No Authority Yet Given by the Porte for Those Extra Gunboats to Go to the Bosphorus—Forcible Entry of the Dardanelles Again Imminent—Forts on the Straits Ready for War—Report That 1,000 Were Hatched at Marash.

BOSTON, Nov. 29.—Rev. Judson Smith, D. D., secretary of the foreign department of the American Board of Missions, has received the following cablegram from one of the representatives of the board at Constantinople, via Philadelphia: "Induce the Red Cross society to enter relief work as in war time. Urgency is extreme for action by the organization under international protection. Four hundred thousand people are destitute."

CONSTANTINOPLE, via Sofia, Bulgaria, Nov. 29.—In spite of the assurance which the Turkish minister for foreign affairs, Tewfik Pascha, gave the ambassadors of Great Britain, Russia, Austria and Italy Wednesday that the firmans allowing the passage through the Dardanelles of four extra gunships for the use of their embassies would be immediately issued by the porte, the necessary documents have not been forthcoming. Consequently a serious condition of affairs which was looked upon as having been definitely cleared up is now again perplexing the ambassadors and threatening to cause the adoption of strong measures upon the part of the powers.

THE ANSWER OF THE PORTS IS IMMINENT. The answer of the powers to the request of the porte that they refrain from pressing their demand for the extra gunships was that they could see no reason not to support the demands of their ambassadors for more effective means of protecting the foreign residents of Constantinople in an emergency, and in the presence of the unanimous reply it is considered in foreign official circles that the sultan has no alternative but to yield, especially in view of the probability that the powers will have the extra gunboats conveyed through the Dardanelles by battleships if the sultan persists in his dilatory tactics.

THE MASSACRE AT MARASH. Report at London That 1,000 Christians Were Butchered by the Turk.

LONDON, Nov. 29.—The Constantinople correspondent of the Daily News telegraphs to his paper that the embassies there have learned that in the massacre at Marash on Nov. 18, 1,000 persons were killed. The Christian quarters of the town were burned from three points. A letter received here describing previous massacres says that before it commenced the town crier ordered the Christian shops to be opened under a penalty for refusal. It was then that the massacre began and it began. The writer of this letter, who had been a great philo-Turk, adds that there was no sign of any rising or resistance on the part of the Christians.

What is CASTORIA. Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil.

Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children. Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other harmful agents down their throats, thereby sending them to premature graves.
