BY ORDER OF SESSION.

Union please copy two days.

It would be interesting to tax-payers to know how Bailey earned $8.00 in the police department and $7.70 on the Rock River bridges.—*Little Blondie Sheet.*

Any one who feels any interest in the matter can find the bills on file in the City Clerk's office. They are public property, and open to the inspection of all.

A Blonde Falsehood Corrected.

On Sunday morning the Little Blonde Sheet stated that the county treasury was empty and that the Democrats were the cause of it. On Wednesday the office was turned over to the people's choice, (S. R. Porter) with money in the treasury, and Mr. Porter was informed that no county order had been presented without payment. So much for the Little Blonde Sheet's falsehood.

—P. L. Cable of Rock Island, offers to put up a $4,000 library building for Coal Valley, providing the citizens of that place will buy the necessary books.—*Exchange.*

That Cable is a good one to tie to,—would that we had a similar one in Princeton.—*Bureau Co. Herald.*

And Bailey Davenport, our present Mayor, offers to give this city a lot fronting Court Square, worth as much money, for our public library, *provided* all the rest of the able-to-give people of the city will put up the money to build a suitable building for the library and reading room. Are the wealthy people going to let Bailey Davenport beat them all, combined, in liberality? Can they afford to let him have the credit of being more public spirited and generous than all the combined wealth and liberality of Rock Island?

Put up a Box.

Some of our city subscribers, whose houses are a little off the street, complain that they lose papers occasionally. We do the best we can to make our carriers faithful and instruct them to put the paper inside the houses. But, when they are late we suppose they throw the paper over the fence or on the porch or steps, and run along—boys will do so sometimes. But, if subscribers who lose papers that way will put a little box, with a lid to it, on the inside of the fence, or in some handy place for the carrier, we will see that the boys place the paper in the box. It will be very little trouble to fix a safe box for that purpose.

A GREAT NUMBER.

THE WEEKLY ARGUS of this week furnishes its subscribers with more than double the reading matter of any other paper in this county, among which is the President's Message, in full; a synopsis of the reports of the War, Navy, and Treasury Departments; of the Land Office, Comptroller's office; Com'r of Public Buildings; one of the popular letters of Le Nard, our Washington correspondent; the full text of John Cleland's whine because the people would not have him for their treasurer; full telegraphic news from all parts of the country; the latest markets by telegraph, and a great amount of other matter of public interest—in all 55 columns of matter, 41 of which is choice reading matter. It seems to us that our friends in the country ought to make a little effort to extend the circulation of THE WEEKLY ARGUS. Two dollars a year is a very trifling consideration for the amount of reading matter we furnish.

NOTES HERE AND THERE.

—Pleasant day.

—Fine skating on Sylvan Water.

—Ripe strawberries, grown in the open air, are the luxury in Mobile.

—It costs $5 to swear out loud in the streets at Springfield, Mass.

—Considerable stationary ice on the river shores. The channel is full of running ice.

—Rafferty the thrice-tried and thrice-sentenced Chicagoan who killed a policeman is to be hanged on the 26th.

—The sociable at the residence of Postmaster Jackson, last evening, was a very pleasant and successful affair.

—Two hundred cars of stock came in from the west in the twenty-four hours ending at one o'clock this A. M.

—The river was 2 feet 4 inches above low water mark at 3 o'clock yesterday afternoon, a rise of 16 inches in 24 hours.

—Gen Grant having kicked the Little Blonde Sheet out of the office of postmaster, he now calls the post office boys "lickspittles."

—Mr. Robeson's orders to the commandants of the navy-yards: "Get all available vessels ready for sea, and C U B A little quick about it."

—The sociable given by the young ladies of the Presbyterian church, in the lecture room, was a very enjoyable affair and paid better than was expected.

—Ninety years ago yesterday, (the 4th) Washington issued his order for the disbandment of the army that had triumphed in the Revolutionary War.

