With the British Armies in France, Aug. 15 (night)—Amiens is no longer silent and deserted.

In one of the most dramatic ceremonles of the war, while the famous cathedral resounded with speech and song for the first time in nearly five months, the relief of Pleardy's capital was celebrated today, simultaneously with reconsecration of the edifice which has been battered by German shells and bombs since March.

Today the Germans are 17 miles away, at the nearest point. The cathedral was re-opened at a mass attended by every soldier who could arrange the journey. A meeting will be held Monday evening at 8 o'clock at the Second Presbyterian church in the interest of organizing a kindergarten in North Paris, Aug. 16.—A railway more than 130 miles in length behind the French front has been built in less than 100 days and yesterday was opened for traffic. Its purpose is to improve communication between the northern and southern parts of the northern railway system. The construction involved the building of two important bridges and a tunnel 375 yards in length. Premier Clemenceau and Albert Clavelile, minister of public works, were present at the opening.

"All France," exclaimed the premier, "is working until the day when Topeka, Miss Harding, an experi-enced kindergarten teacher, will be "All France." exclaimed the premier, "is working until the day when
victory shall come—a day of which
the dawn is breaking."

GERMANY IS PEEVED

Doesn't Like England's Recognition of
the Czecho-Slovak Nation.

Amsterdam, Aug. 16.—German

Amsterdam, Aug. 16.—German newspapers comment bitterly upon the manifesto issued by Great Britain in recognition of the Czecho-Slovak nation.

"It is the acme of hypocrisy when England gives these notorious traitors a testimonial that they are waging legi. mate warfare," the Cologne Gazette says.

"This recognition will remain only a recognition on paper if the central powers, as they have so far, remain victorious against the world attack," says the Frankfort Gazette.

"Nevertheless England's step, which is doubtless backed by the remainier of the entente, must certaiply affect detrimentally the meagre prospects of peace, because promises have been made of a Czecho-Slovak nation, which promises could only materialize after the collapse of Austria."
