Schlitz Beer is Good for You

The malt is a food; the hops a tonic. The alcohol—only 3 1/2 per cent—is an aid to digestion; a healthful stimulant. Schlitz Beer is brewed with the extreme of cleanliness—cooled in filtered air—and every bottle is sterilized. It is one of the best things in the world for you. It does not ferment on the stomach, because it is aged—aged for months in refrigerating rooms before it is marketed. It gives you beer without biliousness. Ask your doctor what he thinks about drinking Schlitz beer. Ask for the Brewery Bottling.

Phone 1014 and 1930, Care & Ohlweiler Co., 425-431 Eleventh St., Rock Island, Ill.

"Up Agin" a Good Thing a man when he commences to patronize the American Steam Laundry. "The best laundry I ever struck is what those who indulge in a little slang would say. But entre nous if you want your linen as faultless as when you first bought it, in color and finish, we will guarantee to do it to your satisfaction every time. Careful handling and artistic work are among our up-to-date methods. AMERICAN STEAM LAUNDRY. Twelfth Street and Fifth Avenue. Phone 1258

MOLINE MENTION

A balancing of the ledger of the Moline 1904 chautauqua will show deficit of about \$400, the difference between the expense and receipts of the institution. While the assembly was a decided success except in a financial way, it fell short of expectations there and the \$400 deficit will have to be made up by the stockholders. There are 190 of these in the association, each holding one share which makes them responsible for the sum of \$5,000. Each share will be assessed in proportion to the exact deficit, which will make about \$1.75 or \$2.00 for each share of stock.

Marguerite, infant daughter of Mr. and Mrs. Daniel Lindzen, 1825 Seventeenth avenue, died Wednesday afternoon at 5 o'clock.

Ask D. S. Hicks what time it is now, and he will be tickled to death to tell you. The reason is that he had a fine gold watch presented to him Wednesday evening at a meeting of the Operative Plasterers' International union at the meeting in Industrial hall. Mr. Hicks has recently resigned the office of recording and financial secretary, which he has held for three years without compensation and in appreciation of his faithful service his fellow members in the union gave him a handsome gold watch properly inscribed. Frank Meyers has been elected secretary to succeed him.

An examination was held of applicants as non-commissioned officers in Company F. Privates Willis and Swisher passed with a perfect grade and were appointed sergeants, and Privates Cox and Sutherland were corporal stripes for very creditable grades. Indirect information from Col. Kittilsen is to the effect that Laurin and Wright passed very easily in their examination at Dixon last Friday, their commissions are not expected until they have reached Springfield. Regimental Quartermaster Sergeant McIntosh and Regimental Color Sergeant Kimmerling also expect their commissions while in camp.

Floyd Searey is 14 years old, and his parents reside at Woodhull. Floyd formerly lived here with his parents, and came to Moline again last Thursday. He gave every promise of becoming a criminal, but his career was checked yesterday morning soon after he tapped the till at Ganz's Merchants' restaurant on Fourth avenue, opposite the depot. He secured \$7 in cash and immediately took to the woods. After an exciting chase to East Moline he was caught by Officer Carlmark and held to the grand jury.

Several hundred men and boys are idle in the city and some are vainly hunting for employment until the factories resume operations, while farmers are in an equally vain search for men to assist in taking care of the crops and the stock. It is not necessary to go many miles away from the city before they can find employment.

William Hoyt has reached St. Louis, on his trip from Deere & Co.'s factory to the St. Louis exposition pulling one of the company's cultivators with his wife and baby boy as passengers. Mr. Hoyt and his family will remain at the fair a fortnight at the expense of Deere & Co. He will remain about the company's exhibit and will be of more or less interest to fair visitors as the one who accomplished such an unusual journey.

The talent has all been engaged for this year's Star Course Union which will begin some time in November at the First Congregational church. The program for this season is as good, if not better, than ever before, and as the appended program will show, only the best has been provided by those

in charge. The exact dates of the program have not been decided upon as yet, but the numbers and the order in which they will be given are as follows: The Government Official World's Fair band; the Hanston company of entertainers; Prof. De Mott, lecturer; Frederick E. Hopkins, lecturer; Gilbert Eldredge, impersonator. Mr. Hopkins lectured here in the Star Course last year and proved to be a popular favorite.

