SOME DOPE ABOUT SALOONS

Some dope on saloons is contained in a report of the Chicago commission on the liquor problem, made public yesterday. The most startling feature in the report is that almost half the bars in the city have hotel connections. Many of these places are disorderly resorts.

PASTOR SLAPS CONDITIONS AT GARY STEEL MILLS

Public ownership of steel mills, shorter hours and better pay for the workers were the recommendations of the Rev. John W. Newsom of the First Baptist church of Valparaiso, Ind., yesterday. Newsom just finished a month's work in the Gary steel mills.

"I worked twelve hours a day and got \$3. I never had time to sleep or think," the pastor said. "When it rained we got wet, the roof was so leaky.

"Part of the time I hauled acid and then I cleaned greasy engines for twelve long hours a day. I had no time for my family or to care for myself.

"With steel common, purely watered, standing at 120, it seems to me the steel companies could afford to make work easier. I think we need public ownership."

Facing a cell in Joliet penitentiary or a surgeon's knife, Levin Shapiro chose the knife yesterday. He will undergo sterilization this week.

In choosing the operation, Shapiro will escape a sentence of one to twenty years imposed upon him by Judge Marcus Kavanaugh for taking familiarities with little girls.

Levin named his choice as he sat in a county jail cell yesterday.

"I am 65 now," he said. "I would die if they sent me to jail. Mebbe it is better that I let them do the operation. I am a very sick man and I couldn't stand it in jail."
