**NEW WARDS**  
 Chicago is going to have new wards. They are needed, as The Eagle pointed out. The Republican and Democratic County Committees have reached an agreement to put through a fifty-ward bill, with one Alderman from each ward, at the next session of the Illinois Legislature.  
 The river wards, apparently, with sufficient aid from themselves to stop any favorable action upon the proposed redistricting under the present council organization, have forced the political arrangement perfected.  
 Progress has been made whereby an agreed map covering the realignment of ward boundaries, to take care of the additional fifteen wards that would be created, has been prepared and has been O. K.'d by the board that ought to be able to perform the first necessary step, which is passage of the bill at Springfield next winter.  
 This map, it is known, will be used as the basis for congressional reapportionment and probably for a senatorial reapportionment, which have been hanging fire at the state capital ever since the census of 1910. The tentative agreement, congressionally and senatorially, is that the new districts in Chicago shall follow the ward lines created by the agreed map, provided the fifty-ward scheme reaches fruition.  
 The salary to be paid the Council members under the single alderman system will be a factor, undoubtedly, in further development of the joint Republican-Democratic plan. That it may be fixed at either \$4,500 or \$5,000 in the bill to be introduced, is considered probable.  
 Under the agreed map the fifty wards are erected on the basis of population, as ascertained by the school census of 1917, and accurately figured, block by block. No one of the wards, as the realignment proposes, has fewer than 48,000 inhabitants nor more than 52,000.  
 By sections of the city the additional fifteen wards are thus apportioned: North Side, 3; Northwest Side, 5; West Side, 2; South Side, 2; Southwest Side, 3.  
 On the North Side the Twenty-fifth Ward is divided at Granville avenue, the new ward running thence north to the city limits. The Twenty-sixth would have its south line at Irving Park boulevard. The south halves of the Twenty-first and the Twenty-second would be made into a new ward, and the present Twenty-first would lie north of Chicago avenue and east of State street. A new ward would be made of parts of the Twenty-third, Twenty-fifth, and Twenty-sixth.  
 On the South Side, the Fifth would lose its southwest portion to a new ward that would be made out of the north part of the Twenty-ninth. The Sixth would split and a new ward would be erected around Washington Park. A new ward would be built from the south half of the present Seventh and the north part of the Eighth, with Seventy-first street as a center.  
 The present Twenty-seventh on the Northwest Side would be severed at Irving Park boulevard, with a new ward bounded roughly by Irving Park, Belmont, Central avenue, and the river. Another ward would be made from the Fifteenth and Twenty-seventh Wards, between Western, Seelye, Fullerton, and Chicago avenues. Still another new one would be created between North avenue and Madison street, Ashland avenue and Seelye street.  
 Redistricting on the West Side contemplates two new wards in territory now in the Twelfth and Thirty-fourth Wards. In the Town of Lake the north line of the Twenty-ninth is sent south to Fifty-fifth street. A new ward is outlined between Sixty-third and Seventy-fifth streets, with South Park avenue to Western avenue. Another is figured between Forty-third and Fifty-ninth, and between Wentworth avenue and State street.  
 It is understood that the bulk of the county committee men in each party and a majority of the aldermen have approved the new map, and that prospective members of the next legislature have agreed to go along with it, as long as it has been made an organization proposition with both parties.
