THE INITIAL TEST
Show the Yates-Lowden Forces in Control in Illinois.

Springfield, Ill., May 11.—Developments of today clearly foreshadow the organization of the Republican state convention, which convenes here tomorrow, by the combined forces of Governor Yates, Colonel Frank O. Lowden and Congressman Vespasian Warner. The existence of the combination came to light when the state central committee met to hear the contested cases for the purpose of determining which of the contesting delegates shall sit in the temporary organization. The combination, it is admitted, will be able to control the seating of the contesting delegates, temporarily and permanently, as the Yates-Lowden forces will have fifteen of the twenty-five members of the credentials committee. While the alliance at present is confined only to organization, it is admitted that the attempt will probably be made to apply it also to the nomination of the gubernatorial candidates. If this is successful the nomination will go either to Yates or Lowden. Congressman Cannon will be both temporary and permanent chairman of the convention.

Defendant Had No Fear.
Bellefonte, Ill., May 11.—A test for poison in food was made in Justice Cannaday's court, which resulted in the acquittal of John A. Fletcher, who was arrested and charged with having prepared the edibles to cause the death of members of his household. The justice's test consisted in having Fletcher eat a dish of beans and drink a cup of coffee submitted as evidence. The test was suggested by Fletcher's attorney, who said that he was willing that his client should prove his innocence in this manner. Fletcher ate the beans and swallowed the coffee, but showed no signs of illness and was discharged.

Will Contest Brannock Law.
Columbus, O., May 11.—The supreme court has refused to permit the filing in that tribunal of a suit in mandamus to test the Brannock district local option law for municipalities and the proceeding will have to take its regular course through the lower courts. Later suit was filed in the common pleas court of Franklin county to enjoin the elections already ordered under the law in Columbus. The court refused to grant a temporary restraining order, but will consider the points raised on the constitutionality of the law.

Suicide at World's Fair.
St. Louis, May 11.—Captain Walter Allen of St. Louis, connected with the World's Fair Jefferson Guards, and a brother of "Private" John H. Allen, national World's Fair commissioner from Mississippi, committed suicide last evening by shooting himself through the heart in a room in the dormitory of the Washington University, now utilized by the exposition. He left a note stating that ill-health had driven him to commit the act. His wife and two children survive him.

Japs Are Reconnoitering.
St. Petersburg, May 11.—Lieutenant General Sakharoff, commander of the First Siberian army corps, in a telegram to the general staff, says that the Japanese having occupied Feng Wang Cheng, are remaining there and are making reconnoissances of the main road to Liao Yang and both flanks of the road. General Sakharoff says the Japanese have occupied Huang Tiang Sia, fifty miles northeast of Feng Wang Cheng.

Will Build Panama Canal.
Washington, May 11.—Admiral Walker, president of the Panama canal commission, has received a telegram from John Findley Wallace of Chicago, general manager of the Illinois Central railroad, accepting the appointment of chief engineer in charge of the construction of the canal. Mr. Wallace will receive a salary of \$25,000 a year.

Hoozier Kills Wife and Self.
Albuquerque, N. M., May 11.—Herman S. Itwedel shot and fatally wounded his wife and killed himself with a bullet from the same revolver. Domestic trouble was the cause of the tragedy. Both were health-seekers, and came here two years ago from Whiting, Ind.

An Unfounded Rumor.
St. Petersburg, May 11.—An official investigation shows there is no truth in the report that the Vladivostok and Port Arthur squadrons have effected a juncture after a naval battle in which both squadrons suffered losses.

TERSE TELEGRAMS
Eight hundred book binders in the shops of the Chicago Typothetae are on strike. It is stated that a British advance on Lhasa is now inevitable and that preparations to that end are now progressing. Two men were killed in the wreck of a south bound Adams Express special at Port Chester, N. Y., on the New York, New Haven and Hartford R. R. Dispatches from Shanghai say that the Tartar general at Mukden has declined to obey Viceroy Alexieff's order that the Chinese evacuate Mukden. It is believed that a portion of the Russian Vladivostok fleet has been successfully shut out and is now in the sea of Japan trying to evade the Japanese. An accident to a train from Port Arthur to Harbin occurred near Tieling. Thirty passengers were killed and fifty injured, and the permanent way was greatly damaged. All hope that the five men who were imprisoned on Thursday last in the burning Locust Gap mine, at Shamokin, are alive has been abandoned and the mine has been flooded to extinguish the flames. The Japanese have requested the United States government to inquire into the fate of forty men who were missing after the blockading of Port Arthur. It is believed that several of them have been captured.

AMUSEMENTS
Some idea of the humor of "The Tenderfoot," the big operatic comedy success, which will be seen at the Gennett theatre on May 20th, may be gleaned from the central theme, which throws Professor Zachary Pettibone, LL. D., B. A., a down-east pedagogue, with all the characteristics of one of his kind among a crowd of rangers, Mexicans and denizens of the wild southwest, as it were on their native heath. One may easily imagine the tribulations of the staid and precise old tutor and his flock of dainty pupils amid those strange surroundings.
