IS POLES VS. REDS

Little Nation Fights World's War Against Bolshevism.

Hoped for Help From Allies, But Will Take Burden.

IS NOT WAR FOR CONQUEST

Minister at Washington Outlines Purposes of Drive.

Ukrainian Troops Have Occupied Odessa Now.

London, May 13.—Ukrainian troops have occupied Odessa, according to a news agency dispatch.

Washington, May 13.—Poland is fighting the fight of the world against Bolshevism, but it will continue alone without asking the aid of the allies or the United States, Prince Casimir Lubomirski, Polish minister here, declared in an interview today.

Prince Lubomirski is next in order of the foreign diplomats waiting to present their credentials to President Wilson. He probably will lay the Polish situation before the president when received.

Not War of Conquest.

"'Poland hopes that the old cultural world will help her in the task of saving culture and civilization from Bolshevism," Lubomirski said. "'Should Poland be crushed, the Bolsheviki would become united with Germany. The war which was supposed to have been terminated by the treaty of Versailles would start anew."

The object of the Polish drive, he said, is establishment of a series of independent states as a barrier against Bolshevism. Poland will rid these countries of the Bolsheviki and help them to a strong independence, but will not advance into soviet Russia, Lubomirski said.

The states planned to constitute this barrier are Ukraina, White Ruthenia, Lithuania and Latvia, the latter two of which already have assumed their independence.

WEATHER

(Continued from Page One.)

degrees below normal. The lowest in the United States was 34 at Denver. Flora predicts a temperature of 45 degrees tonight which will rise to 60 degrees tomorrow afternoon. A south wind will prevail.

Extremes for this date were 81 in 1915 and 40 in 1890. At 3 o'clock this afternoon the wind was blowing at the rate of 14 miels an hour from the northeast.

New Orleans to Wear Old Clothes By Mayor's Order

New Orleans, May 13.—Threadbare coats, shiny trousers, last year's straws and re-soled shoes were the order of the day here, signalizing the opening of the city's second organized drive on the high cost of living.

Proclaimed "old clothes day" by Acting Mayor Hicks as a part of the campaign begun at Tulane university, the celebration was intended to arouse interest in the organization of the Wearem and Patchem clubs, designed as were the overall clubs to force down the cost of clothing.

COSTS $30 EACH

Sugar Gougers Trim America for $600,000,000 This Year.

Every One in the Business Is Making Huge Profits.

Washington, May 13.—Sugar should sell for 11½ cents a pound and present prices ranging from 20 to 25 cents are due to profiteering, W. Jett Lauck, consulting economist of the railroad brotherhoods, told the railroad labor board today.

Sugar "gougers" will exact a total of $600,000,000 from the American people this year, or $30 from each person in the country, Lauck, who is urging the board to grant railroad men increases, said.

Income taxes for 1917 show that sugar producers have earned 52.28 per cent on the capital stock; 59.2 on capital invested and 45.53 on their capital actually invested after all taxes were deducted, he said.

Cane producers earned 27.28 per cent on capital stock; 238.34 per cent on capital actually invested, and 191.04 on capital after deducting taxes, according to Lauck, who said sugar was then selling for 7.7 cents a pound.

"If the producers showed such amazing earnings then," said Lauck, "what must be their earnings today with sugar hovering about 25 cents a pound."

ONLY GAVE HIM HEADACHE.

Sabetha Negro's Head in Machinery Stopped the Power.

Sabetha, Kan., May 13.—Clarence Davis, negro laborer on a new city building here, had some escape.

On his way to the garret he chose the freight elevator for a carriage. Arriving, h reared his head a trifle high, caught his hair, then his head, in the cogs of the elevating wheels and choked down the gas engine furnishing the power. His cries at tracted a crowd. The power was stopped.

With a crow bar and sledge, his wedged head was pried loose. Clarence fainted. They thought him dead. Water applied to his face restored consciousness.

He was soon able to walk to the doctor's office and have a lacerated ear attended. After which Clarence walked home, five blocks away.

He complained of a headache.

SHOP LIFTER HAD ROUTE.

Sold Stolen Goods to Buy Dope—Owners Were Surprised.

Salina, May 13.—Ora Carlson, a confirmed dope fiend, is under arrest here charged with systematically robbing merchants. The merchants were entirely ignorant of the loss they had sustained thru Carlson's pilfering habits until the police appeared with merchandise stolen from their stores.

