The Important Feature.

The sale of seasonable goods at H. J. Gillen's is the most notable feature of the week, in a business way. The success of the sale being greater as the season comes more and more toward winter.

Special attention should be called to the cloaks, dress-goods and carpets stocks as offering inducements that are really without equal in this county at this time. Special prices are offered on particularly fine and complete stocks in these departments, and make the house specially worth a careful investigation by buyers.

All other lines offer rare inducements in carrying out the aim of the house to make a small profit on large sales, rather than a large profit on a small volume. The house desires all to call and examine the stock throughout and to compare prices with any house in the city or county.

The German Catholic fair opened with a good crowd at Schafer Hall, on Wednesday evening, and has been well patronized. It closes to-night. The exhibits are numerous and elegant, including furniture, lamps, bric-a-brac, dolls, table covers, etc. The rally spoiled Thursday night's crowd, but to-night when the contests are decided, it will be equalized.

The Boss Rubber Boots—the snag proof boot, sold by J. MEGAFFIN.

The Democracy.

Hon. J. N. Perrin of St. Clair county delivered a splendid democratic speech in Turner Hall, last evening. He was escorted to the hall by the Jeffersonian Club, in full uniform, and in a few minutes the hall was filled to the doors. He made a brilliant running fire upon the republican platform, and provoked round after round of laughter and applause. His deductions from the Mills bill and the senate tariff bill, were convincing and able. He showed that the reduction in both bills was substantially the same on many articles, but that the Senate bill, while making about the same reduction on street car rails, made in the west, did not reduce a penny on heavy rails, made in Pennsylvania because the soap to run the republican party was furnished by the Pennsylvania steel men.

The Democracy of the County will hold their last grand rally at Streator on Monday and Thursday evenings. The State and County candidates will speak, and it is expected that the procession will number six thousand. The Iroquois and other clubs of Chicago, the Joliet, La Salle, Ottawa, and all democratic clubs of the district are expected to be present.

Corn husking will soon be here and your hands will be chapped and cracked. There are many old remedies, but all find them worse than the cracks and roughness. To keep your hands well is the best policy. Forbes Anodyne Salve will do this, and also cure the worst cases of cracks and roughness.

A Progressive Firm.

Gay & Son, the carriage and road cart manufacturers of this city, have purchased the Cushman foundry building of Mr. Shuler, and are now remodeling it, to suit their requirements, as a carriage and cart factory. The building, already a large and roomy one, is being increased in size by raising the east wing, a large one-story addition, to two stories in height, adding about one-third more space, while the entire interior is remodelled into offices and departments. The building will be ready for occupancy in about five weeks, when the force now employed at the East End factory will be moved down and the new factory stocked with machinery of the best approved makes.

Several years ago the superior workmanship and materials turned out by this firm, with the aid of the restless energy of Simeon Gay, began to bring its name into the office of every wholesale and retail dealer in the country, and orders poured in upon them so fast that they were forced to double their capacity, which was soon accomplished, by the erection of a substantial brick addition to the old factory on Clinton street. But business kept on increasing, and it was not long until they were again compelled to find more room, and the wagon factory of John D. Vette was rented, to be used solely for the manufacture of the now famous Gay Road Cart, the old factory with its additions being used for carriages and buggies. This sufficed, with considerable crowding, until Oct. 1st, when the firm saw that if they were to supply the demand for their goods at all, they must have more room. This determined them in buying the Cushman foundry, and yet, with the many thousand feet of floor they possess, it is still a problem whether or not they have sufficient room.

Mr. Gay, sr., says they haven't, and it is not unlikely that before the season of '89 comes to a close, they will be forced to build a large addition to the newly acquired property. As the past of the firm has been brilliant, their future is even more so, and the day is not far distant when Gay & Son will control one of the largest carriage and cart manufacturing in the United States.

For perfect fit, perfect goods at boiled down, bed rock prices go to J. MEGAFFIN'S.

Forbes' Anodyne Salve is a soothing remedy and will not cause pain. It is sure cure for scalds and burns.

The cloak trade this week has been the largest of the season at J. E. Scott & Co.'s. More cloaks were sold by this firm on last Thursday than any other day in the history of the house.

Social Notes.

When the white heat of political discussion shall have become cooled, several events of more than ordinary importance will engage the attention of society's devotees. The first of these, the Firemen's ball, will be held, as usual during the past fourteen years, on Thanksgiving evening. It cannot fall short of being an immense success, and it the grand event of last season be a criterion, it will overshadow all with its numbers. This, the fifteenth annual ball, will receive liberal patronage.

It Still Moves.

Old Dull Time still moves by the door, he never stops at Oak Hall. Can't you see? Because we are so busy. The buyers of those new fall and winter overcoats have been rushing us all week, but after one usual rest, we are with them again. We can stand it if you can. We would rather you would come earlier in the morning and less at a time, but if you must come all at once, we can't help it. Those overcoats are enough to cause a rush anywhere, and we have often wondered that it has not become a panic. They are so well made, so stylish and so dependable that we are not surprised. They are in all styles and nearly all fabrics suitable for fall and winter wear. The new Meltons, with late trimmings, are popular, and more so than ever, at least the rush for them has not diminished. Then those Chinchillas, in the new and stylish cuts. Some are silk and satin lined—some not. It's according to the depth of your purse. A deep purse means a satin lined coat, for you can't resist one after you have tried it on. At the rate they are taking them they will soon be gone; but what's the use in talking, you will crowd us, and there is no help for it. OAK HALL, The One Price Clothiers.
