**All the Latest Improvements**  
The Duplex is equipped with a mechanical feed that relieves the record of all the destructive work of propelling the reproducer across its surface. The needle point is held in continuous contact with the inner (which is the more accurate) wall of the sound wave groove, thus reproducing more perfectly whatever music was put into the record when it was made.  
The Duplex has a device by which the weight of the reproducer upon the record may be regulated to suit the needs of the occasion, thus greatly preserving the life and durability of the records. These are exclusive features of the Duplex and can not be had upon any other make of phonograph. Plays all sizes and makes of disc records. Our Free Catalogue explains everything.  
**FREE CATALOGUE**  
will explain fully the superiority of The Duplex. Don't allow any one to persuade you to buy any other make without first sending for our catalogue.  
**Save all the Dealers' 70% Profits**  
The Duplex is not sold by dealers or in stores. We are Actual Manufacturers, not jobbers, and sell only direct from our factory to the user, eliminating all middlemen's profits. That is why we are able to manufacture and deliver the best phonograph made for less than one-third what dealers ask for other makes not so good.