It was Carlson's custom to visit the stores and take what goods he desired. He sold them to get dope, which is said to have cost him $25 or $40 a week. When arrested he had about $25 worth of morphine and cocaine. A charge of grand larceny will be placed against Carlson.

BUY OWN HOMES

New Yorkers Spend $75,000,000 to Beat High Rents.

Co-operative Ownership Plan Spreads Even to Millionaires.

New York, May 13.—Tenants have purchased more than $75,000,000 worth of realty in New York in the last year under the co-operative ownership plan, as a protest against high rentals, it was learned today.

Of this amount at least $25,000,000 of the properties have been purchased for private occupancy by the buyers, while co-operative owners have bought apartments and business structures for the remaining $50,000,000. millionaires as well as ordinary tenants have joined the movement which has gained considerable momentum in the past few months.

No uniform plan has been followed in either buying or holding. In many cases, purchasers have obtained single apartments in fashionable apartment house districts either by outright buying or by taking stock in holding companies. Proponents of the movement claim that substantial savings have been or will be made on their rent outlay from the profits and economies resulting from their own landlordship.

The first office buildings to be erected here on the co-operative scheme under plans announced today will involve an outlay of $40,000,000 —the largest single real estate transaction in the history of the city. The buildings will be thirty-one and twenty-five stories in height and will have a floor area of 1,500,000 square feet.

The skyscrapers will be erected on property northwest of the Grand Central terminal, between Park and Madison avenues, from Forty-Fifth to Forty-seventh streets. Half a million square feet of floor space in the buildings already has been reserved for a group of corporations which will move from the downtown business section.

LENINE BEEN OVERTHROWN?

Continued Silence of Soviet Wireless at Moscow Puzzles Allies.

London, May 13.—Continued silance of the Moscow wireless station caused considerable speculation here today on what may be happening in the Russian soviet capital.

An unconfirmed Exchange Telegraph dispatch from Copenhagen quoting the newspaper Politiken, said private advices had been received that a great rebellion was under way in Moscow. There were many fires, the advices said.

Officials were inclined to give credence to this report because of the silence of the Moscow radio station. The last message was received here at 2:30 p. m. May 9, when a call intended for all stations was interrupted suddenly.

SAYS HE ABANDONED HER

Wife of Missing Bank Cashier Sues for Divorce.

Opal G. Merritt has filed a petition for a divorce from R. D. Merritt, former cashier of the Grove State bank. Mrs. Merritt charges gross neglect of duty and abandonment. She states that he left her for parts unknown on February 14 and she has received no word from him since that time. An embezzlement warrant was issued against Merritt during the winter County authorities claim Merritt took approximately $9,000 of the bank's money while he acted as cashier.

THIEVES CARRIED SAFE AWAY.

Valuables Worth $21,830 Hauled Out of K. C. Second Story.

Kansas City, Mo., May 13.—Thieves last night carried away a 250 pound safe containing valuables estimated at $21,830 from the residence of David Steinberger.

The safe was removed from the second floor and evidently hauled away in a motor truck.

Police report said the safe contained jewelry valued at $12,130; mortgages, $3,000; building and loan papers, $3,200; liberty bonds, $2,000; other bonds, $1,000; silverware, $350; and cash, $150.

PICK INDIANA BIG FOUR.

Indications Are State Will Send Uninstructed G. O. P. Delegates.

Indianapolis, May 13.—Indiana's "big four" delegates to the Republican national convention were to be selected today.

Indications were the delegates at large would go uninstructed. Six district delegates of the state's twenty-six elected, last night were instructed for Maj. Gen. Leonard Wood and four for Sen. Hiram Johnson.

PARSONS MAKES BIG GAIN.

Since 1910 City Has Increased Population by 28.6 Per Cent.

Washington, May 13.—An increase in population of 3,565 since 1910 for Parsons, Kan., is included in the report of the census bureau for today. The population of Parsons is now officially 16,028 as against 12,463, as given by the 1910 census. The increase is figured at 28.6 per cent.

WANT REDUCED LABOR FARES.

Harvest Hand Shortage Worries Farmers in Wheat Belt.

Washington, May 13.—Senators and representatives from the wheat growing states today were receiving letters and telegrams indicating there is fear of an acute shortage of harvest field labor this year.

