

Mrs. Frances M. Anderson, daughter of Hon. Judge Anderson of Virginia, is at present in Washington, D. C., as Corresponding Secretary of the Higher Educational League, of that city. Cured of the grippe by Peruna.

MISS FRANCES M. ANDERSON, Corresponding Secretary of the Higher Educational League, writes from the "Astoria," Washington, D. C., the following: "About two months ago I was taken very ill with the grippe and was obliged to go to bed. I took three bottles of Peruna with very beneficial results, and was able to leave my bed in a week and regained my usual strength very soon. "I have nothing but praise for Peruna, and recommend it to those similarly afflicted whenever I can."—Frances M. Anderson. La grippe is, strictly speaking, epidemic catarrh—that is to say, a variety of acute catarrh which is so contagious and runs a course more or less definite, the same as scarlet fever, whooping cough, etc. During the acute stages of the grippe it is not a very fatal disease, but the condition in which it leaves the system has caused the death of a countless number. Indeed nearly every person who has had the grippe within the last three years finds himself more or less debilitated by the pernicious effects of this disease. The majority of those who have escaped death find life scarcely worth living. It is this vast multitude of people only know with what certainty and promptness Peruna would relieve them of all the bad effects which the grippe has brought upon them, what an untold amount of suffering would be averted. Thousands have already heard how quickly this remedy will cure in these cases and have been saved; but tens of thousands have not yet heard, and con-

WHY RECRUITING GOES ON.

Two Thousand a Month Is the Average Rate.

TO DISCHARGE VOLUNTEERS.

Washington, Jan. 21.—Active recruiting for the army is in progress in all the principal cities of the country. The authorized strength of the regular army is at present 65,000 men, and the recruiting in progress is with a view to maintaining it at that strength after the discharge of 35,000 volunteers June 30 next. All enlistments are for three years and the number of recruits averages about 2,000 a month. Owing to the delay in action on the army bill, the impression prevails in the war department that it will be almost impossible to get all the volunteers to their country in time to permit their discharge here by June 30. In that case it will be necessary to discharge a number of them in the Philippines on that date in order to keep them there until replaced by regular troops now being recruited. Otherwise it would not be possible to keep the Philippine army up to the limit of 40,000 men, regarded as essential to the enforcement of the president's policy, while the proposed reorganization of the army is in progress. It is said at the war department that while it is settled that all volunteers will be discharged June 30, the course of events in the near future will determine to a considerable extent whether the discharges shall take place in the Philippines or in the United States. Every effort will be made to get as many of them home as possible before their discharge.

Strike in Shipyards.

New York, Jan. 21.—A strike in the Nixon shipyards at Elizabeth N. J., threatens to tie up the yard and greatly delay the government work now in progress on ships for the navy, besides a number of private contracts, including five submarine boats. The strike took place because nine alleged non-union carpenters were employed. A delegation of four men waited on Mr. Nixon and asked if he would not discharge the men. He refused to treat with the men, and instead of discharging the non-union men, discharged the delegates.

Would Pay Employes First.

Topoka, Jan. 17.—Representative Hallett believes that the wages of employes should be protected in case of business failures and he has prepared a bill carrying out that idea. It provides that when a firm or corporation fails the wages of the employes shall be paid first out of the assets. Then, if there is anything left, the other creditors can fight over it.

Must Use the General Law.

Topoka, Jan. 19.—The senate ways and means committee has resolved to turn down all special bills to vacate townships and parts of townships, for the reason that there is already a law providing for such vacation. The action of the committee will greatly reduce the calendar, as about 70 bills now in are for this character of legislation.

Orient Concession.

Chicago, Jan. 21.—A special to the Chronicle from El Paso, Tex., says: Governor Miguel Ahumada of Chihuahua, Mexico, who is attending the midwinter carnival here, has signed a concession for a railway across his state to A. E. Stillwell of Kansas City, the promoter of the Kansas City, Mexico and Orient railway.

