DAILY JOURNAL

MONDAY, NOVEMBER 21, 1870

CITY NEWS.

PARRINGTON.—Our citizens visiting Princeton, will find the American House, kept by our friend Francis Wade, a comfortable and home-like establishment.

PORT BRANCH CLUB.—Our enterprising friend, Capt. H. C. West, of Fort Branch, sends us the first installment of a large Club he is making up for the WEEKLY JOURNAL. He hopes to make his list the largest from any post office in this section.

MR. VERNON STAGE.—The stage for Mt. Vernon, leaves this city daily, at 7 1/2 o'clock A.M. Passengers will find safe and accommodating drivers, and the trip a pleasant one. It also carries, for the convenience of the public, small packages. The office is at Sotabell's stable.

PEPPER THIEVING.—The kitchen of Mr. A. S. Hayhurst was invaded on Saturday night by some hungry wretch, who stole all the marketing and other little comforts laid in for Sunday's use. So complete was the sweep made by the invader, that not a taste of butter was left for the Sunday morning's breakfast.

THE DAILES.—The Post Office News Stand is now receiving regularly all the leading daily papers from all parts of the country. The Cincinnati, Louisville, St. Louis and Indianapolis papers can be had the same day of publication, immediately after the arrival of the trains. The New York and Chicago papers will also be found at the counter.

LECTURE ON MODERN EUROPE.—Mr. Everts has been induced to remain over and favor the people on Tuesday evening, the 22d inst., with a lecture and illustrations of France, Germany, Spain, Switzerland, Italy and other European Provinces. Lecture to open in the First Baptist Church at 7 1/2 o'clock on 21st. Tickets 50 cents, Children 20 cents.

TILL TAPPING.—An elderly man, who had engaged to teach a Lamaseo grocer the art of making whisky by a short cut process, took advantage of the temporary absence of his pupil to reach over the counter and rob the cash drawer.

When accused of the theft, he stoutly denied it, and refused to give up the money which the grocer's wife saw him take. In this state of things the confiding grocer ran for Marshal Wunderlich, innocently taking the old fellow's word that he would await the officer's arrival, which promise he basely violated, leaving the grocer to exclaim against the "mortal turpentine" of the age. Capt. Wunderlich made a diligent but vain search for him through town.

HOTEL GARNL.—We direct attention to the card of Mr. H. Neumann, who has fitted up Orchard Block, corner of Locust and First streets, as a Hotel Garni, and has made it a most desirable place for gentlemen to stop. His rooms are clean, light, and nicely ventilated. Here gentlemen can obtain meals without lodgings, or room without meals. His table is always supplied with the best of the country affords. Read his card and give him a call.

DESTRUCTIVE FIRE AT CARBIVILLE Kentucky.—The officers of the steamer Idlewild, which arrived at this port on Saturday, being the second of a destructive fire that destroyed the residence, store, and warehouse of Mr. James Barrett, at Carbiville, Kentucky, on Friday evening.

The fire broke out just as the Idlewild arrived at the landing, and her passengers and entire crew turned out to arrest its progress, which at one time threatened to sweep the whole town, but by their valuable assistance the disaster was averted. The loss by this fire will reach \$10,000, for beside the buildings the stock of goods in the store and a quantity of tobacco in the warehouse were destroyed, the household goods only being saved.

During the fire a quantity of gunpowder in the store was exploded, and one man received a slight injury from a piece of rock thrown by the explosion.

AMUSEMENTS. OPERA HOUSE.—The Carnival of Novelties opens at the Opera House, to-night. The entertainment will be opened by Professor Du Caux, with feats of prestidigitation and ventriloquism, introducing for the first time in this city, the not only novel but astonishing feat of holding a conversation with his own hand, which not only fails but sings in concert with the Professor, a feat that has been universally pronounced the most interesting, laughable, wonderful and entertaining feature ever introduced in the ventriloquical art.

The Royal Marionette Troupe is also a new feature in this country. It consists of a troupe of twenty-five artists of an extraordinary character, being apparently animated anatomical, illustrating the dancing skeleton, a feature that never falls to bring down the house.

Added to the above attractions is the fact that one hundred useful and valuable presents are given away each evening, the principal of which to-night will be a set of Armstrong's chamber furniture, valued at thirty-five dollars. See advertisements and posters.

