

Republican County Convention.

A republican county convention will be held in the court house at Wa-Keeneey, Kansas, on Saturday, September 2nd, 1893, at 1 o'clock p. m. mountain time, for the purpose of placing in nomination candidates for the following offices: County clerk, treasurer, sheriff, register of deeds, county surveyor, coroner, clerk of the district court to fill vacancy and commissioner for 2nd district.

S. R. COWICK, Chairman. C. M. BELL, Secretary.

CLEVELAND'S message is before the people for their judgment. We are unable to give it entire in this issue, nor is it necessary as it contains but one salient point, a single proposition—the unconditional repeal of the Sherman law.

It is a recent visit to a crowded metropolis we happened to be in the vicinity, at the hour of 6 o'clock in the evening, where many laborers were employed. The whistles had just sounded, as the signal that another day's work had been completed, and the laborers, many of them with their little tin pails, were hurrying homeward.

THE "Hold your wheat racket" has been pigeon-holed by the populists, and it will remain there until the government warehouse scheme is revived. If, as the populists are fond of repeating, the republicans and democrats are one, why don't they ever fuse? We pause a moment for a reply.

The little spring in the mountain rock becomes a brook, a torrent, a wide rolling river, and a part of the fathomless ocean, simply by pushing steadily and bravely forward. In this country, among people who are equally protected and encouraged, the secret of success lies in the steady pursuit of intelligence, industry, temperance and frugality.

THE Trego County Central committee assumed to say who should be the democratic postmasters in Trego county. Since they rendered their decision there has been but one appointment and that was not the applicant backed by the committee.

POLITICS seem to be exceedingly quiet in our county, although there may be a rapid under current that will shortly come to the surface. The republicans, who are candidates, apparently are content to have the party make selections and they seem to be making but little effort for themselves.

JOSH BILLINGS used to say, in speaking of long sermons, that "a minister who couldn't strike ile in twenty minutes was boring at the wrong place or had a mighty poor anger." Josh was about right, and we might add that the editor who doesn't write altogether for "fillin'" had better study abbreviation during the dog days that are now upon us.

WE quit writing it "Wyandotte" several years ago because G. W. Martin, of the Kansas City (Kansas) Gazette was so extremely sensitive upon that subject.

AN interesting pension case came to the knowledge of a physician in northern Delaware. He amputated a man's leg some years ago because of a disease contracted by the patient shortly before.

THE phenomenon of double consciousness, so skillfully used in "Dr. Jekyll and Mr. Hyde," is by no means uncommon. Many mysterious disappearances are by it accounted for in a manner wholly consistent with the innocence of the missing one, and even with his apparent sanity.

A UNIQUE marital rite was recently performed by Rev. William Mairer, a celebrated colored divine of Clinton, N. C. In addressing the groom, he said: "Do you promise to protect her, to keep her, not to go to Georgia, and stay with her always, so help you God!"

NOTWITHSTANDING the cry of hard financial conditions, the country districts give no apparent signs of distress. Money is close, as it always is at this season of the year, but on stable forms of security money in reasonable amounts is readily secured.

THE secretary of the treasury has decided that all immigrant trains entering the United States from across the northern border must pass the boundary in the daytime, to permit the most thorough inspection.

IT is stated that a saloon in Chicago has added two hundred and fifty thousand dollars worth of paintings to its other "attractions."

WE learn from nautical records that since 1840 thirty-seven vessels of which a part of the name was "City of" have been wrecked or lost.

Aerial Navigation.

Among the congresses to be held in Chicago during the time of the world's fair, the one which may have the most important bearing upon the future of the human race is probably that which has been convened for the purpose of discussing the question of aerial navigation. Whether the machine which is being constructed at the Smithsonian institution will be finished in time to permit of its exhibition has not transpired; but there will be models by Maxim, the Englishman, and others, which will be entitled to the respectful consideration of scientists.

A NOTED Japanese artist, K. Morimoto, who recently arrived in Chicago with his wife, is said to be the first of his profession to visit America from Japan. He has occupied high political places in his native land, and, being a gentleman of ample means, he intends to take a house in Chicago, to stay several years. His principal object in coming to America, aside from that of gaining the knowledge which is acquired by travel, is to raise the funds necessary for the establishment of a school in Japan for deaf and blind children.

It is a familiar fact that persons born deaf are usually mute not from any congenital defect in the organs of speech, but from the fact that, never having heard others speak, they cannot imitate articulate utterance. It is probably true, too, that the source of some current errors of speech among those who are not esteemed deaf lies in a defect of hearing.

AN interesting pension case came to the knowledge of a physician in northern Delaware. He amputated a man's leg some years ago because of a disease contracted by the patient shortly before. Later, when pension legislation became more and more liberal, the same man came to the same physician to be examined preliminary to applying for a pension.

THE phenomenon of double consciousness, so skillfully used in "Dr. Jekyll and Mr. Hyde," is by no means uncommon. Many mysterious disappearances are by it accounted for in a manner wholly consistent with the innocence of the missing one, and even with his apparent sanity. A very singular recent case was that of a western judge who went away from home while deranged from overwork and became a day laborer under another name.

ONE of the curious features of the New York sub-treasury count is the number of bags which have never been emptied since they left the mint. Most of the silver dollars now being handled have upon their coverings the dust which has accumulated since the last count, four years ago. There has been no call for them, and they have remained in the sub-treasury vaults like ore in a mine.

A UNIQUE marital rite was recently performed by Rev. William Mairer, a celebrated colored divine of Clinton, N. C. In addressing the groom, he said: "Do you promise to protect her, to keep her, not to go to Georgia, and stay with her always, so help you God!" The groom's love was strong and he promised.

NOTWITHSTANDING the cry of hard financial conditions, the country districts give no apparent signs of distress. Money is close, as it always is at this season of the year, but on stable forms of security money in reasonable amounts is readily secured.

THE secretary of the treasury has decided that all immigrant trains entering the United States from across the northern border must pass the boundary in the daytime, to permit the most thorough inspection.

IT is stated that a saloon in Chicago has added two hundred and fifty thousand dollars worth of paintings to its other "attractions."

WE learn from nautical records that since 1840 thirty-seven vessels of which a part of the name was "City of" have been wrecked or lost.