The Asylum Scramble.

Topoka, Jan. 19.—The asylum fight between Parsons and Clay Center is winding up. The city of Clay Center fought it out in the courts as to which city should be made the site of the asylum. Parsons lost, but maintained its standing. Now Clay Center gloats in the discomfiture of its rival because the project is to repeal the bill of the previous legislature which made an appropriation of \$100,000 for the building of the proposed asylum, available until June 30, 1901.

Rockhill Needed Here.

New York, Jan. 18.—A special to the Herald from Washington says: Mr. W. W. Rockhill, special commissioner of the United States to China, has been recalled. Mr. Rockhill's withdrawal is due to the desire of the administration to have him in Washington, where he will be able to advise the president and Secretary Hay on the Eastern problem. He will leave Pekin for the United States as soon as navigation opens.

Western Union Wins Suit.

Fort Scott, Kan., Jan. 21.—A jury in the district court here refused to give Mrs. Louise Rogers a judgment for any amount against the Western Union Telegraph company on account of the company's failure to deliver to her a message of the death of her son. The son died in Joplin and was buried several days before she received the telegram which was sent on the day of his death. The company claimed to have made a diligent effort to find her. She sued for \$5,000.

Therefore Subject to City Ordinance.

Kansas City, Jan. 19.—Judge Hook, in the United States circuit court, decided in favor of the Her Brewing Company against the United States. The government collected \$3,140 as revenue on proprietary medicines, the government's contention being that the "tonic" was a tonic in the medical sense. It also collected upon it the beer tax of \$2 per barrel. Her brought suit to recover upon the ground that the tonic contained 2 per cent alcohol, and was, in fact, not a tonic but a beer.

Senator Clark Wins.

Helena, Mont., Jan. 16.—The joint senatorial caucus was attended by 37 members, every one of whom voted for William A. Clark for the position held by Thomas H. Carter. It is confidently believed Clark will have a majority in both houses and may be elected today. The Democrats took no action on the short term senatorship. The Republican caucus named Thomas H. Carter for the long term by a vote of 29, the full Republican strength of the legislature.

FIFTY-SIXTH CONGRESS.

Army Reorganization Bill Goes to Conference Now.

WASHINGTON, D. C., Jan. 21.—The army reorganization bill continued to engage the attention of the senate, and is likely to do so during the first half of the week or longer. The bill, which provides for the reorganization of the army, is the subject of much discussion. It is expected that the general appropriation bills will be passed by the house in the next few days. The bill is likely to be passed by the house in the next few days. The bill is likely to be passed by the house in the next few days.

World's Oldest Practising Physician.

Dr. Gallus Ritter, of Hohenheim, Carlsbad, is probably the oldest practicing physician in the world. He is ninety-seven years of age, looks after the poor of the town and goes to the theater regularly. He is an Austrian imperial court counselor.

Rainfall at Los Angeles.

The normal rainfall of Los Angeles is 16.25 inches a year. For the last seven years the average was only 69 per cent of this amount. The water of the San Diego water was pumped from wells three hundred feet deep. The recent heavy rains have restored the balance of things.

Tunneling Great Ditch.

Omaha capitalists propose to tunnel the great continental divide, 80 miles to Denver and 12 south of Georgetown, and operate an electric road through it. It will start at the base about 14 miles from Grant and terminate at the headwaters of the Snake river, will be 7,000 feet long and 1,700 feet deep. The object is to facilitate mining operations.

Will He Prosecute Himself?

A. J. King, recently elected prosecuting attorney of Vernon county, Missouri, may have to conduct a lawsuit against himself. When county recorder he was sued by the county for \$4,000, which it was claimed he owed the county on fees collected and not turned in. The case has been in many circuit courts and has been set for a rehearing Jan. 28.

Engineers Build Against Baroque.