KATIE FURNAM.—The Opera House was crowded on Saturday evening, to witness the production of the extravaganza of the "Dance of the Amazons." The play is like all of Brougham's pieces—a most intensely funny accumulation of anachronisms as grotesque as John Bull's revised edition of ancient history, and in its presentation by this company not a point that could amuse the public was omitted, but its amusing character was heightened by their excellent appointments and superb costumes. The whole troupe is gone, and it is but justice to them to say in their absence as when they were present, that there is not a poor actor among them. Miss Furnam has attracted houses during her season that no other artist has enjoyed, and Brown, by his geniality, is a great success, as well as his most successful actor, has largely increased the number of friends he already had here, while the rest of the company have proved themselves worthy of kind remembrance, should they visit this city again.

In making this farewell notice, it would hardly do to omit mention of Master Eddie, whose amusing dances, songs and songs have caused so much merriment. He will develop into something higher if he sticks to Brown.

Legal Matters. In the Circuit Court, the case of Stone vs. Davidson was resumed on Saturday. The jury retired during the morning, and was discharged between ten and eleven o'clock on Saturday night, without being able to agree.

The case of Mary News vs. Adam Fains et al., in which title to certain property is involved, was not concluded, and will be resumed on the 23d inst.

In the Criminal Court Mary Conway was convicted of assault and battery and fined five dollars and costs.

The case of the state vs. Smith and others, for the Armstrong Township riot, is set for to-day.

In the Recorder's Court the usual array of disorders appeared. Terrence M. Donoghue, who is not probably any relative of the naval hero, took apartments at the Walnut Street refectionary, until he shall have come the value of \$5 for a drunk in independence.

Laura Davis, Minnie Chase, and Jessie Bell, were arraigned for fighting. It appearing that Minnie and Jessie were fighting for their "lairs" and their "duds," which Laura had invaded. They were dismissed, and Laura contributed \$5.00 as the expense of the crusade.

A man who drove over a sidewalk, paid \$5 for his disregard of the ordinance.

Six names are on the police books as the result of the vigilance of the police on Saturday and yesterday. Their cases will be tried this morning.

A Case Known to Many of Our Citizens. EVANSVILLE, Nov. 15, 1870.

Dr. H. W. Cloud: My daughter was for months pale and delicate; she was often compelled to quit her school on account of her extreme feebleness. Her peculiar paleness attracted the attention of all who saw her, and her condition became a source of great alarm to me.

At the suggestion of a friend I put her upon your Invigorating Cordial, and after its careful use for several weeks she is in perfect health. Her cheeks are ruddy and her appetite is actually alarming. I make this plain statement because I fully believe that the great change wrought in my child is due to the restorative properties of your medicine, and the fact should be known. nov18-1w N. MOUNTS.

BOOTS AND SHOES.—The old established boot and shoe house of John Rasch, on Second Street, below Main, is the place to go to buy your Winter boots and shoes at the lowest prices. Mr. BIGHAM, of W. C. Weir & Co., says the Water Works trenches are always properly guarded, but that people occasionally find the guards handy for kindling wood. Per contra, the people living near the corner of Fifth and Davison complain that, although the pipes are in the trenches at that place, the trenches are yet uncovered.

A FLYING RUMOR says that a "nice young man," whose application for the hand of a young lady was indignantly refused by her father, replied that he would ruin her, and in pursuance of this threat sought out the enraged and muscular parent tried pond and persuasions that were very effective in causing the retreat of the "rascal," in whom "dad" made a very unpleasant impression. nov 18th

CHANGES OF SUDDEN DEATH.—An exchange, speaking of deaths attributed to heart disease, says that fifty-six such cases examined at Strasbourg, France, only two proved to be from that cause, while by far the largest number were from congestion of the lungs, and gives the following information:

The causes that produce congestion of the lungs are cold feet, tight clothing, costive bowels, sitting still chilled, after being warmed with labor or a rapid walk, going too suddenly from a close heated room into the cold air, especially after speaking, and sudden depressing news operating on the blood.

The causes of sudden death being known, an avoidance of these may serve to lengthen many valuable lives, which would otherwise be lost under the verdict of "heart complaint."

All of which is respectfully commended to the attention of young people who at this season are accustomed to take terphichorean or skating exercise.