J. W. Smith has arrived from Washington, Iowa, to take charge of the local exchange of the Union Electric company, a change having been ordered by the company that more attention may be given to the Moline service. Mr. Smith comes highly recommended and has had experience extending over a period of seven years, and is counted on to relieve Manager Bratt of much work in the management of the exchanges of the three cities. Mr. Smith's coming is the first step toward a more aggressive policy on the part of the independent company. As soon as President Hamilton arrives plans for the extension of the system to East Moline will be taken up, new cables will be laid, and the service will be carried to those centers where there is prospect of a growing business. The company has upward of 900 subscribers in Moline, and the number is growing constantly.

Plans for a new office building for the Moline Elevator company are being drawn by Whitson & Drury, Moline's young architects. Specifications will soon be ready, and then bids for construction will then be asked. The building is to be a two-story structure of attractive appearance. It will front on Seventeenth street, facing the west, and will occupy the southeast alley corner on the ground adjoining the plant site and recently purchased by the elevator people with a view to enlargement.

AKOUN'S MYSTERIOUS ASIA A Tribute to the Pike at the St. Louis Exposition. While the various concessionaries at previous expositions have endeavored to reproduce the midway attractions, the wonderful mysteries of the oriental, eastern countries, it has remained for that typical ethnological artist, Gaston Akoun, to bring before the visitors at the St. Louis purchase exposition an aggregation of the magnificent splendors of oriental life in the east which for brilliancy, magnitude and active natural portrayal by means of real life exhibits has, undoubtedly, eclipsed anything in this line ever before attempted. Mr. Akoun, who is a Parisian by birth, has the advantage of former experiences at no less than 12 previous expositions, where his marvellous success were continually repeated, and as a successful caterer to an amusement loving public his fame spread far and wide. The general plan embraces a most interesting representation of Asiatic countries, including faithful reproductions of the most historic and educational buildings of India, the Mahal temple of Agra, the Rain Sipri of Almidabad, street reproductions from the oriental, eastern countries, it has remained for that typical ethnological artist, Gaston Akoun, to bring before the visitors at the St. Louis purchase exposition an aggregation of the magnificent splendors of oriental life in the east which for brilliancy, magnitude and active natural portrayal by means of real life exhibits has, undoubtedly, eclipsed anything in this line ever before attempted.

DAVENPORT DOTS A lad named Eosen, residing in the neighborhood of Eleventh and Le Claire streets, had a narrow escape from a serious accident Wednesday. He was riding a bicycle and attempted to cross the Third street railway tracks between Perry and Rock Island streets immediately in front of a car. Motor-man James Jacobs saw that the lad couldn't make it, and applied the brakes stopping the car, but not before the fender had struck the bicycle and knocked it and the rider off the track onto the pavement. The lad luckily escaped without injury.

Ed. J. Carroll, the prominent and popular young attorney, who is also secretary of the Davenport Abstract company, sprung a clever surprise Wednesday evening upon his many friends by being quietly married at the home of his brother, A. E. Carroll, 109 Farman street. The bride to be was Miss Lydia Keller, one of the charming young ladies of Wheatland. The ceremony was performed at 6 o'clock by Rev. Father Hogan in the presence of relatives only. A bountiful supper followed after which the happy young couple received the congratulations of their many friends and repaired to their future home on Winthrop avenue, where they will start immediately to house-keeping. They will take a wedding trip later.

The recently organized local automobile club enjoyed its run last Sunday so thoroughly that the members have projected a second one for the coming Sunday. Arrangements are not yet completed but it is thought that the objective point will be Crystal lake in the vicinity of DeWitt. A committee is looking over the road today to find the advantages and objections pertaining to a trip in that direction.

