

has a meditative countenance."
Only one baby was expected.

Nurses insisted on donating a fund
to buy clothing for the extra two.

DISCOVERED! THE PERFECT FOOT! CHICAGO YOUNGSTER HAS IT

The perfect foot has been found, and in Chicago, roared for years as the home of big feet.

A little girl, Mark Boker, 9 years old, daughter of Stewart S. and Mrs. Boker, 4340 Greenwood av., has a foot—two feet, in fact, which artists and physiologists call perfect. They say her feet will never be bigger than the feet of Cinderella.

Nature and art combined to bring to perfection the smooth little feet that seem like snowdrops in their glistening whiteness.

"Mary had pretty feet when she

was a baby," said Mary's mother, "and I felt nature's gift must not be marred. I began massaging her feet with cold cream to make them strong and smooth, and rubbed them carefully to preserve the natural outline.

"Mary wears just ordinary shoes. She never goes barefoot except when she dances. Her shoes always fit, never too big, never TOO SMALL.

"I am careful, too, about her stockings. Seamy stockings spoil perfect feet. I put on her shoes and stockings myself and see that the stockings are always smooth.
