Last evening Florence Rebekah lodge of Odd Fellows had a more than usual interesting meeting. A hundred and fifteen were present and the initiatory degree was conferred on seven candidates. Following the formal routine of work a general good time was enjoyed for an hour, and ice cream and wafers were served.

On Friday night the members will go to Peru, having chartered a couple of interurban cars for the occasion, where they will participate in the dedication of the new Odd Fellows' home of that city. The degree staff of Florence lodge will also confer the initiatory work on a large class of Peruvians. Ottawa's Rebekahs have gained an enviable name in this section of the state for the excellence of the work they do.

Clark and daughters, Misses Mary and Velma Clark, of La Salle, and John Sharp, Stanley Gill, Edwin Baker and Miss Anna Carlson of this city.

The party, although somewhat smaller than the usual club informal dance made up gayety what it lacked in numbers.

Fully six hundred partook of the supper, one of the best that could possibly be spread, the appreciation of which was shown by the manner in which the palate was pleased. Nor was the supper the only good thing that was spread, for the literary and musical program was in full keeping with the occasion.

SHOOTS WIFE AFTER COMPELLING HER TO TAKE POISON DRAFT

Greenville, Ill., Feb. 9—William Carrillon, 27, today compelled his wife at the point of a revolver to drink a supposedly poisonous concoction, shot her in the abdomen and then inflicted a slight wound in his right side. The shooting occurred in their home at Pocahontas, nine miles west.

Attracted by the shots a crowd of coal miners formed and Carrillon fled. He was captured in a nearby woods, after exchanging several shots with his pursuers, none of which took effect. Carrillon refused to make a statement.

Mrs. Carrillon's wound was said to be serious. She said she and her husband had quarreled. He poured out the drink, she continued, and pressing a revolver against her right temple, forced her to swallow it, afterwards stepping several paces back and shooting her.

BOMB ROUTS STAGE FOLKS OUT OF HOMES

Chicago, Feb. 9—A bomb exploded early this morning in the court yard a few feet from the entrance of an apartment house, shattering windows and sending screaming women and men guests scrambling to the street. The detonation attracted police, who saw an automobile racing away from the scene soon after the explosion. The recent discharge of the union janitor of the building and substitution of a non-union man is suggested as the cause of the attack. The apartment manager believes his building was mistaken for another sought by the bombers. The apartment is extensively patronized by theatrical people. Many suffered serious discomforts from the cold with all the glass in window panes gone.

What to Do for Dizziness

Vertigo (dizziness) is a symptom and not a disease, and every possible effort should be made to find the cause. It may be due to disorder of the stomach, intestines, nervous system or the arteries, or to disease of the ears and eyes. Biliousness or constipation may also be caused or accompanied by dizziness, as may also be the use of tobacco, alcohol or too much coffee or tea. Sometimes dizziness is nothing, whistling or ringing noises are or may be symptoms.

It may range from a severe shock, which is sudden and may be compared to a blow on the head and may be followed by unconsciousness, to a slight attack in which there is simply a difficult swimming sensation and which may last but a few minutes.

The patient can do all he himself to alleviate nausea or dizziness, if occurring at any one time, by lying down and closing the eyes. If he is subject to attacks of vertigo should consult their physician and get the necessary advice and treatment, early before they develop a condition that may result in loss of power or paralysis.

During the attack let the patient rest in a horizontal position and give vegetable diet only.

Eczema

Q. My baby has eczema on his face and has had for several months. I wish you would let me know what to do.

A. Eczema of the face is a very chronic disease, easily cured. Any neglect of local treatment or digestive disturbance, or over feeding, may bring on a relapse. In fact the outlook in most cases depends largely upon the cooperation of the mother or nurse. The success of the treatment will depend to a great extent on how well it is carried out. I should advise you to ask your doctor to give you most explicit directions regarding the care and treatment of the child, including his feeding, the use (singing of water, any tendency to constipation, protection of the face, clothing, the prevention of scratching, and the exact method of applying drugs.

Habits.

Q. Will you please send me any information that you have at hand on habits and habit-forming among children?

A. A child's training in habits should begin in infancy when he should be taught good habits of feeding, sleeping, etc., before he has had chance to learn bad habits. This is brought about by having the right thing done at the right time regularly and systematically and he will soon do it almost automatically.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.
