The latest fad for small evening parties is called the fagot party. As the guests arrive each lady is given a little wax candle, and these are lighted one at a time. They burn about ten minutes. Each lady selects some amusement, or game, and when this game begins the taper is lighted and the game must be completed by the time the taper has burned itself out. If it is not it is discontinued and another lady proposes a game, which must be completed to the light of this second taper. If it is a game of euchre, for instance, when the taper is burned out the lands must be thrown down; if it is a song or a piano solo, or a recitation or story, it must end when the taper burns out. Enough are given out to run the evening to about

10 o'clock and then the refreshments are served. Most of the towns around us are having these parties, and they seem to be very enjoyable.

He spoke in severe terms of a man who would bring suit on such a ground, and gave notice that his court would never be a party to any action of that character.

**A HEARTY LAUGH.**

The Wonderful Effects It Has Upon the Human System.

"Laugh and grow fat" is a saying as old as the hills. It has long been an accepted fact that humor is a promoter of digestion and merry words the deadliest foes of disease. Dr. J. E. Kennedy, editor of the Iowa Health Bulletin, writes an interesting article on the value of laughter, in which he shows it is not only a remedial agent, but is also a valuable preventive against a host of diseases. The physical effects of laughter are thus put down by Dr. Kennedy: Laughter increases the blood circulation.

It enlarges the heart.  
It expands the lungs.  
It jiggers the diaphragm.  
It promotes the dioculation of the spleen.

In other words, laughter stirs up the vital regions of the body, gives them healthful exercise and produces a mental exhilaration which acts upon the system much as a brisk walk in a crisp atmosphere does upon the appetite. As strong allies to laughter Dr. Kennedy gives the following directions for mental peace of mind:

Beware of theologians who have no sense of mirth. They are not altogether human.  
Keep your chin up.  
Don't take your troubles to bed with you. Hang them on a chair with your trousers or drop them in a glass of water with your teeth.

Dr. Kennedy has surely hit the nail on the head. If his prescription and advice are followed, his own bills will be decidedly cut down.—Burlington Hawkeye.
