—NOTICE—

The open garbage can is a source of much anxiety and distress at this Season. If housewives will order their garbage placed in paper sacks, or even wrapped in paper, and deposited in the can, it will keep most of the flies away, and when dumped in the garbage wagon, the can will be dry in the bottom, instead of the sour, bad smelling condition usually found.

If the flies are swarming around your garbage can you may depend some will get into your kitchen and dining-room.
