MONEY AND HAPPINESS.

John Burroughs Discusses Their Relations to Each Other.

Ithaca, N. Y., Jan. 20.—John Burroughs, the naturalist, who is visiting here, believe that few millionaires are really happy. He is quoted in an interview as follows: "I do not believe in the doctrine attributed to John D. Rockefeller that if you want to make your wife happy all you have to do is to give her plenty of money. I do not believe that possession of money and happiness are synonymous. If Mr. Rockefeller has been quoted correctly he is making a declaration that I believe American women and men all over the world will resent. They want love first of all if they are provided with the right instincts."

"I sat behind Jay Gould in school and once he wrote a composition on a slate for me when I needed ideas. That day he needed 70 cents and I gave the sum to him for two old school books. I saw him later in life when he was worth 70 million dollars but I do not think he was happy. The money fire was blazing in his eyes, and I am sure it reached his brain and consumed his life, sending him on an untimely grave."

"The great problem of today is the making of money. It is unquestionably the occupation that engages the minds of the vast majority of people. But from what I have seen of life and those leading it, when one has obtained a competency money is superfluous, just like an excess of what is not needed to round out the figures and give it a handsome appearance. Piling up wealth then becomes like piling on flesh and greatly hinders the enjoyment of the best things of this life."

"I know millionaires, and know very few happy ones. True, Mr. Carnegie seems to be an exception because he is different from many other rich men. He is trying to get rid of his money, and he takes a keen delight in doing good with it."

"But even when one disposes of wealth, if there is the consciousness that in acquiring it the weaker creatures have been overcome and saddened, I think there must be a tinge of regret in helping others with this very fruit that has been obtained at such cost."

"Money, of course, is necessary to provide the comforts of existence, but cultured people—I say cultured people, mind you—cannot doubtless be contented with books when they cannot buy automobiles."

The prime cause of trouble is in the stomach. It is being digested the food seldom cries and always looks cheerful; the little child whose stomach is good romps and plays and never whines; the growing child learns well at school and is eager for fun if his head is clear and his stomach light, and that means if it has no constipation.

The best and safest way to cure any irregularity of the stomach and bowels in children is by the use of Dr. Caldwell's Syrup Pepsin. This is a liquid laxative which is as pleasant as candy and is sold in bottles of 10c, 25c, 50c, 75c, 1.00, 1.50, 2.00, 3.00, 4.00, 5.00, 6.00, 7.00, 8.00, 9.00, 10.00.