—A fowl packing establishment in Geneseo employs twenty-five men in packing chickens, geese and ducks. A ton and a half is shipped daily to Boston.

—During a session of Congress, Washington uses about 1,000,000 feet of gas per day. During the summer about 400,000 feet. No sarcasm is intended.

—On yesterday Joe Davenport shipped to New York six thousand pounds of horse radish. This is the first shipment of this kind ever made from this vicinity.

—A wide-awake Burlington merchant has two and a half page advertisement in a daily paper there. He don't whisper about his goods, but "hollers right out in 'meetin.'"

—We understand that the ladies of the U. P. Church, in this city have fixed upon Thursday evening the 18th, at Dart's Hall, for a fair and festival in aid of the new church building.

—The DeBeriot Club is now composed of Jacob Strasser, leader; H. Braunlich, violincello: Mr. Friederickson, violin; Henry Heitman, violin; and Prof. Cramer, piano. It is a musical combination of which any city might be proud.

—The following announcements of London booksellers—

JOAQUIN MILLER, HALF-CALF.
CHARLES READE'S A SIMPLETON,

Would appear to herald forthcoming libel suits.

—A Peoria paper says: "If some of our druggists would fill a bottle with bed bug poison, place it in the back room and label it 'Old Rye,' there would be so many inquests in the next 24 hours that all the papers would have to issue supplements."

—The notice of the death of another of General Washington's slaves, at an age considerably over a hundred, will be received with sadness, in view of the fact that the lot may peter out sometime and cut off one of the sources of bread and butter to an itemizer.

—The Davenport gas company rendered a bill to the city for gas consumed during November, amounting to $662.70. The *Democrat* is sorry the committee did not investigate this exorbitant charge, and perhaps save several hundred dollars to the city.

—George Hobbs got married at Dubuque, five weeks ago, and now his wife has had him put in jail for stealing $250 from her. This is not the party that was locked in a caboose car in this city until his Pa came down from Geneseo and took him home.

—Rev. C. E. Cheney has at last done what he ought to have done at the very commencement of his ecclesiastical combat with Bishop Whitehouse. He has proclaimed his departure from the Episcopal church; or, rather,—as the custom of politicians is who change their political colors,—he has proclaimed the departure of the Episcopal church from him.

—It is more than probable that the work of a second Credit Mobilier committee will be necessary to overhaul the Northern Pacific railway crowd in congress. If the hints received from the national capital have any basis at all, an able-bodied committee of honest men might find out a great many things of which the people should be informed. Let the investigation go on.

—That is a queer move of Senator Morton in relation to the repeal of the bankrupt law. The senator wants an *ex post facto* law to prevent disclosures in the case of the Cookes. Last year was fatal to "Christian statesmanship;" this year may prove equally disastrous to many who are not in that category. The lavish placing of funds by the "Frigid zone" railway builders is likely to prove a stumbling block in the way of more than one hundred members of the American congress. Let us have the facts.

—The Duck Creek & St. Paul railroad uses the bridge of the Dubuque Southwestern over the Maquoketa river three miles north of Monticello, and on yesterday, (the 4th) when a train of eleven cars besides the locomotive, was crossing on the bridge, a span one hundred and fifty feet in length gave way, went down with an awful crash, taking four cars of grain, one of hogs and one of lumber with it. The track was some twenty feet above the river, and, of course the fallen cars were badly broken and the wreck presented a scene of indescribable confusion. Hundreds of bushels of grain were poured out upon the ice and into the water. Over a dozen hogs were killed outright. Fortunately none of the employes on the train were injured. The bridge was the Howe-truss pattern.

GOV. BOOTH.

