FRIDAY, AUGUST 27, 1897.

Time for Martial Law. When the courts are deliberately defied by an officer of the courts, when men go daily armed without the authority of the state to which they owe allegiance, if they do not acknowledge it; when the armed citizenship, to say nothing of the soldiers of another state, is permitted to invade without restraint; when personal liberties are denied the representatives and employes of a great order and they are held prisoners; when the authorities of a municipal corporation in which all these things occur are in league with the mob which is responsible for this state of affairs, it is time for the governor of the state to interfere. The hour has arrived now when the courts being powerless to rule the mob element, the governor of the state should feel it a duty to take possession of Fulton and declare martial law in that section of Whiteside county.

There is a political consideration that can be placed upon such an appeal as this. It is made in behalf of those already shocked by the negligence that has been shown so far, and with the hope that the executive of Illinois, who is sworn to uphold the peace and dignity of the state, will become aroused to the gravity of the situation, and put a check to the outrageous lawlessness to which the Fulton people have carried their reckless determination to thwart the carrying out of the will of the Modern Woodmen of America. The governor is asked to assert himself before blood is shed by the mob, whose riotousness has so far had the countenance of the law upon its deeds. Martial law will alone put an end to the disgrace of Whiteside county, and protect human life and property.

COMMON every-day household molasses has tumbled in price since the passage of the Dingley robber tariff. Let her go Gallagher! The people voted McKinley in and now they will have to pay for it.

The fourth master in chancery injunction is already dissolved. According to Judge Gest's interpretation of law it could not be otherwise than consolidated with the other three, and the ruling as to one applies to all.

JOHN OTIS, who used to be known as the "milkman congressman" is in Topeka, Kas. In poor health and straitened circumstances. Some time ago he started a cooperative colony in Colorado, and put all his money into it. The colony failed.

It is time the people of this judicial circuit were finding out who is the greater, a judge or a master in chancery, and it is due to the dignity of their offices that both Judge Ramsay and Judge Bigelow assert themselves as Judge Gest has done.

The commissioners of the District of Columbia have refused to allow horseless carriages to be used on the streets of Washington on the grounds that they frighten horses. That sounds more like the beginning than the end of the 19th century. When the locomotive engine made its appearance that was one of the reasons urged against it by the stage coach and post-chaise interests. It is evident that there are stables in Washington.

The Whiteside master in chancery is a reminder of a person very anxious to be in the fashion, but in order to do so must assume that he is equal to those who have the opportunity to do so. A fine of the United States judges in the matter of promiscuous injunctions for

bidding people from doing anything, but think, he is exercising the brief authority which belongs to him in Whiteside county to offset the ruling of the courts of the entire district. Should be Democratic. St. Louis Republic. By all the rules of intelligent political affiliation Illinois ought to be democratic. To the west and south of Illinois lies a territory rich in possibilities of wealthy development, and Illinois capital and skill are to be potent in this development. No sort of political manipulation and bribery can turn the growing south-west from the democracy, and Illinois should get in line in time to command and hold her share of the trade and commerce that will soon be a controlling element in the affairs of the middle west.

CABLE CULLINGS. Cable, Aug. 26.—W. J. and Robert E. Lee were in Alago this week. Thomas Miller left Tuesday for Kansas. Godfrey Rodell is home on a visit from Canada. C. A. Samuelson shipped five car loads of corn from here today. Mrs. Joseph Stevens and daughter, Bell, are visiting in Topeka, Kas. Joe Wild and James Tonkin arrived from Idaho Spring, Col., Tuesday.

Quite a number of our people went to Davenport to see the races this week. Mrs. G. F. Haigh and her mother, Mrs. Reed, went to Coal Valley Wednesday. Mrs. J. Stafford and family, of Geneseo, are visiting with her sister, Mrs. J. M. Pershing. J. K. Brown and daughter, Annetta, who have been visiting in England the last two months, are expected home next week. Our miners are still out and are very quiet. They are waiting anxiously for the strike to be settled—in their favor—and we hope it will.

Peterson's and Lilliman's mines have shut down. They had been supplying the farmers with coal, but their men quit work at the request of the strikers. A game of base ball was played here Sunday between Cable and a picked nine from Moline. It resulted in a victory for the home team, the score being 16 to 8.

