pass word. Special invitations will be sent to Willard Fulton of Fountain City and John Barnhart of Kansas City.

START SCHOOL YEAR

New Teachers Take Charge at Hollansburg.

HOLLANSBURG, O., Sept. 16.—School was opened here Monday for the 1914-15 term with a good enrollment. The afternoon session was given over entirely to entrance examinations for those who were conditioned last spring. The majority of those who availed themselves of the opportunity were successful.

The following teachers have charge for the year: Miss Mattie Jackson, kindergarten and primary work; Carl Rush, Palestine, intermediate and two grammar grades; William Hollinger and Howard Harley, high school work, and the remaining grammar grades; Miss Olga A. Jones, township superintendent.

Baby of Future is Considered

Much thought has been given in late years to the subject of maternity. In the cities there are maternity hospitals equipped with modern methods. But most women prefer their own homes and in the towns and villages must prefer them. And since this is true we know from the great many splendid letters written on the subject that our "Mother's Friend" is a great help to expectant mothers. They write of the wonderful relief, how it seemed to allow the muscles to expand without undue strain and what a splendid influence it was on the nervous system, such helps as "Mother's Friend" and the broader knowledge of them should have a helpful influence upon babies of the future.

In a little book for such women these points are more thoroughly brought out and a copy will be mailed to anyone who will send us their name and address.

"Mother's Friend" is sold in all drug stores and highly recommended for its timely usefulness, its safety and the real help it affords. Ask for it at the store and write us for the book. Bradfield Regulator Co., 311 Lamar Bldg., Atlanta, Ga.

Has the Stuff In It.

"There is a reason why your medicine has the confidence of the people, and is successful," remarked a prominent physician the other day.

"IT HAS THE STUFF IN IT."

No truer word could be uttered by any one regarding Dr. A. B. Simpson's Vegetable Compound, as it contains the best elements known to medical science for its purpose, and the proportion of each one has been the study of half a century.

To eliminate all poisonous and obstructive matter, to stimulate, invigorate and regulate the innermost organs of the human body—thus purifying or relieving the blood of its deadly accumulation.

Such is its purpose, and in so doing covers a wide range of disease and disorders.

Contagious Blood Poison, (Syphilis), Scrofula, Ulcers, Sores, Eruptions on Skin and all manifestations of impure blood, yield quickly to this treatment. Contains nothing harmful, and as a general regulator or that "all run down" rheumatic condition, has no equal.
