Hot Weather Necessities

With winter past and the cold gone out of spring, you have begun to feel oppressed. Your winter surroundings are too hot, and you naturally look about for relief. And here are two heat-reducing necessaries.

Gasoline Stoves and Refrigerators

We handle the best improved vapor gasoline stoves
—easily generated, safe, and free cookers. They reduce heat to a minimum in the room, and give the maximum of results at the burners.

We are also showing well-made, tight refrigerators—an ornament as well as a necessity. Remember these things.

INSURANCE

A WISE policy has an anchor to windward in a storm because the wealthy has a terrible anxiety to do the best he can with his property by meeting an absolutely violent injury.

Notwithstanding, a policy with a good face, free from special condition, is the only protection. Mutual insurance companies can and do, and it is the only protection.