There was a surprise party given at the opera house last evening in honor of Miss Nellie Shephard. There was a large attendance and all had a very pleasant time. Messrs. Wild and Tonkin report that the Banty mine at Idaho Springs, Col., has been shut down until a lot of new machinery is put in. Quite a number of our citizens are interested in this mine.

Willis Trego, who lives three miles northeast of town, had his house burned down last week. The origin of the fire is a mystery, as there had been no fire in the house since morning, and it was discovered to be on fire in the afternoon. The miners at dog town have quite work. These mines have been supplying the trade ever since the strike started, but it was rumored that some of their patrons were hauling to the Rock Island market, where they sold coal for which they paid 5 cents for 14 cents per bushel—quite an inducement. So at the request of the strikers of Gilchrist and this place the men laid down their tools.

The people of our village were again aroused from their slumbers at midnight Sunday by the ringing of the fire bell. Some of our young men who happened to be up a little late discovered a fire on Tony Hill. It proved to be a pile of old lumber on the premises of Ed Neave, which had no doubt taken fire from spontaneous combustion. It was found that the lumber had been piled on an ash heap, which contained live cinders.

IS IT A CURE-ALL.

Oh, No; But Say, You Came Near It—It's a Cure Always.

Good for everything means good for nothing. Knowing one thing thoroughly means success. That's why Doan's Kidney Pills are a success. They know all about the kidneys. And that is enough to know. If you ever had kidney complaint you would say so. Think of a backache 10 years long. Don't smile—that's the only way to measure it. And to measure the misery—that's impossible. Thousands have had backache longer still. Because they did not know what it was. The kidneys new all the time. And kept aching. And then something worse followed. Don't think it takes years to follow, though. Sometimes only a few weeks or days. And urinary troubles set in. Differing in constitutional kind. To some it brings diabetes. To others gravel or kidney stones. And the last and gravest, Bright's disease.

Doan's Kidney Pills know all this. It is in their line—they're made for it. But their success does not lie in knowing it. But knowing it they cure it. Ask any who has used them. For any stage of kidney complaint. From backache to Bright's disease. Through all urinary disorders. From excess of urine. To scantiness with sediment and pain. No, not a cure-all; but a cure always. And thousands of testimonials tell it. Watch all Doan's Kidney Pills advertisements. They are constantly giving such testimonials. For sale by all dealers, price 50 cents per box. Mailed by Foster-Milburn company, Buffalo, N. Y., sole agent for the United States. Remember the name, Doan's, and take no substitute.

A Wrongly Spelled Name. Through the blunder of some unknown person, committed years ago, a glaring piece of inexcusable poor spelling is still in view in the finance committee room in the city hall and is a subject of much unfavorable comment by historical scholars. The portrait of the Rev. Henry Augustus Muhlenberg hung for many years in Independence hall as a tribute to the preacher patriot's services during the Revolution, with his name beneath it spelled "Emery Muhlenberg." The same egregious errors are now visible in the city hall. The Rev. Henry Augustus Muhlenberg was one of the first Lutheran ministers in this country. Once a conscientious and a man into his pulpit at Reading and at the conclusion of the services invited all his male parishioners to follow him to Valley Forge, which they did. Dr. Muhlenberg was also the first speaker of the house of representatives of the United States after the constitution was adopted in 1788, and his name is at least worthy of sufficient remembrance to be spelled correctly.—Philadelphia Record.

Dromedaries That Smoke Cigars. There is no reason why a dromedary should not be partial to a good cigar. Most dromedaries, according to a manager proprietor, are particularly fond of tobacco smoke and can be made to do almost anything under its influence. "Travelers in Egypt," he asserts, "rely more on tobacco smoke for their control over these huge beasts than anything else. When traveling on long journeys, the dromedaries are in many cases required to travel night and day without rest, and the beasts are kept up to their tasks by smoking cigars. The driver carries a triangular piece of wood, which is pierced at one point like a cigar holder. This is inserted in the mouth of the beast, the cigar being lit and pressed into the hole in the same fashion followed by man. "The dromedary immediately closes its eyes and pulls away through its nostrils until the cigar is burned away."—London Answers.