Hon. Newton Booth, the present governor of California was elected by the Republicans, but he has repudiated that corrupt party and come out fair and square for the new Anti-Monopoly party. Cas serly, the Democratic U. S. Senator, with two years of his term unexpired, has resigned and it is said is in favor of Booth for the long term and some Democrat for the short term. In organizing the House the old Republican clerk, who acts as presiding officer until an organization is effected, summarily declared the House adjourned in order to give time for his friends to trade. A telegram says:

SAN FRANCISCO, Dec. 3.—The senate having failed to elect permanent officers the body adjourned till to-morrow. In the assembly M. M. Este, of this city, Democrat, was elected speaker, and Louthorough, of El Dorado, clerk. Boruck, who refused yesterday to recognize the call for yeas and nays on the motion to adjourn, and who arbitrarily declared the house adjourned while acting as speaker pro tem., was rebuked by a resolution of the house. His action gained several votes for Booth, and therefore defeated its purpose, which was to gain time for the railroad party to catch up an opposition to Booth. There is nothing yet like a formidable opposition to Booth, and the railroad crowd, led by Billy Carr and Collector Shannon, seemed perfectly demoralized. The election of Este is a point gained for Booth.

The Senate meets at noon to-day to make another effort at permanent organization. No fears are expressed that Booth will not be elected to the United States senate for the long term. No choice is yet announced of a candidate for the short term.

The action of the chief clerk of the last assembly, M. D. Boruck, in arbitrarily adjourning that body last Monday, thereby preventing an organization, resulted in the postponement of the senatorial election a week from to-day. It was a successful trick of a servant of the railroad company, and has provoked great indignation. His choke by the assembly was prompt and sharp.

POLICE FORCE REDUCED.

Something About Police Uniform.

During the summer, when boats were running, shows traveling, etc., two additional policemen were employed, with the understanding that they were to hold only until about the close of navigation. They were employed only up to the first of the present month, since which time the force comprises only seven persons. The Blonde Little Sheet says Davenport has only nine on its force, and more than twice the population and territory, and he therefore wants our force reduced. If he wanted to be fair he would also say that during the last month seven crimes were committed in Davenport to one in Rock Island; and that the constant complaint, over the river, is that their force is not half large enough, and that crime goes unpunished there for the reason that they have not force enough to make half the arrests which should be made. In this city there are about 300 blocks of ground which are occupied, and there are only four policemen to cover this territory during the night, and two and the Marshal during the day, one of whom must be at the arrival and departure of every train of cars at the railroad depots. If anybody can show how this can be done with less men the Mayor will cheerfully reduce the force still further. It is our opinion that the people would prefer to have the number increased, for the reason that when we have a sufficient force the criminal class can be more closely watched and crime repressed—but if the people want a less number a petition, sufficiently signed to indicate the will of the people generally, will be heeded at once.

The Blonde Little Sheet thinks $32 a large price for a uniform over-coat. We believe it is some four or five dollars more than was paid by Murdock for those used last winter—but the coats Murdock bought were of the shoddy order; they pretty much all washed away the first rain and were then hardly fit to wear. A small additional cost gets a coat that no citizen need be ashamed of when worn by his representative. The Blonde Little Sheet thinks an over-coat worn by a laborer is good enough for a policeman. That is all true if the man was employed as a laborer. But, when a man acts as a policeman he ceases to be a private citizen and becomes, or should become, the officer, in which position he represents the people of the city. A suit of clothes which no one would dare to laugh at when worn by a laborer the people would hardly be satisfied to have it said were furnished for their representatives on the police. The policemen themselves care nothing whatever about wearing uniform. The Council, during Murdock's Administration, and on his recommendation, ordered it. Mayor Davenport suggested at the beginning of his Administration a return to the system of citizens' clothes, but the Council voted to continue the uniform. There isn't a man on the force who cares a straw whether uniform is furnished or not, but they are compelled to wear it—by Murdock's introduction and the subsequent vote to continue the practice.

The Grangers and the Chicago Manufacturers.

