(By Associated Press)
Munich, Tuesday, April 3.—A further manifestation of the movement which is spreading among many of the best classes in Munich and other parts of Bavaria was the formation here today of the "council of immigration" under the auspices of the league of South American immigrants. Many people are preparing to leave the cities and settle in the rural districts or in other German states.

The freight houses here are overflowing with household goods which cannot be transported on account of the shortage of rolling stock. The activity of the authorities in billeting soldiers and other government employees or civilians also has induced many persons to leave Munich.
