NIP IT IN THE BUD. First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the forerunner of baldness, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented. Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance. Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day. Sold by leading druggists. MOUND CITY HAS DISASTROUS FIRE

DRY HOUSE OF WISCONSIN CHAIR FACTORY PARTIALLY DESTROYED SATURDAY NOON.

BIG STOCK DAMAGED

Fire Wall Prevented Spread of Flames to Adjacent Lumber Yards— Damage Estimated at \$20,000.

Mound City suffered a big fire yesterday about 11 o'clock when the Wisconsin Chair company's plant was partially destroyed. The lumber yard and plant of the Williamson Kay and Meyer's stove factory were jeopardized for a time but a fire wall prevented the flames from spreading. The city volunteer department and the employees of the three plants for two hours worked with all their might to subdue the flames and at last succeeded in controlling them. The greatest damage done was to the dry house and the stock contained therein. The loss is estimated at about \$20,000 which is fully covered by insurance. The main plant and offices of the company are located at Fort Washington, Wis. The dry house is a three-story building 300 feet long and 100 feet wide. It was partially filled with veneering nearly all of which was damaged by fire or water. A hot box near the ceiling of the second story caused the fire. The casing around a power fan used in cooling the air became heated and ignited the wood work near it.

Some time ago the seven bishops of the church occupied Atlanta pulpits, and \$200,000 was subscribed for this purpose. The memorial will include, in addition to a large auditorium and church, a hospital, a nurses' home and boarding house for young men, and another for young women, reading rooms, editorial offices, gymnasium and an armament center. Within the limits of greater New York the Protestant Episcopal church shows a net gain of 29.8 per cent during the past year. The total valuation of the property of this church in this region is more than \$37,000,000. A new secretary for the work of the Young People's societies of the Presbyterian church has been appointed by the board of publication. He is Rev. Willis Geston.
