"As the twig is bent—"
 Time was when the little Miss, whose figure was just developing into that of a woman, was thought of no importance. Anything would do for her, and the result was a cordial dislike on the part of the young lady for this new "instrument of torture."
 But now mothers realize that the first corset is of utmost importance and should be fitted carefully to the figure.
 Our corsetiers have made a special study of fitting youthful figures, and each Saturday morning is set aside for this purpose.
 Mothers may send their daughters with the positive assurance that care will be taken to see that she gets the right model.
 The fitting service is free.