At a meeting of Patrons of Sheridan Grange, No. 1109, Scott County, Iowa, Nov. 19th, 1873, the following resolutions and preamble were unanimously adopted:

WHEREAS, It appears from the proceedings of a meeting held in Chicago, Oct. 2d, 1873, that the Plow and Implement Manufacturers of Illinois, passed a resolution declaring that they will not sell their implements at wholesale prices, to the agents of Farmers Clubs or Granges. Therefore, be it

Resolved, That we the Patrons of Sheridan Grange, Scott County, Iowa, will let all the implements manufactured by said companies severely alone.

Resolved, That we will patronize the Davenport Manufacturers, and other home institutions that are willing to deal with our agents upon liberal cash principles.

Resolved, That a copy of the foregoing be sent to the Davenport papers.

SYMPTOMS OF CATARRH.

Obstruction of nasal passages, discharge falling into throat, sometimes profuse, watery, acrid, or thick and tenacious, mucous, purulent, bloody, putrid, offensive, etc. In others a dryness, weak or inflamed eyes, ringing in ears, deafness, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired smell and taste, etc. Few only of above symptoms likely to be present in any case at one time.

To cure—take Dr. Pierce's Golden Medical Discovery earnestly, to correct the blood and system, which are always at fault, also to act specifically, as it does, upon the diseased glands and lining membrane of the nose and its communicating chambers. The more I see of this odious disease, the more positive is my belief that if we would make treatment *perfectly successful* in curing it, we *must use constitutional treatment* to act through the bloodas well as a soothing and healing local application. Dr. Sage's Catarrh Remedy, when used warm and applied with Dr. Pierce's Nasal Douche, effects cure upon "common sense," rational and scientific principles, by its mild, soothing and healing properties, to which the disease gradually yields, when the system has been put in perfect order by the use of the Golden Medical Discovery. This is the only perfectly safe, scientific and successful mode of acting upon and healing it.

So successful has the above mode of treatment proven that the proprietor offers $500 reward for a case he cannot cure. All the means sold by druggists. R. V. Pierce, M. D. Proprietor, Buffalo, N. Y.

—Geo. Dodge, son of Jacob Dodge, Esq. who has been running a steamboat on the Red River of the North, in the Manitoba country (British territory) the past summer, has arrived at his home in Rock Island where he will remain this winter.

—It turns out to be Andrew Johnson of San Francisco, and not Ex President Andrew Johnson, who secured a patent on a combination plane. The inventor is much obliged for the generous and gratuitous advertising which his invention has received.

The Human Kitchen and its Dumb Waiters.

The body is supplied with ailment by vessels which connect the stomach and its auxiliaries with the venous system, and, so to speak, perform the dumb waiters in a restaurant. In other words, these media of communication between the animal kitchen and its dependents supply to each member and organ, near or remote, the quantity and kind of sustenance required to keep it going. When the stomach is derelict in its duty, or the dumb waiters inert or obstructed, it is the peculiar province of Hostetter's Celebrated Stomach Bitters to strengthen and regulate them. Here is its marvelous cures of chronic indigestion, and the emaciation, debility and languor which are generally its concomitants. It is, moreover, a powerful alterative and corrective, and the rapidity with which it checks irregularities of the liver and bowels, and braces and invigorates the nervous system, is marvel not only to the general public, but to professional men.

ANNOUNCEMENTS.

POZZONI'S medicated complexion powder for sale by Smith & Bonny and Emil Koehler.

Our readers will certainly thank us for advising them to keep in their houses, for use, Renne's Pain-Killing Magic Oil. It is said to be the best remedy for painful complaints ever discovered. "It works like a charm."

I was getting gray and didn't like it. NATURE'S HAIR RESTORATIVE restored the color of my hair, cleansed my scalp and pleased me wonderfully. Nothing like it in the market, nor ever was or ever will be. See advertisement.

