COUNTY NEWS.

Castleton.

The wind still continues to blow, but it is an ill wind that blows nobody good and perhaps it may blow some rain this way.

The farmers are about done listing corn.

Miss Effie Holcomb was in Hutchinson, this week, purchasing a stock of spring goods for her father's store.

Mr. Abel Berends is just recovering from a severe attack of inflammatory rheumatism.

Our school will close next Friday.

Rev. Brown, of Hutchinson made a short call here while on his way to his appointment in Harper county.

Rev. Eunker, the Union Gospel Worker, talked to our young folks in the Sabbath school last Sunday.

Glendale.

Mr and Mrs. C. C. Connor were the guests of Frank Schveins Saturday night and Sunday.

Guy Colvard is working for Geo. Johnson. Bruce Hinshaw bought a cart and harness of Guy Colvard.

One week from next Saturday and Sunday will be quarterly meeting at this place, Rev. Morrison is presiding elder.

Bruce Schvein purchased a diving horse from Will Nelson.

Some one unexpectedly got the mitten Sunday night. For further information ask Dock Roseberry.

T. Schwein and Joe Roseberry are both buying hay.

Joe Swan has sold his herd of cattle.

Mrs. Swan is visiting in Nickerson for a few days.

Mr. and Mrs. Justice, of Sterling are visiting their daughter Mrs. S. S. Davis.

There were a few drops of rain fell Sunday night, but not enough to do any good.

Medford.

Fred Burgess has traded for a wheel. John Connor's driving horse, Ester, is very sick with pneumonia fever.

Some of Medford's graduates intend to take the teachers examination at Hutchinson next Saturday.

There never was a better prospect for fruit here than at present, especially apples and cherries.

Some of our young folks spent a pleasant evening at Peter Bonnets, one evening last week.

There was a mistake last week in the date of the graduating exercises to be held at the White school house. The exercises are to be held May 17th instead of the 18th as was stated in last week's issue.

While cutting stalks one day last week, Mr. Teggart's team of mules runaway and one of the mules hurt itself so bad it had to be killed. This is pretty bad for Mr. Teggart he had not had the mules but about a month.

Some of Medford's citizens have the Missouri fever, as there are some of them gone, some intend to go and some more want to go and can't, to southern Missouri. Those who have been there and come back say that it is the garden spot of the world.

A "DR. J. F. KYLL."

A London Physician Proved Guilty of the Whitechapel Murders.

GREEN GOODS MEN CAUGHT.

Two Notorious Scamps Inveigled to Philadelphia and Arrested—Seven Polanders Burned to Death in a Shanty.

SAN FRANCISCO, April 24.—Dr. Howard, a London physician of considerable prominence, who was the guest of William Greer Harrison at the Bohemian club recently declared that the mystery of "Jack the Ripper" was no longer a mystery among the scientific men of London or the detectives of Scotland Yard. He said that the assassin was a medical man of high standing and extensive practice. Shortly before the beginning of the Whitechapel murders he developed an unnatural mania for causing pain. Then the Whitechapel murders filled London with horror. The wife noticed that on each occasion her husband was absent. Finally she laid her suspicions before medical friends, and the detectives were called in and a complete chain of evidence against the doctor was secured. They then told him that he was the maniac who had done all the murders. He declared the impossibility of the accusation, but confessed that of late years there were gaps in the twenty-four hours of which he positively had no recollection.

The necessary papers were made out and the murderer was committed to an insane asylum. Dr. Howard said also that the physician butcher had become a raving maniac after his incarceration in the asylum and was beyond hope of recovery three months after his confinement.

Green Goods Men Caught.

PHILADELPHIA, April 24.—G. W. Robinson, John Brash and Samuel Wilkins, notorious green goods men, were inveigled to this city by a decoy message last night and arrested. Robinson had nearly \$2,000 of good money, made up in various packages, and a loaded revolver; Brash \$20 and twin boxes, one filled with green goods and the other with 10,000 stamped envelopes addressed to persons throughout the country, and Wilkinson \$1. Each had a return ticket.

Seven Polanders Burned to Death.

