Wm. Ferdinand, 708 Scoville av.,

arrested for twice running his auto into car of George Higgins, 1901 W. Jackson blvd.

#### LOCAL LABOR MEN STRONG FOR JOHN H. WALKER

The election of John H. Walker as president of the Illinois Federation has met with the heartiest endorsement of Chicago labor men.

While there is still a certain amount of grumbling from members of the so-called "old guard," the rank and file of the labor movement believe that a real progressive era is at hand.

One rumor started by one of the old gang was to the effect that the malcontents would start a new state body headed by Edwin R. Wright, former president of the I. F. of L., and Simon O'Donnell, the discredited president of the Building Trades Council. This idea has caused much amusement in labor circles.

Edwin R. Wright, himself, has already put the kibosh on this. In a very gracious speech he said he would support the new president and work for the good of the Illinois Federation.

One good effect of Walker's election as forecasted by local leaders will be in the way the members of the federation vote in the future. It is believed that they will tear down political party lines and vote for the candidates and the issues that labor need. This change will affect industrial and political interests throughout the state.

Several organizations, barred by the old ring, are expected to be admitted to membership.

#### WANTS MINE STRIKE PROBE

Washington, Oct. 20.—Rep. Keating of Colorado will ask a congressional investigation of the existing mine strike of the Colorado Fuel & Iron Company in Southern Colorado, in order that the world may know the exact conditions brought about by the political oligarchy built up by
