BROKE ARM

Little Anna Howel age six years, living north of Liberal received a broken arm Monday, while she was playing on a saddle which had been thrown across the manger in the barn. In her play she fell from the saddle and received the injury.

Several of the Liberal young people will attend the dance at Garden City this evening.

Jim Julison was up from Gray the first of the week attending to some business interests.

B. H. Albertson was quite ill several days this week at his home on N. Prospect.

S. A. Miller and family and Rev. Eli Walker returned last night from a two weeks vacation in the Colorado Mountains.

Mr. and Mrs. Fred Murchison and little son are down on the W. O. Nelson farm near Lorena where Fred is putting out a wheat crop for Dr. Nelson.

Contractor A. T. Willey has just received the contract for building a six-room house for D. E. Strickland 12 miles south of Liberal. Mr. Strickland is one of the progressive farmers of that section and deserving of the best.

A. A. Farmer attended the celebration at New Ulysses last week and says he had as splendid visit. However Al says all his old acquaintances up that way are thin and he cannot figure out the reason. He says that in the old days all were hearty, robust men, but now they are built more on the order of jack rabbits.

Patronize Home Industry

The Liberal Auto Supply Company is bidding for your Oil and Gas business. We submit two reasons why we feel that it is to your interest to buy from us.

FIRST: Our Gas is a Kansas product of proven superiority; manufactured by an independent refinery from Kansas crude. We feel that the public is interested in protecting the independent refineries which have been a factor in causing more reasonable prices on gas and oil. Those who are using our gas and coal oil will tell you that they are getting better satisfaction than from any other brand. Drive in and get a supply and increase your mileage.

Our Pure Pennsylvania Lubricating Oils are meeting with favor among car, truck and tractor owners. Pennsylvania Lubricants have long been known as possessing superior lubricating qualities and we can cite you to specific instances where they have surpassed all others.

Cut your oil and gas bills by buying a quality which goes further at no greater expense and patronize a home institution which is a factor in the growth of the community; which pays heavy taxes to support local schools and other institutions and which gives service equal to the best. The next time you need oil, gas or coal oil drive into the big white filling station. It's handy to you.

ILL HEALTH COMPELS CADOU TO TAKE VACATION

Felix L. Cadou, manager of the Liberal Light, Ice and Power Company, will leave in the next few days for Cuchura Camps, Colorado, where he will spend a month upon order of his physician.

Mr. Cadou has been handling the Liberal and Dalhart plants for the Commonwealth Light and Power Company of New York City, and the strain of putting both plants in first class condition has been too much for him. In his weakened condition an attack of stomach trouble caused the order from his physician to take at least thirty days vacation.

Mr. Cadou was just moving to Liberal and all will regret to hear that he is forced to leave for so long a time, and hope he returns sound in health.

Stole Goods from Evans Harness Co.

The Evans Harness Store was entered Sunday evening and a suit case and two pair of shoes were taken, aside from \$4.50 in change from the cash register. The loss is estimated at \$35. Entrance was made from the back door by breaking the glass and unlocking the door. Later in the evening when the officers came to the scene the back door was found locked.

RAIN NEEDED BADLY

A visit to the country and a survey of the acres and acres of kafir and maize will convince one that this part of the country is needing rain very badly and unless we get one soon there will be a very short crop this fall. We have not had a good general rain since long before harvest, although we have had a few light local showers in almost every community. However these light rains do not go very far toward maturing crops. The kafir and maize yield will be greatly cut down by the drouth if we should get an ideal season until fall.

Pastures are needing rain now worse than they have for several years, and it is almost impossible to prepare ground for sowing wheat, which means that the winter wheat pastures will be late.

A good general rain would help this country more than anything right now and we are all waiting, not too patiently, for it.
