From the Kansas Farmer.

On proper presentation of the petition, the following rules were made:

1. No subordinate grange can subscribe stock to a joint company and afterwards assess its members for the purpose of paying the same.

2. There is no distinction between a dimit card and a withdrawal card, and a party holding a dimit is amenable to any subordinate grange in whose jurisdiction he is found.

3. Past masters and their wives who are matrons may be tried in the subordinate to which they belong, or in whose jurisdiction found.

4. Applications for dimit should be voted on by the grange, and a majority vote gives consent under the constitution.

5. Trading cards must be surrendered on application of dimit.

6. Dues can only be remitted to those who are unable to pay.

The subject of the Life Assurance Association was presented by Bro. G. Y. Johnson, and on motion it was decided.

1. That each class should not exceed 1,000 members in its association.

2. That sec. 2, art. 6, of by-law of this association be and the same is hereby repealed, subject to approval of the state grange at its next regular meeting.

Report of Bro. S. H. Downs secretary of the fire insurance company, received and referred to the president.

By vote of the committee, J. B. Shane was requested to make statement in regard to his plan for checking private fires throughout the state, and the matter was referred to the worthy Master Hudson, to have properly presented to the grange by circular.

The subject of relief for the destitute was taken up and most fully discussed and considered.

By vote Bro. Hudson was also authorized to forward communications to the national grange on the subject of relief, and also to send out circulars to each grange in the state asking them to report their condition and to contribute to the extent of their ability.

Both circulars were carefully prepared, and the agents and deputies of each county urged to give the matter their personal attention for the next sixty days.

Bro. Downs was requested to correspond with the railroads of the state and to ascertain if donated goods could not be sent free.

Bro. Hudson and Dumbauld were by vote authorized to confer with the Fort Scott manufacturing company on the manufacturer of the Werner harvester and other farm implements also with other establishments on the different kinds of farm machinery.

E. H. DUMBAULD, Chairman Ex. Com. K. S. G. P. of H. Use Your Power Wisely.