AMHERST, Wis., April 24.—Seven Polanders who were clearing land near the town of Wild Rose, were burned to death in their shanty. They had been aroused and it is supposed all were intoxicated when the fire occurred. No one can be found who knows their names.

BAD OUTLOOK IN CUBA.

Misery and Famine Expected to Follow the Close of the Sugar Season.

WASHINGTON, April 24.—A private letter received here from one of the leading business men at Havana, says: "Poor Cuba! The horrible condition of affairs here is not realized by the outer world. With the close of the sugar season next month there will be misery and famine. The sugar crop has been far below the average this year, and all of it will now be subjected to the new United States tariff on sugar. It means much loss to the planters, and, with the beginning of the 'dead season,' lasting from the close of the sugar season until next September, there will be no employment for labor. It means idle hands, white and negro. Such conditions cannot but add to the smoldering fires of the rebellion."

HORSE CANNING.

Advices Report a Thousand Horses Sold to Portland Ore. Parties for Tanning Purposes.

PORTLAND, Ore., April 24.—Advices from eastern Oregon are to the effect that a thousand horses had been sold to Portland parties to be slaughtered and the meat to be canned and offered for sale, but who the parties are cannot be ascertained. Members of all butchering firms in this city were asked about the matter to-day, but all denied having any knowledge of the sale of the horses, or the purpose of the parties to slaughter them for profit. One of them had heard that there was such a plan on foot. It is supposed that the reports are correct.

IOWA DEMOCRATS CONFER.

Leading Members of the Party in Consultation Regarding the Coming State Election.

DES MOINES, Ia., April 24.—The members of the democratic state central committee and all the leading democratic editors of the state, with full delegations from Davenport, Burlington and other strongholds, are holding a meeting to-day to decide on the date for the democratic state convention and to map out the policy to be pursued in the campaign. An effort will be made to confine the campaign to state issues as far as possible.

RAINS IN OKLAHOMA.

Too Late to Help Wheat, but Will Save the Oats and Corn.

HENNESSEY, Ok., April 24.—An excellent rain has been falling the past four hours, with prospects of continuing. This is the first rain of any account that this country has had since October, and it is too late to help the wheat, but it will be the salvation of the oats and corn. The corn acreage has been increased in this vicinity tenfold, and oats nearly as much. It is thought about one-fourth of the wheat crop of last year will be raised.

Lumber Burned.

MARSHALLTOWN, Ia., April 24.—Fire at Carroll yesterday destroyed D. Joyce's lumber yards and other property, aggregating \$35,000. Small insurance.

Hotel Burns Destroyed.

EMPORIA, Kan., April 24.—Yesterday evening the Park place hotel was badly damaged by fire and the barns connected with it totally destroyed. The loss will be about \$2,000; fully insured.

TO AID THE FARMERS.

An Interesting Investigation Which the Agricultural Department is Pursuing.

WASHINGTON, April 24.—Prof. H. W. Wiley, the chemist of the agricultural department, is conducting a series of experiments to determine the fertility of the typical soils of the United States. The object is to determine the fertilizer necessary to restore the fertility of any soil, and to save the farmers the thousands annually spent for fertilizers which do not meet the necessities of the soil to which they are applied. The work was specially authorized by the last session of congress. By the help of the agricultural stations in various parts of the country the typical soils of the various sections are being collected by persons competent to judge them. The pots of soil experimented upon will be photographed at stated intervals so that evidence of the productive qualities of different classes of fertilizers may be shown.

BARGES SUNK.

Towboats Strike the Piers of a Bridge and Thirteen Barges Go Down.

ASHLAND, Ky., April 24.—The towboats Onward and I. N. Burton, of Pittsburgh, with tows owned by C. Jutte & Co., of that place, struck the piers of the Kenova, West Virginia & Western railway bridge in a heavy fog last night and sank thirteen barges. Farther down the river, the tows having become unmanageable, struck the bank and tore loose in all about thirty rafts of timber, owned by Calletsburg parties. None of these have been reported landed. The boats escaped injury and there was no loss of life.
