

LATER FROM SANTA FE.—We copy the following from the St. Louis Republic of Wednesday:

We learn from Fort Leavenworth that Gen. Price, Dr. De Camp, U. S. A., and others, in advance of the volunteers whose term of service in New Mexico had expired, arrived at that post on the 17th of Santa Fe. They left Santa Fe on the 11th of August, proceeding by easy marches to Moro. When they took their departure, all was quiet in New Mexico, which was then held by three companies of U. S. dragoons and three companies of volunteers, who had re-enlisted, under Major Walker.

Col. Price, we may infer, was sick of the duties of military life, or else he, the highest officer in command in New Mexico, would not have ventured to leave the territory in so exposed a position—a battalion of men only left to protect the people from any outbreak which might be attempted. What he will do now—whether he will immediately return, where the presence of an officer of high rank must be much wanted, or remain loitering about Missouri—is yet to be made known.

When our army reached Tacubaya, the old Texan prisoners, who were with it, stood near a monument, which had been erected to Santa Anna in honor of his having built the fine road from the Capital to Tacubaya by the hands and labor of the said Texan prisoners, and in the twinkling of an eye, the monument was scattered to the four winds of heaven, for the stones of it were literally crushed to atoms!

Robinson & Co., £140,000; four more in London, (smaller), £210,000; Liverpool, £142,000; Stockton, £100,000; Glasgow, £200,000; Waterford, £150,000; Cork and Limerick, £100,000; Sligo, £60,000.

AUSTRIA—ROME—ITALY.—A communication from the Italian frontier, in the Mannheim Journal, states, that in reply to a formal protest from Lord Palmerston, in the name of his Government, against Austrian intervention in the internal affairs of the States of the church, the Austrian cabinet has declared its determination not to interfere, "except in the last extremity, i. e., if the movement in the States of the church threaten to compromise the tranquility of its own provinces."

Letters from Rome have reached us down to the 23d ult. It was reported in that capital that the Secretary of State had forwarded a note to the Cabinet of Vienna, in which he declared that, should the Austrians not evacuate the town of Ferrara within a fortnight, the Pope would recall his Nuncio from Vienna, and send passports to Count Lutzw, the Austrian ambassador at Rome. The Pope had instructed the Governors of Ancona and Civita Vecchia to supply those fortresses with three months' provisions.

Preparations of war form the chief items of news from Rome. An artillery captain, named Lopez, has been sent to France to purchase ten thousand muskets, and ten thousand hands are already held out to receive them, that number of young volunteers having offered themselves to resist an invasion. Meanwhile, the Roman Government steadily continues to arm the civic guard, for which purpose citizens from all parts of the State offer it arms.

Signor Azelegio on the point of starting for La Romagna charged with full powers to organize resistance in case of necessity. The Pope gives proof of energy beyond all praise. He has established a camp of 15,000 regular troops at Forli, which is every day reinforced by a number of volunteers.

The enthusiasm of the people is at a great height at Rome. The early organization of a battalion of priests and monks is spoken of, and it is certain that a great number of the religious orders exercise themselves in the practice of arms. The Pope rides about the city on a white mule, which he bought at Florence, and shows to his loyal and faithful subjects a face beaming with the calm of a good conscience, and the profound sentiment of his rights and his strength.

M. Rossi having offered him his mediation on the subject of the affair of Ferrara, he replied, considering himself seriously offended, he would not be contented with an ordinary arrangement, and that he intended to exact complete satisfaction.

Letters from Turin, of the 37th ult., confirm our previous announcement of the protest against the occupation of Ferrara by the Austrians. Prince Metternich, it appears, had addressed a circular to all the Italian princes, prescribing the adoption of certain measures, for the maintenance of tranquility in Italy.—The Prince having suggested, among other measures, the occupation of Alexandria by an Austrian garrison, the King of Sardinia was so indignant at the proposition, that he immediately entered an energetic protest against all intervention of Austria in the affair of the independent sovereignties of Italy and offered the Pope the co-operation of his army and fleet should an Austrian force invade his territory.

The London Times call upon France for prompt action in regard to the affairs of Italy. It charges upon Louis Philippe the design of making prospective proposition for a fourth son, in Italy, and with a willingness, in order to effect this object, to abandon to an ever-beating foe, an insulted pontiff and an outraged people, and insists that in this he is acting in direct hostility to the wishes of his own people, as well as to the demands of justice and of right. The times writes very strongly upon the subject, and calls loudly upon France no longer to maintain her disgraceful position of silent indifference. In common with other English papers, it urges the English government to open diplomatic intercourse with the government at Rome. Most of the journals, however, think that the Pope should take the first step.

Tom Corwin has been nominated for the Presidency, by the Whigs of several co. in Ohio.

TO THE PUBLIC.

JAMES SCANTLIN & SON, HAVING secured for the State of Indiana the Patent Right for the "COMBINATION AIR TIGHT COOKING STOVES."

