YOUNG & MCCOMBS

THE TRI-CITIES' MOST POPULAR DEPARTMENT STORE

ON the 25th of March, just eight months ago, our New Store was opened to the public. It was a modest beginning, and its charm and originality is so well known in widely diverse quarters of the United States that many visitors call on us daily and are surprised that a city of this size could support such a large institution. It is being supported not by Rock Island people alone, but by Davenport, Moline, Clinton, Muscatine and Iowa and Illinois cities for miles around.

KEEP MONEY IN THE WEST

Effect of Merger of Consolidated and National Casualty Companies. Chicago, Nov. 20.—Confirmed reports that the Consolidated Casualty

company here has swallowed the National Casualty Insurance company of Louisville presage other mergers with the same company whose directors represent, it is said, \$50,000,000 of personal western and southern wealth.

The dominance of eastern insurance companies in the southern and western fields is waning as result of lusty growth by the new companies which have set out to retain in the heart of America the flood of insurance reve-

nues, some \$400,000,000 a year, which has been going to the east and to Europe. It transpires that the merger of the National Casualty with the Consolidated was effected by purchase, stock-

holders of the former having voted to accept stock of the Consolidated, share for share in exchange. It is said to have followed weeks of investigation and negotiations. President Robert B. Armstrong of the Consol-

dated company having recently accepted the proposition which was submitted. President Armstrong formerly was assistant secretary of the United States treasury.
