

## GUESS IF THEY ARE MARRIED

### RADIUM FROM DENVER

Denver, Colo., March 5.—Radium salts worth more than \$45,000 has been produced at the Denver reduction works of the United States bureau of mines within the last two months. Radium concentrates worth \$14,000 will be shipped to the National Radium Institute at Baltimore from here today. A second consign-

ment, valued at \$20,000, will be sent within a week.

The plant here is now able to produce \$2,400 worth of radium daily to meet the standing order of Dr. Howard Kelly, cancer expert of Baltimore.

Western farm owners want 3,000 Belgians for farm work, says C. J. Blanchard, statistician U. S. reclamation service.
