Dr. Outland who operated upon Wm. Marshall of Maple Grove addition a few weeks ago at Bethesda hospital was out calling upon him yesterday morning.

Mr. Marshall is rapidly recovering from his long illness and is able to be up the greater part of the time.

No Fourth of July accidents have been reported so far. The nearest to such a thing happened at the C. W. Thompson stand on the avenue near Gordon street when a box of fireworks exploded this morning.

They were promptly thrown into the street before the rest of the stock took fire and no damage resulted.

The police were unusually busy and vigilant last night in arresting the small boy who in his patriotism and enthusiasm for the glorious Fourth failed to wait until after midnight but shot off some firecrackers which it was still the third of July.

An automobile was kept busy making trips up and down the avenue looking after such offenders. It is to be had that such vigilance could not have been maintained in North Topeka when the merchants on the avenue were being nightly robbed.

Repairs on the Good Shepherd Parish house have been about completed. The work of papering and painting has been finished and the connection with the gas mains made.

Mr. C. W. Nau expects to move into his new home next week. The room which will be occupied by the school will be ready for the first time for this purpose Saturday.

This sewing school which was organized by Miss Juliet Smith at the Church of the Good Shepherd is open to all children whether members of this Sunday school or not and they will be most cordially welcomed. The school is now under the management of Miss Lella Caldwell.

A jolly crowd of relatives and friends enjoyed a picnic today at Allendale, the country home of Mr. and Mrs. A. J. Berry about two miles west on the lower Silver Lake road.

Young America Didn't Wait for Daylight.

Police Make Feeble Attempt to Enforce New Law.

With the booming and roaring of cannon of greater and less degree and the short, sharp crack of powdercrackers of all sizes, the advent of another Independence Day, dated on the calendars as July 4, was ushered in last midnight by the small boys and a good many larger boys as well.

If, as it seems to be, noise is the synonym of youthful patriotism there was plenty of evidence today that the youngsters of Topeka are not entitled to seats on the back row of any gathering of the patriotically inclined. In fact they ought to have seats well up towards the front, for it would have been well nigh impossible for any similar number of children the country over to have made more of a racket.

A good many of the lads, and many of the girls, were big enough and the city was so packed with them that it was difficult to know better, started in with their noisy celebrations hours before the Fourth arrived, but the great majority hooped up their all-out efforts in the early morning hours when they started in with vigor to make Topeka howl.
