Electric Light for your House

Now is the time to have your house wired, don't go through another winter with those lamps that only give an apology for light, besides being dangerous from upsetting them, do away with all the lamp cleaning and filling business and have light that you can enjoy. Then you can have any of the many other electric appliances such as a Washer, Sewing Machine Motor, Iron, Toaster, Electric door bell etc., etc.

We shall be pleased to give you an estimate on the cost, which can be paid for by monthly payments.

**Store Closes Every Thursday
at 1:00 p. m.**
