## COMMUNICATION TO COUNCIL

From a Citizen of West Richmond.

Gentlemen—This evening your chairman on public improvements will report unfavorably to making a sidewalk on the north side of West Main street from First to Fifth streets, wholly ignoring a petition signed by seven-eighths of the resident ownership, and at the same time will report to make said walk from First to Third, wholly ignoring a remonstrance, signed by every foot of resident ownership. You will remember that at the last meeting of the old council Gardner and Deuker, through misrepresentation, railroaded the measure through your honorable body to make a sidewalk on the north side of west Main from First to Third without a single petitioner, but instead a standing remonstrance signed by every foot of resident ownership. Gentlemen here is the key to the whole situation. Mr. Sedgwick owns nearly all the lots on both sides of west Main street from third to fifth street. Now if council can be induced to force the people to make a walk from first to third street, then the people who wish to go to Earlham or the cemetery and the pupils who attend the public schools may travel upon those nasty slippery pebbles until they are ground to pieces before a sidewalk will be made from third to fifth street.

No one has asked council for a walk the north side of west Main from first to third, not even a non-resident. Therefore Gardner and Deuker will have to explain to council and the people; or we, remonstrators, will continue to believe them the employed tools of Sedgwick to "bulldoze" the measure through council as they did. We have no hard feelings against "Dick." It's the ones that do the work that are the most displeasable. We are now asking for a walk on only one side of Main which will cost our friend Dick more than one half as much as both sides and at the same time give us an outlet. We want to be fair in this matter and ask of council this much. If you will not make the walk to Fifth, don't make any of it.

The Remonstrators.

## HOW AUTOISTS SPENT FOURTH

A NUMBER OF THEM MADE THE RUN TO DAYTON.

A COLLISION BETWEEN

Will Vaughn and Henley's Machines  
—No One Hurt—Buckboard to St. Louis—Auto Notes.

The Fourth of July was taken as a great holiday by all of the Richmond automobile drivers, all of whom used their machines to effect yesterday. Frank Land, Will Vaughn, and Walter Wilke, each with a party made the run to Dayton to see the automobile races there, in which Wilke was entered with a Rambler. Owing to some irregularity Wilke did not race. The runs there and back were all made in good time and with no accidents. The rain, which fell in torrents, in the afternoon near Dayton, caught many and the autoists coming in were covered with dust which has stuck to the machines by the water. Other local autoists took runs to neighboring cities and spent the evening picnicking. All of the machines worked overtime.

As Will Vaughn, with his party of five, was coming up Main street last evening in his Ford, the firing of crackers by some of the party diverted his attention and he ran into Mr. M. C. Henley's big Haynes-Apperson surrey, which was standing under a tree. Vaughn's axle was bent and a front spring was broken, but no one was hurt.

A White steam machine was quartered in the garage yesterday. It is carrying a party of five from Columbus, Ohio, to Utah.

Two young men were here yesterday enroute from a town in Pennsylvania to St. Louis in an Orient buckboard. So far they had had but few accidents and the little machine, they said, would carry them to their destination in good time.

An auto driver from Columbus to St. Louis sprained his axle and spring near New Paris last night but managed to reach the garage here this morning.

One of the largest cars that has ever been in the city was here last night. A party of ten Indianapolis people occupied it, and were returning to that city after spending the day at the Dayton races. The machine, a Premier, was over twenty feet long and the tonneau alone seated seven comfortably. It was accompanied by a smaller machine of the same make, seating four persons.