Senator Capper, Kansas, has taken up with the railroad administration and railway officials the question of granting reduced fares from industrial centers to the harvest fields.

DEMPSEY TRIAL JUNE 7.

With Manager Will Face Charges of Evading Draft.

San Francisco, May 13.—Jack Dempsey heavyweight champion of the world, and his manager, Jack Kearns, will be brought to trial June 7 on charges of conspiring to evade the draft.

The trial date was set by Federal Judge Dooling today.

Public Office Costs Too Much

Washington, May 13.—The resignation of Joseph M. Nye, chief of the state department secret service, was accepted today by Secretary Colby. Nye gave as his reason inability to "financially stand the pace of being a public servant."

BLOCK R. R. YARDS

It's Unloading, Not Hauling, That Causes Tie-Up.

Railways Are Moving More Freight Than Can Be Handled.

New York, May 13.—Freight congestion in the eastern section of the country with its resultant decrease in the already inadequate supply of freight cars, is more a result of the inability of consignees to unload cars quickly than inability of the roads to move cars, railroad officials here said today.

The roads were almost unanimous in asserting that efforts of the recent strike of switchmen and yardmen had been contracted by the return of a majority of the strikers to work and the employment of other men to replace strikers still out.

Some of the present congestion, however, was admitted to be the result of piling up of freight during the strike, but this, officials declared, was being speedily cleared up.

A strike of union longshoremen and the refusal of union truck men to handle freight moved by nonunion longshoremen was said to have a marked effect on the slowness of unloading cars and making them available for outbound freight.

Plans to break the trucking angle of the tie-up were under consideration today at a meeting of the trucking committee named by six of the city's large commercial organizations. Col. Frederick A. Molitoe, who commanded the Twenty-second engineers in France, has been appointed by the committee to organize an independent trucking force, and overtures have been made to the war department for the use of 400 army trucks stationed in and near New York.

INJUNCTION STILL STANDS?

Welty Says Government Can Prosecute News Print Manufacturers.

Washington, May 13.—The department of justice can prosecute paper manufacturers for the high prices now being charged for news print in the open markets by exercising rights of the government under an injunction obtained by the attorney general in 1917, Representative Welty, Ohio, declared.

The injunction, which was effective April 1, 1918, and to continue until three months after the proclamation of peace, prohibited prices in excess of 3 cents a pound for carload lots and 3¼ cents in less than carload lots, until the federal trade commission fixed prices after an investigation, Welty said.

DANIELS SAYS

(Continued from Page One.)

vicinity of the convoy. Sims's various attempts to discredit the submarine attacks reported by Admiral Gleaves and the other officers, said Mr. Daniels, are of a piece with his attempts to throw doubt on the entire conduct of the first expedition.

"We had no reason then and have no reason now to doubt Admiral Sims's own positive statements, made at the time, that the convoy was attacked; the reports of Admiral Gleaves and the official report of the French general staff to the same effect. This is not the first or only instance in which Admiral Sims has stated before this committee that statements made in his official dispatches to the department during the war were not to be relied upon."

Mr. Daniels also testified that Admiral Sims had objected to the use of the former German liner Leviathan as a troop ship on the ground that her great length made her a better target for torpedoes than smaller vessels. He also said the admiral had contended the ship should be operated to Liverpool rather than to Brest because of better facilities for handling her cargo.

His Advice Was Poor.

The navy department, the secretary said, followed the admiral's advice in the matter with the result that the Leviathan, because of her great draft, had to await an entire lunar month at Liverpool before she could get out of the harbor. Admiral Sims's views were then disregarded, the witness said, and the Leviathan operated out of Brest where her turn around "was measured in hours instead of weeks and she broke all records in the number of trips transported."

Mr. Daniels presented various officials documents to support his contention that the convoy system was originally sponsored by the American navy and that it was not adopted fully until several months after the United States entered the war and had sent many destroyers and other craft overseas thus providing the ships to make the operation of the convoy system possible.

TODAY'S MARKET REPORTS

Chicago, May 13.—CORN—Special efforts which western roads appeared to have begun for the purpose of enlarging the movement of grain to terminals tended today to ease the corn market somewhat besides there was free selling on the part of a big commission house that has of late led the buying. Sunshiny weather counted also as a bearish factor. Opening prices, which varied from the same as yesterday's finish to 1c lower, with July $1.77 to $1.77⅞ and September $1.63⅞ to $1.64⅛, were followed by a moderate setback all around.

