

WOMEN TO TAKE REFERENDUM ON NEW AGREEMENT

Car Employees to Vote on Working Condition Classes—No Wage Offer Received.

A joint session of members of division No. 213, Street Railway Employees of Rock Island and Missouri and division No. 212 of Davenport will be held at 1 o'clock Friday morning in Rock Island, when the women will vote on whether or not to accept the settlement reached by their leaders with Tri-City Railway company officials on working condition classes in the new agreement. The leaders have announced that they accepted conditions similar to those in the old agreement. A few minor changes were made, the principal one being that on the working day. The men asked for the 8-hour day, but the leaders were forced to concede from this demand although they did get a better offer from the company than the old one.

John T. Bauer, president of division No. 213, said today that the company has made no offer as to wages and that there was little likelihood that such an offer would be made today. However, he declared that in case an offer is made it would be taken before the mass meeting to be voted on along with working condition clauses.

TURKS PROTEST DEATH WARRANT IN PEACE PACT

Angora, Asia Minor, May 17.—(By The Associated Press.)—Unmistakable opposition to the treaty of peace for Turkey was expressed here today by Mustafa Kemal Pasha, leader of the Turkish nationalist forces.

"The allied powers, led by Great Britain, condemned Turkey to death," he declared, "and began to apply their decision by the very direct material manifestation known to the world. The Turkish nation naturally has declined to accept such a sentence. The Turkish government was unable to resist the verdict and fell into the hands of the British by the sudden occupation of Stamboul."

"The Turkish nation, left without government in such a mortal crisis, took the responsibility for its own life into its own hands and created a people's government composed of its own representatives in Angora."

"Men commanded by Anzevour Pasha, the former Circassian bandit, who is now supporting the sultan's government, entered villages and began pillaging, calling themselves nationalists to discredit the real nationalist movement."

LIGNITE FOR COAL FAVORED IN WEST

Washington, May 27.—Lignite, or "brown" coal of Texas, N. D., and other western states, probably will be used extensively as fuel if experiments soon to be made by the bureau of mines in an effort to drive off moisture which makes it unserviceable, prove successful. Lignites constitute one-third of the fuel resources of the United States but have been little used because of the moisture in them, their tendency to disintegrate when dry and their liability to spontaneous combustion.

G. O. P. OPENS CONTEST FOR NEEDED VOTE

(Continued from Page One.)

gained in primaries and conventions held in four states during the last week. Senator Johnson, returns indicate, will get nine of Oregon's 10 votes, and Senator Sutherland 16 from West Virginia. The official count has not been completed in Oregon and West Virginia. Texas Republicans split into two factions, each of which elected an unopposed delegation with 23 votes.

Figures compiled here show the following division of the convention vote.

Major General Leonard Wood, 152. Senator Hiram Johnson, 109. Governor Frank O. Lowden, 74. Favorite sons and unopposed, 645. Harding Leads "Sons." In the favorite son list, Senator Warren G. Harding has 39 votes

from Ohio; Senator Sutherland, 16 from West Virginia; Senator Miles Poindexter is expected to receive Washington's 14 and Judge Pritchard of North Carolina is expected to get 17 of his state's 23 votes.

Campaign managers here of the three leading candidates all claim victory in statements issued last night. The Wood and Johnson camps make definite predictions as to their first ballot vote, the supporters of the general claiming 255 votes and those of the senator 226. The Lowden forces, while professing their confidence, do not quote exact figures.

1,000 Seats Ready. Charles E. Hall, superintendent of the coliseum, has assured the convention committee that the more than 1,000 seats will be ready. Extra balconies are being erected to provide nearly 1,000 seats more than at a previous convention.

The speakers' platform and seats for 2,000 distinguished visitors already have been erected. In the coliseum annex, offices of the convention committees and officers and the room of the national committee where the contests will be heard next week, have been in readiness for some time.

Committeemen Arrive. National committeemen began arriving early this week and a majority of the 25 members are expected to be on hand by Monday. Chairman Hays will arrive Sunday. A. T. Hart of Louisville, chairman of the convention committee on arrangements, arrived yesterday.