REASONS WHY.—The reasons why Dr. Price's Special Flavorings, Cinnamon, Lemon, Vanilla, etc., are superior to all others, is because they are prepared from the choicest selected fruits and aromatics, without coloring or poisonous oils, that all the flavoring principles are retained unchanged by chemical action, highly concentrated, requiring less to flavor, that there is no deception in bottles as they hold one-half more than those sold for the same size. That they are in every particular like his celebrated Cream Baking Powder, just as represented.

PROCRASTINATION IS THE THIEF OF TIME.—At this season of the year, when life may be cut off in a few hours by an attack of Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cholera Infantum, or some kindred disease, none should fail to have at all times a supply of Dr. McCabe's renowned Medicated Blackberry Brandy on hand. A more certain cure, and at the same time pleasant remedy, can not be found in the whole range of materia medica. The millions who have used it testify to this.

E. F. Kunkel's Bitter Wine of Iron

This truly valuable tonic has been so thoroughly tested by all classes of the community that it is now deemed indispensable as a Tonic medicine. It costs but little, purifies the blood and gives tone to the stomach, renovates the system and prolongs life. Everybody should have it.

For the cure of Weak Stomach, and General Debility, Indigestion, Diseases of the Stomach, and for all cases requiring a tonic.

This wine includes the most agreeable and efficient Salt of Iron we possess—Citrate of Magnetic Oxide, combined with the most energetic of vegetable tonics—Yellow Peruvian Bark.

Do you want something to strengthen you?
Do you want a good appetite?
Do you want to get rid of nervousness?
Do you want energy?
Do you want to sleep well?
Do you want to build up your constitution?
Do you want to feel well?
Do you want a brisk and vigorous feeling?

If you do try KUNKEL'S BITTER WINE OF IRON.

I only ask a trial of this valuable tonic. Beware of counterfeiters, as Kunkel's Bitter Wine of Iron is the only sure and effectual remedy in the known world for the permanent cure of Dyspepsia and Debility, and as there are a number of imitations offered to the public, I would caution the community to purchase none but the genuine article, manufactured by E. F. Kunkel, and having his stamp on the cork of every bottle. The very fact that others are attempting to imitate this valuable remedy, proves its worth and speaks volumes in its favors.

Sold only in $1 bottles. Sold by Druggists and dealers everywhere.

ROSADALIS is used in the practice of, and endorsed by some of the leading Physicians throughout the land. They are induced to do this from the fact that its formula is published around each bottle, so that the physician knowing its component parts, and being already acquainted with their properties, prescribe it with all confidence.

NICHOLASVILLE, Ky., Feb., 17, 1869.

Gentlemen:—I have seen the effects of "Rosadalis" on patients in my own practice, and take pleasure in attesting to its merits as a very powerful alterative. In cases of Scrofula, Rheumatism, Secondary Syphilis, &c., I always recommend it.
Very truly, yours, J. S. SPARKS, M. D.

GOOD ADVICE AND POETRY.

TUBE, "Anything that Fits."
Magic Oil is "death on Fits."

Magic Oil is delicious, thank Renne for this!
All pain it cures quickly for mother or miss,
Goes right to the trouble, rubbed in with the palm,
As sure as you're faithful "It works like a charm."

The directions please follow, but use your own skill
In Sprains and Neuralgia, but bathe with a will.
Used outward and inward it never does harm,
In Headache or Colic "It works like a charm."

Sore throat from Catarrh, or from Cold in the Head,
Or Chills from a Cold that would keep you in bed,
Magic Oil performs wonders, and acts like a balm
For Gargling, or Swathing "It works like a charm."

It cures you so nicely, it makes you feel brave,
So that ordinary pain is a luxury to have.
Magic Oil in Dyspepsia gives a feeling so calm,
The stomach in glee says "It works like a charm."

The "toot horn of fame" most usually lies!
So the Magic Oil cures took the folks by surprise!
The claims that it made caused wondrous alarm.
The trial now shows that "It works like a charm."
