

The Daily Journal. EVANSVILLE, IND.

SATURDAY MORNING, DECEMBER 31

LARGEST CITY CIRCULATION.

NEW YEAR'S ADDRESS.—Our faithful carriers, who have served their patrons with the news in all kinds of weather...

The New Test.—The President, in his Message, takes ultra Southern ground on the slavery question...

This, then, is to be the great plank in the Charleston platform, and all those popular sovereignty Democrats who helped to elect Mr. Buchanan...

We expect to see the State Sentinel come out against this new-fangled villainy. We learn that our fellow-townsmen, Mr. Whitteley...

We are anxious to see how the Enquirer will view this subject. The conductors of that paper no doubt assisted in electing Mr. Buchanan with the cry of "non-intervention..."

A "NATIONAL DEMOCRAT" IN A FIX.—The Indianapolis Journal tells an amusing story about the arrest of Mr. Bayless W. Hanna...

There are several kinds and degrees of honesty, of which, being simply clear of theft, is the least meritorious. There is a higher and nobler kind of honesty, that to which, no doubt, the great poet alluded...

The terms of the call for the National Convention at Chicago meet with general approval. John Wentworth, of the Chicago Democrat, an extreme anti-slavery man, has become sensibly moderate since it was promulgated. He says:

We like the form of the call much. If we would change it at all, it would be for the purpose of making it still more comprehensive. We would add to the opponents of the present Administration...

The Washington correspondent of the New York Herald thus alludes to the light in which the call is viewed at the Capital:

The South American Congressmen and other prominent men in that party acknowledge the call of the National Republican Committee for their Presidential campaign...

The Greencastle Banner comes to us in a bran-new dress, and looking "all alive" with the latest news. Our friend Brown publishes a long list of payments just made on subscription. It is good for sore eyes to look at those figures.

The New Albany Ledger tells of a dentist at that place who went into St. Mary's Parish, Louisiana, to practice his profession...

The New York Herald is putting in the "big lieks" for a new Union movement—a sort of go-between, to "cut in" ahead of the ultra Republican and the ultra Southern Democratic parties.

Dr. Boynton at Indianapolis. Dr. B. continues to lecture at Indianapolis on his favorite subject of Geology...

He lectured on Monday night on "Coal Beds," which, the Journal says, "was the best of the four lectures already delivered. We have never had in Indianapolis a superior lecturer to Dr. Boynton...

The Sentinel, in noticing his third lecture, says "it was deeply interesting. If Geology does not become a popular science, after the course of Dr. Boynton is through, we will be deprived, for he clothes it with such attractions, that everybody who hears him seems as much devoted to the subject as he is himself."

The Evening Atlas says "his third lecture was replete with interest, and was listened to from its commencement to its close, with unflagging interest. Those who have formed the idea that Geology is a dry and uninteresting study, should certainly hear Dr. Boynton."
