Henry Ketelson and Chas. Tuttle returned from St. Joe, Mo. Wednesday. They report having had a "hot time" and their looks verify the statement. Mr. Ketelson spent a couple days in Omaha while away.

Tom Spence, of Lewis, was kicked in the side by a horse last Friday and had two ribs broken. Mr. Oliphant's son was also kicked in the face and badly bruised. This makes three accidents of this sort within a week, one of which was fatal.

F. D. West lost a very fine horse this week through an accident. He was unhitching after having returned from a drive when the team took fright and ran away, with the result that one of the horses had its leg broken which necessitated its being shot.

The fire laddies cornered a "Spaniard" in the fire house Wednesday night. About twenty of them formed in line of battle and made a combined attack, and in a short time had the enemy Schleyed with the loss of only two or three badly shot and several others slightly scarred.

Again the Santa Fe well has proven a fizzle and they are making preparations for another attempt. If there is any virtue in the old saw, "if at first you fail, try, try again," these fellows will some day get the particular brand of water they are looking for.

Rev. Richard H. Harper is expected to preach at the Congregational church next Sunday morning at 11 o'clock, and evening at 8 o'clock. The Congregational people hope to be able to be able to arrange for regular services soon, and there is a possibility of Mr. Harper coming as pastor.

Mrs. Savely, whose husband lives on the Pryor farm in Lincoln township, died of typhoid fever on Tuesday, August 16. She leaves a husband and four small children. One year ago, her sister died leaving a little baby which Mrs. Savely has cared for, so her death leaves her a little ones motherless. She was a woman greatly respected by all who knew her.

It is hardly necessary to call attention to Goldsmith's ad. this week, (it was set up for the purpose of doing that job itself) but we want to say that it means just what it says, and that you will miss a rare opportunity of learning something of advantage about cooking stoves if you do not attend this cooking exhibition. If you are not in need of a stove, call anyhow and look over the new hardware stock which is a beauty.

Take a dose of PRICKLY ASH BITTERS at night before going to bed and you will feel bright and vigorous next morning. It will insure you a copious and healthy action of the bowels, improved appetite and digestion, and increased energy of body and brain. Col. G. W. Hall's "Monster Railroad Show" was with us again last week. It was all out the same old gag it has always been—a good what there was of it, but not very much of it; neither deserving criticism or meriting praise. The only thing worth mentioning were the trained animals which partially compensated for the lack of anything interesting in the other part of the show. It was a very good example of how little is necessary to make a circus.