Maud Jones, the negress, arrested by the night captain on the charge of leading an immoral life, and who asked to have a chance to dispute the charge, was placed on trial before Magistrate Finger yesterday. A resident on Rock Island street between Fourth and Fifth streets, gave damaging testimony against the woman, who said she was married and a boarder at the old Sargeant home on East Fifth street near Iowa. She was according fined \$25 and costs, failing to pay, she was sent to jail for ten days.

At a meeting of the Northwest Davenport Turners the erection of a new brick gymnasium to cost \$7,000 was talked over. The new building is to be situated in the rear of the hall. Nothing definite was done in the matter however. The next meeting of the society will be held Monday evening. The stage of the Northwest Turner hall has been torn out and it is most likely that the contract for finishing the interior of the hall will be let at the meeting next Monday.

The notice of the dissolution of the Schaffer Manufacturing company which was capitalized at \$16,800, has been filed with the county recorder. The concern did business in the manufacture of garments in this city and later became the Davenport Garment Manufacturing company of which F. G. Clausen was the president and Herman G. Pape, the secretary. The Davenport Garment Manufacturing company later sold out to the Hanna Manufacturing company, and has decided to quit business. It therefore files notice that by the vote of its stockholders and directors, as provided in the articles, it will cease to do business under the statutes.

Coroner Lambach decided that no inquest was necessary over the body of John Munson, the young laborer in the I. & L. camp near Princeton, who was found dead in his bed the other day. The young man had been a sufferer from tuberculosis, and it was evident that it was that malady which suddenly summoned him. Munson had no relatives or intimate friends in this vicinity and his body was therefore shipped to a sister residing at Omaha, Neb., for interment.

END OF COURT HOUSE WAR

DeKalb and Sycamore, Enemies 50 Years, About to Bury Hatchet. As the splendid new DeKalb county court house nears completion at Sycamore, all the talk of attempt to again take up the fight for the removal of the county seat is vanishing, and the chances are that the old sore will be allowed to heal over, and become but a scar on the history of the county. The building is nicely completed as far as the outside work is concerned and by January 1 the interior will have been finished and delivered to the officials who are to occupy it. The structure cost in round numbers, \$140,000 and it will be as handsome a building as one would wish to see. Not long ago the DeKalb band made a trolley trip to Sycamore and serenaded the residents of the town, stopping in front of the court house to play several pieces. A large number of the bard wire city people attended the celebration at Sycamore, July 4, and taken altogether, the handwriting on the wall looks as if the hatchet was to be buried for the first time in 50 years.

The rarest combination of good things ever put together is Hollister's Rocky Mountain Tea. It cures pimples, indigestion, constipation, rheumatism, sick headache. 35c. tea or tablets. T. H. Thomas' pharmacy. All the news all the time—The Argus.

MALARIA

IMPURE AIR Malaria is not confined exclusively to the swamps and marshy regions of the country, but wherever there is bad air this insidious foe to health is found. Poisonous vapors and gases from sewers, and the musty air of damp cellars are laden with the germs of this miserable disease, which are breathed into the lungs and taken up by the blood and transmitted to every part of the body. Then you begin to feel out of sorts without ever suspecting the cause. No energy or appetite, dull headaches, sleepy and tired and completely fagged-out from the slightest exertion, are some of the deplorable effects of this enfeebling malady. As the disease progresses and the blood becomes more deeply poisoned, boils and abscesses and dark or yellow spots appear upon the skin. When the poison is left to ferment and the microbes and germs to multiply in the blood, Liver and Kidney troubles and other serious complications often arise. As Malaria begins and develops in the blood, the treatment to be effective must begin there too. S. S. S. destroys the germs and poisons and purifies the polluted blood. S. S. S. is a guaranteed purely vegetable remedy. Write us if you want medical advice or any special information. This will cost you nothing. THE SWIFT SPECIFIC CO., ATLANTA, GA.

IT'S FOLLY

to intrust the health and comfort of yourself and family to the hands of any man simply because his bid on your plumbing or heating work is a few dollars lower than others. A few physician's visits will soon equalize the cost and you still have the imperfect work. Our bid on your work means the best possible ideas in sanitary plumbing or heating carried out with the best possible materials and workmanship.