The knowledge which has been obtained from observation respecting the nature of earthquake motion, and from experiments made upon brick and other structures, has led to the establishment of new rules and formula for the use of engineers and builders. In Japan and other countries these have been extensively applied in the construction of bridges, houses, chimneys, walls, ordinary dwellings, embankments, reservoirs, etc.

POLICE OFFICER RESCUED.

Omaha A. C. Swanson of the Council Bluffs Force Told an Interesting Story. Council Bluffs, Iowa, Jan. 19, 1901.—(Special.)—Kindhearted Officer Swanson of the local police force is very popular in this city. He has lived here for seventeen years, and has enjoyed high offices in social and society work. He is now Vice-President of the "Danerborg" Brotherhood, the largest Danish secret society in America, which combines benevolence with the social features. Owing to the constant exposure and many hours on his feet, which his duty as a police officer makes unavoidable, Mr. Swanson became the victim of serious Kidney and Liver Trouble. He was very bad, but has entirely recovered. He gives the story in his own words as follows:

Almost Blind.

Mr. D. Kessing, Hannock, Ky., says: My little four year old girl's eyes were so weak from birth that she could not stand any light at all. Was treated by several physicians without benefit. My neighbor persuaded me to buy Morley's Sarsaparilla and Iron from Mr. O. Daugherty, Hannock, Ky. Three bottles not only restored her sight, but made her stronger and healthier than she ever was in her life. Sold by E. W. Greve's Drug Store.

Er-Governor Mount Dies.

Indianapolis, Ind., Jan. 20.—James A. Mount, who retired Monday morning from the office of Governor of Indiana, died very suddenly in his apartment at the Denison hotel. He had attended a reception tendered by Mrs. Mount to a number of prominent ladies of the city, and shortly after the guests had departed he started for a walk. He returned soon and sat down to read but was stricken immediately and before a physician could get to him he was dead.

No Prize Fights in Kansas.

Topoka, Jan. 15.—Fifteen minutes after Governor Stanley was sworn into office for his second term a telegram from a Cincinnati newspaper was placed in his hands reading as follows: "Please wire us whether you would allow Jeffries and Bush to fight a limited number of rounds in your state in case the fight is prevented here."

To this the governor wrote the following reply:

"There will be no prize fight in Kansas while I am governor."

A CRY FOR HELP.

Result of a Prompt Reply.—Two Letters from Mrs. Watson, Published by Special Permission.—For Women's Eyes Only.

March 15, 1899.

To MRS. PINKHAM, LYNN, MASS.: "DEAR MADAM:—I am suffering from inflammation of the ovaries and womb, and have been for eighteen months. I have a continual pain and soreness in my back and side. I am only free from pain when lying down, or sitting in an easy chair. When I stand I suffer with severe pain in my side and back. I believe my troubles were caused by over work and lifting some years ago.

"Life is a drag to me, and I sometimes feel like giving up ever being a well woman; have become careless and unconcerned about everything. I am in bed now. I have had several doctors, but they did me but little good.

"Lydia E. Pinkham's Vegetable Compound has been recommended to me by a friend, and I have made up my mind to give it a fair trial.

"I write this letter with the hope of hearing from you in regard to my case."—Mrs. S. J. Watson, Hampton, Va.

November 27, 1899.

"DEAR MRS. PINKHAM:—I feel it my duty to acknowledge to you the benefit that your advice and Lydia E. Pinkham's Vegetable Compound have done for me.

"I had been suffering with female troubles for some time, could walk but a short distance, had terrible bearing down pains in lower part of my bowels, backache, and pain in ovary. I used your medicine for four months and was so much better that I could walk three times the distance that I could before.

"I am to-day in better health than I have been for more than two years, and I know it is all due to Lydia E. Pinkham's Vegetable Compound.

"I recommend your advice and medicine to all women who suffer."—Mrs. S. J. Watson, Hampton, Va.

This is positive proof that Mrs. Pinkham is more competent to advise sick women than any other person. Write her. It costs you nothing.

\$5000 REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. LYDIA E. PINKHAM MEDICINE CO.