Are prepared to supply the public on their usual reasonable terms at their Old stand on Main street, Evansville, and take pleasure in being able to recommend it as the very best invention and most valuable article in the stove line, that has yet been offered to the public. It being a decided and acknowledged improvement over all other "Air Tight stoves." Patented in the year 1846.

The many advantages of this Stove over all others, has secured for it the reputation wherever it is known, of being the most important improvement ever made in that article. The stove is furnished with Double Heaters, one for a coal furnace and one for broiling and other necessary uses. It has a capacious oven equal in size to the Stove itself, capable of containing two tiers of pans and perfect in its cooking. The fire chamber is so arranged in front of the pipe that boiling on four of the holes at the same time can be done without the necessity of heating up the OVEN and thus choking up the flue unnecessarily AS IN OTHER "AIR TIGHT STOVES."

And a new improved damper has been introduced in this Stove so that the heat can be regulated at pleasure and any required degree obtained with astonishing exactness. The Stove is got up in good taste, combining in a remarkable manner, beauty with strength and utility. The furniture and equipments of the stove are perfect in every respect, and form of themselves a complete movable kitchen.

In addition to the above stove the subscribers have also secured the right to sell the Double Oven Cooking Stove. "HARRY OF THE WEST," which is very highly approved by all who have ever used or examined it for its capacities in the way for cooking in every department, and for its saving in way of fuel. The certificates below from those who have used the above stoves show that the Combinations are not "puffs" merely, but trials of which all may be convinced.

ALSO—A large assortment of every kind of stoves, such as, Premiums, Parlors, Counting-Room; Shop and School-Room. Together with a large assortment of Tin-ware, at their usual low prices.

CERTIFICATES. MESSRS. JAMES SCANTLIN & SON, Gentlemen—Having examined all, and tried several of the Cooking Stoves now in use, I have concluded to give you the "Combination Air Tight" Cooking Stove of Messrs. French and Winslow a trial, it is an improvement upon the "Wager Air Tight" Cooking stove, and I am fully satisfied that it combines more useful advantages in cooking than any other stove now in use. Yours, &c. R. W. LUNBAR.

MESSRS. JAMES SCANTLIN & SON, Gentlemen—The "Double Oven Cooking Stove," purchased by me from you some time since, has far surpassed my expectations, and is cooking for a large number of persons in a very short time and in first rate style, with small expense of fuel, and any evidence of a good stove; this certainly has proved itself to be one. JOHN M. APP. Taylor House, Evansville.

MESSRS. JAMES SCANTLIN & SON, Gentlemen—After giving the "Combination Air Tight Cooking Stove" which you put up for us, a thorough and impartial trial; we take pleasure in being able to say to you that it far surpasses any thing of the kind we have ever used, and we feel satisfied that it is superior to any of the many patents that are offered for sale in our City. JAMES STEEL. ADAM SCHAFFER, Evansville, August 30th, 1847.

MESSRS. JAMES SCANTLIN & SON, Gentlemen.—In reply to your enquiry concerning the Double Oven Stove "Harry of the West," that you put up for me I would say that I have tried a number of stoves of various patterns, but this one I must give a decided preference over all others that I have used, and consider it well worthy of the attention of the public. CHARLES BABCOCK. MESSRS. JAMES SCANTLIN & SON, Gentlemen—I have used for some weeks past, in my Hotel the Double Oven Cooking "Harry of the West" purchased by me from you, and during that time the capacities of the stove for boiling, broiling, cooking and roasting has been fully tested and I can safely say that this stove can do more and better cooking in a shorter time with less trouble and expense than any stove that has ever been used in my house. I have examined many of the stoves for sale; and for some years was engaged in the business of manufacturing them but have never yet seen any stove that arrives so near perfection as the one now used by me. Washington House. BENJ. NURRE. Evansville, August 30th, 1847.

MESSRS. JAMES SCANTLIN & SON, Gentlemen—Having used the Double Oven Cooking Stove "Harry of the West," I can say that I fully concur with Mr. Nurre in the favorable opinions he has expressed above concerning it. JOHN GREEK. MESSRS. JAMES SCANTLIN & SON, Gentlemen—I have now in use in my kitchen a "Harry of the West" Stove, and I find it to be in every respect preferable to any I have ever used in my ten years experience in keeping a hotel. I have had various kinds and names used in my house, I have cooked with them, but the "Harry of the West" combines advantages in the saving of fuel and in boiling and baking which must ever place it among the very best Cooking Stoves yet invented. C. K. DREW, Proprietor Exchange Hotel.

Reference concerning the stove can also be had of L. M. Olinde, Esqr., James Brazleton, Esqr., Messrs. Allen, Wm. Griffith, Wm. Elliott, Evansville; W. Baldwin, and Dr. Posey, Petersburg, Va.