Rallies took place, but lack of support for the market became evident and prices dropped rapidly at the last, with eastern concerns offering freely. The close was heavy, 1⅝c to 2⅜c net lower, with July $1.75¼ to $1.75½ and September $1.62¼ to $1.62½.

OATS—Oats displayed relative firmness in the absence of any pressure to sell. After opening ⅝c off to ⅛c up including July at 92⅜c to 93½c, the market scored a slight general gain.

PROVISIONS—Provisions reflected the weakness of corn. Trading, tho was light.

Belgian francs, demand, 14.37; cables, 14.35. Marks, demand, 2.61; cables, 2.62. Government bonds, weak; railroad bonds, heavy; time loans, strong; 60 days, 90 days and 6 months, 8½.

Call money, easy; high, 10; low, 8; ruling rate, 8; closing bid 10; offered at 10; last loan, 10. Bank acceptances, 6.

New York Stock Market.

Wall St., New York, May 13.—STOCKS—Selling of steels, equipments, motors and shippings continued during the first hour. Dividend paying rails recorded additional losses, Canadian Pacific declining 3½ points, Atlantic Coast Line 2 and Union Pacific, Illinois Central and L. & N. 1 point each. Commission houses traced most of the offerings, other than those of professional origin, to interior points, where restricted credits, labor disturbances and reduced business activity now prevail. Toward noon oils led a rally in which recoveries ran from 1 to 3 points, with a gain of 5 points for Atlantic Gulf, demand loans were unchanged from yesterday's ruling rate of 8 per cent but British exchange eased.

Lack of buying power effected further shrinkage of quoted values at the moderately opening of today's stock market. Overnight advices dealing with the general industrial and financial conditions were mostly of a character to give renewed encouragement to the short account, pressure continued to concentrate in steels, equipments, motors and textiles, in which reactions averaged a point. Investment rails also lost ground on prospects of a new strike in the middle west and specialties reflected additional liquidation.

Liquidation ceased at midday and gains of 1 to 1½ points over yesterday's final quotations were made by Crucible and Replogle steels, Baldwin, American car, Mexican petroleum, American woolen and corn products, while United States steel recovered its loss of a point. Trading became very quiet on the rebound.

Morning Grain Gossip.

(Furnished by B. C. Christopher & Co.)

Chicago, May 13.—Tribune: It is said leading eastern railroads have been ordered by the I. C. C. to send cars to western railroads for preferential movement of grain from the interior to terminal market.

In February when the preferential was placed on grain farmers refused to sell corn at $1.25 and below, now they are getting $1.85 to $1.90, which may be different.

It was said at the close yesterday that the corn market was more nearly evened up than at any time in months. A feature of the late trading was heavy buying of corn and selling of oats.

Steamer was due here last night with 110,000 bushels oats and 145,000 bushels barley from Fort William, Canada. It was being brought by the Armour Grain Co. for delivery on sales. Another cargo of Canadian oats is to be brought here by eastern shorts.

May rye acted heavy from the start. Fairly liberal deliveries are expected before the end of the month. During the day 25,000 bushels were delivered at Chicago, 200,000 bushels at Minneapolis and 300,000 bushels at Duluth. A New York message reported no export demand for ten days, altho f. o. b price maintained on account of the transportation situation.

Chicago Livestock Market.

Chicago, May 13.—CATTLE—Receipts 11,000. Beef steers, strong to 25c higher, with best action on light and medium weight; bulk at $11.65@13.50; prime heavy held up to $14.00; fat cows and heifers, unevenly 15c to 25c higher; bulk, $8.75@11.00; canners, steady with bulk at $5.25@5.75; bulls, strong; good and choice calves, steady; light, slow to lower, with bulk at $11.00@12.50; stockers steady.

HOGS—Receipts 35,000. Market active, mostly steady; spots, 10c lower; top, $15.35; bulk light butchers, $14.90@15.15; bulk 250 pounds and over $14.00@14.75; pigs, 25c higher with bulk desirables at $14.00@14.90.

SHEEP—Receipts 6,000. Market uneven, mostly steady; quality fair; California spring lambs, $20.00; bulk shorn lambs, $17.50@18.00; choice light shorn yearling wethers, $16.25.

Kansas City Livestock Market.
