supported as a strong candidate for the nomination for sheriff.

The convention assembles at Turner hall instead of the court house, as specified in the call, the county committee having arranged this morning for the change.

Among those mentioned for the county clerkship nomination in addition to the names already published are C. C. Coyne, of Port Byron; Charles W. Waldmann, of Edgington, Edward Wiese and Nels Peterson, of Moline.

CROWDS IN THE CITY.

Rock Island Had a Metropolitan Appearance Yesterday.

Rock Island streets presented the appearance of a metropolis yesterday. There were many strangers in the city. An excursion came up from Peoria, consisting of 12 coaches, and carrying about 800 people. It was under the auspices of the Brotherhood of Locomotive Trainmen, and was pulled by engine 15, with John Paddon at the throttle, in charge of Conductor Hayde Horn. The excursionists divided their time between the base ball game and the Watch Tower.

Street Cars Did Business.

In the afternoon the crowds thronged the street cars, a magnificent service being provided on all the lines, calling into play all the rolling stock in the company's possession, and demonstrating the need for more trailers on big days. Eight thousand people visited the Tower to see the new Midway, the largest crowd that ever went there with the exception of last Fourth of July. Over two thousand visited Twin-City ball park. All the visitors were well entertained between the novel attractions at the Tower and the base ball game at the park.

The Coal Supply.

The Moline Dispatch has gathered the following information as to the coal supply and the manufacturers there:

Deere & Co. have an abundance of fuel to run them until their regular closing down time.

Deere & Mansur Co. have about two weeks supply, and should the strike not be settled by that time would be forced to suspend.

The Moline Plow company has a fair supply, but is running partly by water power, and if necessary can divide its force and run by water day and night.

The Sechler Carriage company and Mutual Wheel company are well supplied.

Barnard & Leas have enough fuel to last some time and are prepared to use sawdust for boiler firing if worst comes to worst.

The Pump company is well supplied for present needs.

Dimock, Gould & Co. are not worrying. They have a fair supply on hand, have a large at Hampton, and say that there is an abundance of coal up north which is available. They also use a good deal of wood, and could use more in case of necessity.

The Moline Wagon company has been caught unprepared, having only coal enough to run until next week, when the works will be compelled to close down, unless coal can be obtained.

Off, as Usual.

From the construction which the Union placed upon the result of the democratic caucuses Saturday night, it evidently knows no more of the probable action at the convention tomorrow than it did previous to the republican convention. The Union has enough difficulty in reporting a convention intelligently without anticipating what it will do. It is really too bad that the Union embraces every opportunity of making itself ridiculous.

Women's Weapons.

In "King Lear," Shakespeare speaks of tears as "women's weapons." There is another weapon that should be in the hands of every woman throughout the land—a weapon with which to fight those diseases peculiar to the gentler sex. Dr. Pierce's Favorite Prescription is the weapon we mean. It will do more good in routing that "ragging-down" feeling of those unaccountable but terrible pains, than a river of tears.

Dr. R. V. Pierce: Dear Sir—Your advice to Mrs. Fayler was carefully followed, and five bottles of Dr. Pierce's Favorite Prescription, I am happy to say, has cured her of uterine congestion. She is feeling finely. I assure you I appreciate your kindness. With many thanks, I am Yours to command, JOSEPH SATLER, Byron, Cal.

River Riplets.

The Sidney went north. The steamboats are not fearing the coal famine. A river man stated yesterday that many of the boats had abundance of coal stowed away on flat-boats.

The stage of water at the Rock Island bridge at noon was 11.70, the highest it has been this year. The crisis of the present rise is expected tonight, however.

World's Columbian Exposition

MEMORIAL SERVICE

Held at the First M. E. Church Yesterday.

REV. F. W. MERRELL'S SERMON.

The G. A. R. and Kindred Organizations Attend in a Body—Strange Comparison Made by the Speaker—Drift of the Discourse.

The First M. E. church was tastefully decorated with flags and pictures yesterday morning, and the G. A. R., U. V. U., W. R. C., S. O. V., L. A. S., Rodman Rifles and Boys' Brigade attended the annual Memorial services. The subject of Rev. Merrell's address was: "Memorial Day and Its Lessons."

His text was Ex. 12:14: "And this day shall be unto you for a memorial, and ye shall keep it a feast to the Lord throughout your generation. Ye shall keep it a feast by an ordinance forever."

The next text was Luke 22:19: "This do in remembrance of me."

Memorial Days of All Nations.

"All nations," said Mr. Merrell, "have had their memorial days on which they have celebrated their great historical crisis." He then traced the various biblical and historical feasts of this character down to the present day. America, he said, has two Memorial days—July 4 and May 30. The first commemorates the birth of the nation, and is given up to noise, the booming of cannon and the snapping of firecrackers. The second has been consecrated to serious and solemn observances. On the Sabbath preceding Decoration day veterans of the union are accustomed to present themselves in the house of God for divine worship, where lessons of freedom are dwelt upon. It is fitting thus to keep green the memory of the awful and glorious days."

Incomprehensible Scenes of War.

He spoke of the present generation as not being able to comprehend the awful scenes of the civil war, and mentioned the names of Grant, Sherman, Sheridan, Logan and Lincoln as the greatest on earth.

A Very Strange Comparison.

He spoke of the enemies, with which Americans were forced to contend today, as being three in number. Jesuits, the masses of foreigners, who emigrate to this country, and the saloons. He said: "We would not exult as though we foolishly fancied that all the victories of freedom were won and all the steps taken in the onward steps to liberty God forbid that I should hear utter one word to mar the spirit of this hour or to contradict the spirit of charity which our holy religion represents, but let us remember that there is a foe in our midst that seems never to slumber or to sleep, a foe that is ever plotting against human liberty and that has triumphed over many lands, whose serpent trail may be traced today over the lands of sunny Italy, fair Spain and the rich lands of Mexico and South America and portions of our own loved land. I refer not to the Catholic church, but to the Jesuits.

Many nations, far behind our own in freedom, and many Catholic countries, have found it necessary to banish them from their borders. America is called today the paradise of Jesuits. It is marvelous how, that after they had surrounded the civilization on the Mayflower, on the south, the north and the west, how God seemed to restrain them in their designs, and permitted this one great country to be the abode of free institutions. And think not they have become untrue to their vows."

Closing Greeting.

In conclusion, Mr. Merrell greeted the veterans of the G. A. R. and the kindred organizations present, and the principle for which they stand, "Friendship, charity and loyalty" might prevail more and more, and that as individuals, they might have experience wherewith Christ makes free, and be not entangled with any yoke of bondage.
