BAD FOR POTATOES

Recent Flood in the Kaw Valley Destroys Many Acres.

Several Farmers Had Their Yields Washed Out.

WET CAUSED SUNBURN

Prospects Two Weeks Ago Were for 200 Bushels Per Acre.

Damage Worst Around Linwood and Bonner Springs.

Lawrence, Kan., July 8.—Potato growers who are beginning to get into their fields again after the heavy rain, amounting almost to a flood, of Saturday of last week, say the storm damaged their fields much more than they realized at the time.

The ground was already soaked full of water when the heaviest rain fell, and since most potato fields in the Kaw valley are very level the water stood upon them in sheets, remaining for two or three days. The soil was washed some, but the principal damage is from sun-scalding of the parts that protruded above the water.

Most of the damage reported from washouts is in the valley of the little Kaw, east of here, where it rained steadily for three hours, fully three inches of water falling. The flood that resulted brought that creek out of its banks, and the stream found its way across the fields to the river. Many fields were badly washed out. John Fore had 18 acres of potatoes which were nearly all destroyed. The prospect before the storm had been for 200 bushels to the acre.

From Linwood east, particularly at Loring, Lanape and Bonner Springs, the trouble was worst. Matt Hooper estimates his loss at 15 acres. John Nelson at Wilder says he lost 12 acres, which was at one time under six feet of water. James Mann estimates his loss at ten acres, and William Weidgrube figures his loss at eight acres, plus others lost smaller areas, all of which had promised good yields of tubers.

Had did some damage in places. One field of wheat was threshed standing by it.

WESTERN FARMERS DESPERATE. Losing Much Wheat Because They Can Not Secure Help.

Kinsley, Kan., July 8.—Farmers are losing considerable wheat in this and Ford counties from sheer inability to get enough help to save it. After months of patient labor and care the farmer is desperate to see his efforts lost to him and his family because at the critical week he cannot find people willing to help save his harvest.

MEN ALONE ARE NEEDED. To Get the Orient Line Completed into Wichita.

Wichita, Kan., July 8.—A. H. Dikins, son, superintendent of the Orient railway, has returned from an extended trip through the east.

Concerning the completion of the line into this city, Mr. Dikins says: "We are practically tied up for want of men. Nearly all our track layers at Clinton, Ok., have quit and gone to the harvest fields. We intend to begin laying track in this city today, but can't get the men. We need from thirty to forty men at once, and although we are offering \$1.75 and \$2 a day, we have not as yet been able to pick up a man."

As soon as Foreman Ramsey can organize his gangs, he will commence laying track from the street car loop at the corner of Emporia avenue and Bailey street to the junction with the Frisco railroad at Gilbert street. The Wichita Railroad and Light company will tear out its loop in a day or two now, and as soon as we can assemble men, enough it will take us only three or four days to lay the track.

"We will cross the Rock Island and Santa Fe tracks at the point where they intersect each other, and will put in what is known as an interlocking plant. All that will be necessary to change in the Rock Island and Santa Fe crossing will be the addition of two more branches to the crossing plates. When this interlocking plant is installed it will be one of a few of the kind in this country, as there are not very many cities in which three railroads cross one another at the same point.

"Several cars of brick and cement have been ordered for the freight depot which is to be erected at the southeast corner of Mosley and Douglas avenue. We can't do anything toward the depot however, until the old buildings are moved off the premises. These tracks have been bought by James Tandy, who has them for sale."

Auditor Horton has decided that his only safe course is to refuse to pass major's demands unless they bear the signatures of both Schmitz and Gallagher.

PIGEONS TURNED LOOSE.

Several Hundred Birds From Chicago Set Free at Emporia.

Emporia, Kan., July 8.—Seven hundred homing pigeons that were expressed to Emporia by the Chicago Coursing association, were liberated Saturday at the Santa Fe station by D. L. Mast, a flagman for the Santa Fe.

As soon as the pigeons were liberated they flew several hundred feet into the air, and after circling around a dozen or more times started in a direction which must have been almost a direct line to Chicago. Only about a dozen of the 700 pigeons seemed at a loss to know what to do. This number remained until after the rest had started northeast, then they flew after them. A homing pigeon will average 50 or 60 miles an hour.
