Each reader of The State Journal is advised the utility of use of the largest information bureau in the world. This Bureau is located in the national capital, and has in its immediate touch with all the great resources of the United States government.

A study made by The Iron Trade Review of the annual reports for 1919 of three leading steel companies reveals that although the average output per employe has declined 21 per cent the average increase in wage cost per ton of output has been 142 per cent since pre-war days.

It is estimated that the general average efficiency of labor is now no more than 69 per cent, despite the fact that wages are unprecedented and that the percentage of waste has been increased in most cases greater than the increase in the cost of living.

If farmers be losing money, as set forth by the secretary of the state board of agriculture, why are land values so high? Little first class farming land in Kansas can be bought here for \$100 an acre.

Ed Howe has so high a regard for the ability of Samuel Gompers to get his own way with congress and almost everybody else, that he is in favor of electing him to the presidency.

It is reported that overall that were recently sold by the government for 16 cents a pair are now being offered by New York at \$3. There is a growing suspicion that the overall movement was engineered by manufacturers and dealers in order to work off surplus stocks.

In the March issue of his "Monthly" Ed Howe makes another attack on newspaper advertising and intimates that if advertisers told the truth they would attract no attention.

WHAT ANNE MARTIN THINKS. Washington, D. C., April 17.—Presidential candidates claim most of the political limelight this year, but Nevada's senatorial contest will attract national-wide interest.

BUDGET SEEMS NEAR. It is announced that a revised and perfected budget plan for the federal government is about to be reported to the United States senate.

The need of a national budget system long has been recognized, yet the plan of the senate has been delayed until the delay well-nigh has become a public scandal.

How to Retain a Wife's Affection.—No, to be loved we must look lovely, and while we may esteem the virtues of the untidy we cannot cherish any romantic dreams concerning them.

George Mathew Adams Daily Talk. Before me in my library is a most beautiful bronze about twenty inches tall. It represents a young nude female. It stands gracefully erect, with its head tilted back in a delicious smile.

Moulton Musings BY ROY K. MOULTON. She is a great man's secretary. She keeps his notes from the bench. From his desk and from posts who are long on requests.

Music Is Essential. The children were telling a visitor what they studied at school. "I studied spelling and definitions."

If You Love Music and Have No Training Buy a Genuine ELBURN PIANOLA. Voice the melody that is in your heart—play as though yours were the most talented ten fingers.

Questions—Answers. Q. Can the beneficiary of war risk insurance who has been receiving monthly payments, obtain the remaining total in a lump sum?

THE WOMAN WHO LOVED AND EARNED. A Modern Story of Home and Business. By JANE PHELPS. I studied the place thoroughly. Then I told Robert a few of the things I thought might be done at once to give more of a tone to the store.

JUST FOLKS BY EDGAR A. GUEST. "They say my boy is bad," she said to Mr. A tired woman, thin and very frail. "They caught him robbing railroad cars."

ON SECOND THOUGHT BY JAY E. HOUSE. "Dear 'bad man,'" writes an appreciative reader, who seems to grasp the full measure of our industry, "may I inquire how long you have been bound in the matrimonial fetters?"
